The American and English Encyclopedia of Law and Practice The American Yawp

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass* The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman

and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume II opens in the Gilded Age, before moving through the twentieth century as the country reckoned with economic crises, world wars, and social, cultural, and political upheaval at home. Bringing the narrative up to the present, The American Yawp enables students to ask their own questions about how the past informs the problems and opportunities we confront today.

Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

THE ENDURING VISION's engaging narrative integrates political, social, and cultural history within a chronological framework. Who's who in America

This economic and technical history of the early American bicycle industry focuses on the crucial period from 1876 to the beginning of World War I. It looks particularly at the life and career of the industry 's most significant personality during this era, Albert Augustus Pope. After becoming enamored with English high-wheeled bicycles during a visit to the Philadelphia World 's Fair in 1876, Pope soon started paying Hartford, Connecticut 's Weed Sewing Machine Company to make his own brand of high-wheeler, the " Columbia, " the first to be manufactured in America in significant numbers. A decade later, Pope bought out that company, and ten years after that, Hartford 's Park River was lined with five of Pope 's factories. This book tells the story of the Pope Manufacturing Company 's meteoric rise and fall and the growth of an industry around it.
