In this instant New York Times bestseller, a young and successful entrepreneur makes the case that politics has no place in business, and sets out a new vision for the future of American capitalism. There's a new invisible force at work in our

economic and cultural lives. It affects every advertisement we see and every product we buy, from our morning coffee to a new pair of shoes. "Stakeholder capitalism" makes rosy promises of a better, more diverse, environmentally friendly world, but in reality this ideology championed by America's business and political leaders robs us of our money, our voice, and our identity. Vivek Ramaswamy is a traitor to his class. He's founded multibillion-dollar enterprises, led a biotech company as CEO, he became a hedge fund partner in his 20s, trained as a scientist at Harvard and a lawyer at Yale, and grew up the child of immigrants in a small town in Ohio. Now he takes us behind the scenes into corporate boardrooms and five-star conferences, into Ivy League classrooms and secretive nonprofits, to reveal the defining scam of our century. The modern woke-industrial complex divides us as a people. By mixing morality with consumerism, America's elites prey on our innermost insecurities about who we really are. They sell us cheap social causes and skin-deep identities to satisfy our hunger for a cause and our search for meaning, at a moment when we as Americans lack both. This book not only rips back the curtain on the new corporatist agenda, it offers a better way forward. America's elites may want to sort us into demographic boxes, but we don't have to stay there. Woke, Inc. begins as a critique of stakeholder capitalism and ends with an exploration of what it means to be an American in 2021--a journey that begins with cynicism and ends with hope.

This book describes the ever-escalating dangers to which Jewish refugees and recent immigrants were subjected in France and Italy as the Holocaust

unmarched forward. Susan Zuccotti uncovers a gruelling yet complex history of suffering and resilience through historical documents and personal testimonies from members of nine central and eastern European Jewish families, displaced to France in the opening years of the Second World War. The chronicle of their lives reveals clearly that these Jewish families experienced persecution of far greater intensity than citizen Jews or longtime resident immigrants. The odyssey of the nine families took them from hostile Vichy France to the Alpine village of Saint-Martin-Vesubie and on to Italy, where German soldiers rather than hoped-for Allied troops awaited. Those who crossed over to Italy were either deported to Auschwitz or forced to scatter in desperate flight. Zuccotti brings to light the agonies of the refugees' unstable lives, the evolution of French policies toward Jews, the reasons behind the flight from the relative idyll of Saint-Martin-Vesubie, and the choices that confronted those who arrived in Italy. Powerful archival evidence frames this history, while firsthand reports underscore the human cost of the nightmarish years of persecution.

What do Wal-Mart, Dell, Fidelity Investments, Boeing, and Cabela's have in common? They're all part of a \$50 billion a year scam in which--in the name of "job creation"--corporations play states and cities against each other to win hefty taxpayer subsidies that routinely exceed \$100,000 per

job. But do they provide more jobs, higher wages, or improved living standards in exchange? Greg LeRoy exposes these deals for what they are—no-strings-attached free rides for corporations that rarely create any new jobs. In fact, after securing these packages, many companies lay people off, pay poverty wages, or even relocate to other states. This is the Great American Jobs Scam: a costly bait-and-switch that swindles communities in more ways than one. They lose jobs—or gain jobs so low-paying they do nothing to help the community—and they lose revenue through massive corporate tax breaks. That means fewer resources for maintaining schools, public services, and infrastructure. LeRoy exposes corporations' careful orchestration of this scam, dissects government and corporate mumbo-jumbo with plain talk, and offers commonsense reforms that will give taxpayers powerful new tools to protect our communities.

In this provocative book, Rev. Jesse Lee Peterson, the most outspoken critic of the civil-rights establishment in America today, lays bare its corrupt leadership, courageously taking aim at the biggest names?Jesse Jackson, Louis Farrakhan, Al Sharpton, Maxine Waters, among others?claiming they are nothing more than scam artists profiting off the hatred and

disorder they foster in the black community. Peterson insists it's time to throw off the oppression of the established black leadership and stand for the American ideals of freedom, personal responsibility, free enterprise, and moral principle.

The Student Loan Scam is an exposé of the predatory nature of the \$85-billion student loan industry. In this in-depth exploration, Collinge argues that student loans have become the most profitable, uncompetitive, and oppressive type of debt in American history. This has occurred in large part due to federal legislation passed since the mid-1990s that removed standard consumer protections from student loans—and allowed for massive penalties and draconian wealth-extraction mechanisms to collect this

inflated debt. High school graduates can no longer put themselves through college for a few thousand dollars in loan debt. Today, the average undergraduate borrower leaves school with more than \$20,000 in student loans, and for graduate students the average is a whopping \$42,000. For the past twenty years, college tuition has increased at more than double the rate of inflation, with the cost largely shifting to student debt. Collinge covers the history of student loans, the rise of Sallie Mae, and how universities have profited at the expense of students. The book includes candid and compelling stories from people across the country about how both nonprofit and for-profit student loan companies, aided by poor legislation, have shattered their lives-and livelihoods. With nearly 5 million defaulted loans, this crisis is growing to epic proportions. The Student Loan Scam takes an unflinching look at this unprecedented and pressing problem, while exposing the powerful organizations and individuals who caused it to happen. Ultimately, Collinge argues for the return of standard consumer protections for student loans, among other pragmatic solutions, in this clarion call

for social action.

Reestablishing the balance of power between the States who conceived, articulated, and fought for the Republic – almost stopping its formation more than once due to concerns with federal power – is not easy given the structural corruption deeply imbedded in Congress and the Washington, D.C. culture, but it can and must be done. Mark Levin has identified the "clarifications" necessary in our Constitution that must be implemented via a Convention of States, but that will not fix the problem within – at least not in time. This book is a detailed, step by step strategy that can achieve this from within. In addition, the

book provides specific answers to those who will be my marketer, I could have done it in 5 minutes with a simple picture. I'M SO STUPID!"- Tucker Max, 3x #1 NY Times Best Selling Author

object - and do so loudly. It also provides some keen insights into the D.C. culture with information few Americans know. There are preconditions to this Revolution that are essential, achievable, and identified here. Many can begin now, well before the 2016 election, but they must begin and we must have the commitment from enough States (26) to get these stepping stones set so that a new authentic constitutionally conservative President and a 'friendly' Congress can achieve them in just five years. It became clear at the RNC Platform Committee in 2012 that we needed something new, a very specific plan - an informed strategy, not just more speeches, not just more of the same general rhetoric we have all heard for decades. You have to do the hard work, and that doesn't come from behind a podium. The reforms outlined in this book will achieve the rebalance and again form an even more perfect union with States in control and the federal system again limited as prescribed in the Constitution. This is an historic time, a new political time and space that will determine if America, as constructed by the States, will again prevail.

"Four years after having published my book with Trafford, a subsidiary of AuthorHouse, I was still getting phone calls from their high-powered phone salespeople, known as marketing consultants, to persuade me to buy their expensive marketing gimmicks. I must admit that I had given in far too often in the past, and they were quite sure they could continue to milk my bank account. Almost immediately buyer's remorse set in with a vengeance. How could I do this! I know this is a scam, why am I so stupid? I'm supposed to be a reasonably intelligent woman! Nothing they've ever done on my behalf has had the slightest impact on book sales. Super expensive services with nothing to show for them. How could I have let them talk me into kicking Lucy's football again? Again! Am I the only fool? Have others had the same experiences with these people? I decided to look a bit more extensively into what I came to realize was the AuthorHouse Scam, and have written this book to share my experiences and findings with other authors and potential authors."

The purpose of the book is to identify certain areas of fraud waste and abuse by officials from both the state and federal government. These officials have been abusing the trust that the American taxpayers have given to our

elected officials. For over fifty years the Democratic and the Republican parties have created a system of government that has provided a pot of gold for themselves. This book contains examples of the power structure that the Democrats and the Republicans have created. The book also contains solutions to solve the economic crisis that looms over America. The question is, "Will the American taxpayer take charge of their own future and the future of their children?"

Este livro é um resumo produzido a partir da obra original. A mudança climática é real, mas não é o fim do mundo. Não é sequer nosso maior problema ambiental. Michael Shellenberger tem lutado por um planeta mais verde por décadas. Ajudou a salvar as últimas sequoias ameaçadas do mundo, co-criou o que seria o predecessor do atual Novo Acordo Verde (Green New Deal), além de, juntamente com cientistas climáticos e ativistas, liderar uma ação bem sucedida para manter as usinas nucleares funcionando, assim evitando os famosos "picos de emissão". Porém, em 2019, enquanto se alegava que "bilhões de pessoas iriam morrer", o que contribuiu para uma ampla crise de ansiedade ? inclusive entre adolescentes ?, como ativista ambiental há anos, afamado especialista em energia e pai de

uma adolescente, Shellenberger resolveu que deveria falar mais a respeito a fim de separar a ficção da ciência. Mesmo após anos da atenção dada pela grande mídia, muitos continuam ignorantes quanto aos fatos mais básicos sobre clima. Em boa parte das nações mais desenvolvidas, os picos das emissões de carbono vêm caindo há mais de uma década. O mesmo ocorre quanto aos números de mortes causadas por condições climáticas extremas, que tiveram uma queda de 80% nos últimos quarenta anos, inclusive em nações mais pobres. Além disso, o risco de um superaquecimento da Terra tem se tornado mais improvável graças ao baixo crescimento populacional e a abundância de gás natural. Curiosamente, aqueles que são mais alarmistas quanto aos problemas climáticos também são os que tendem a se opor às soluções mais óbvias. O que está realmente por detrás de todo esse levante apocalítico ambientalista? Estão poderosos interesses financeiros. Há desejo por status e poder. E há, sobretudo, um desejo de transcendência de pessoas supostamente seculares. O impulso espiritual pode ser natural e saudável, porém ao pregar medo sem amor e culpa sem redenção, a nova religião não está satisfazendo nossas mais profundas necessidades psicológicas e existenciais.
