A God of One's Own Random House Incorporated
This book discusses and theorizes Achille Mbembe ’ s necropolitics, the politics of death, in the specific context of North America. It works to characterize and analyze the particularities and relational differences of American and Canadian necropowers vis- à -vis their devices, subjectivities, necroempowered subjects, and production of spaces of death in their geographical and symbolic borderlands with the Third World: the US-Mexico border, indigenous lands, migrant and Black-American neighborhoods, and resource rich geographies. North American necropowers not only profit from death, but also conduct disposable populations to death throughout the region. The volume proposes a postcolonial perspective that characterizes the political power of North America as a necropower—or the sovereign power to make die. Each chapter therefore theorizes and analyzes the specificities of necropower, examining different necropolitics that range from asylum and migration restrictions to the economic exploitation and abandonment of deprived populations and policing of ethnic minorities, in particular Mexican immigrants, indigenous peoples, and African American communities.

New Kings of the World Anchor
From the author of *Binding Chaos*, this book brings us back to the beginning. The beginning of designing a better method of governance and way of living is to look at the structure of our self. The scope and originality of this book present a radical challenge to a seldom examined worldview. With an extremely wide reach and richness of detail, *The Creation of Me, Them and Us* sets the stage for further discussions of institutional reform by tackling the fundamental questions of who are we, what do we want, and why do we act the way we do? These questions (and answers) are fundamental in understanding a world that may seem incomprehensible today.

Rethinking World Politics is a major intervention into a central debate in international relations: how has globalization transformed world politics? Most work on world politics still presumes the following: in domestic affairs, individual states function as essentially unified entities, and in international affairs, stable nation-states interact with each other. In this scholarship, the state lies at the center; it is what politics is all about. However, Philip Cerny contends that recent experience suggests another process at work: "transnational neopluralism." In the old version of pluralist theory, the state is less a cohesive and unified entity than a varyingly stable amalgam of competing and cross-cutting interest groups that surround and populate it. Cerny explains that contemporary world politics is subject to similar pressures from a wide variety of sub- and supra-national actors, many of which are organized transnationally rather than nationally. In recent years, the ability of transnational governance bodies, NGOs, and transnational firms to shape world politics has steadily grown. Importantly, the rapidly growing transnational linkages among groups and the emergence of increasingly influential, even powerful, cross-border interest and value groups is new. These processes are not replacing nation-states, but they are forging new transnational webs of power. States, he argues, are themselves increasingly trapped in these webs. After mapping out the dynamics behind contemporary world politics, Cerny closes by prognosticating where this might all lead. Sweeping in its scope, *Rethinking World Politics* is a landmark work of international relations theory that upends much of our received wisdom about how world politics works and offers us new ways to think about the forces shaping the contemporary world.

Borders and Crime Catapult
"Betancourt's riveting account...is an unforgettable epic of moral courage and human endurance." -Los Angeles Times In the midst of her campaign for the Colombian presidency in 2002, Ingrid Betancourt traveled into a military-controlled region, where she was abducted by the FARC, a brutal terrorist guerrilla organization in conflict with the government. She would spend the next six and a half years captive in the depths of the Colombian jungle. Even Silence Has an End is her deeply moving and personal account of that time. The facts of her story are astounding, but it is Betancourt's indomitable spirit that drives this very special narrative-an intensely intelligent, thoughtful, and compassionate reflection on what it really means to be human.

Seasons in Hell Farrar, Straus and Giroux
A brilliantly illuminating portrait of the twenty-first-century West—a book as vast, diverse, and unexpected as the land and the people, from one of our foremost chroniclers of migration The economic boom—and the devastation left in its wake—has been writ nowhere as large as on the West, the most iconic of American landscapes. Over the last decade the West has undergone a political and demographic upheaval comparable only to the opening of the frontier. Now, in Desert America, a work of powerful reportage and memoir, Rubén Martínez, acclaimed author of *Crossing Over*, evokes a new world of extremes: outrageous wealth and devastating poverty, sublime beauty and ecological ruin. In northern New Mexico, an epidemic of drug addiction flourishes in the shadow of some of the country's richest zip codes; in Joshua Tree, California, gentrification displaces people and history. In Marfa, Texas, an exclusive enclave triggers a race war near the banks of the Rio Grande. And on the Tohono O'odham reservation, Native Americans hunt down Mexican migrants crossing the most desolate stretch of the border. With each desert story, Martínez explores his own encounter with the West and his love for this most contested region. In the process, he reveals that the great frontier is now a harbinger of the vast disparities that are redefining the very idea of America.

The Story of Vicente, Who Murdered His Mother, His Father, and His Sister Springer

Written with the aim of breaking down barriers between disparate disciplines in order to create more responsive and effective strategies, *Natural Security* provides a new lens through which to explore the ancient and ever present problem of how to maintain security in an unpredictable, complex, and dangerous world."--BOOK JACKET.
Towards a Philosophy of Narco Violence in Mexico Bold Type Books
The instant New York Times bestseller, "A must-read for anyone who thinks 'build a wall' is the answer to anything." --Esquire For Francisco Cantú, the border is in the blood: his mother, a park ranger and daughter of a Mexican immigrant, raised him in the scrublands of the Southwest. Haunted by the landscape of his youth, Cantú joins the Border Patrol. He and his partners are posted to remote regions crisscrossed by drug routes and smuggling corridors, where they learn to track other humans under blistering sun and through frigid nights. They haul in the dead and deliver to detention those they find alive. Cantú tries not to think where the stories go from there. Plagued by nightmares, he abandons the Patrol for civilian life. But when an immigrant friend travels to Mexico to visit his dying mother and does not return, Cantú discovers that the border has migrated with him, and now he must know the whole story. Searing and unforgettable, *The Line Becomes a River* goes behind the headlines, making urgent and personal the violence our border wreaks on both sides of the line
Violence, Conflict and Discourse in Mexican Cinema (2002-2015) Random House
Having followed Mexico's cartels for years, border security expert Sylvia Longmire takes us deep into the heart of their world to witness a dangerous underground that will do whatever it takes to deliver drugs to a willing audience of American consumers. The cartels have grown increasingly bold in recent years, building submarines to move up the coast of Central America and digging elaborate tunnels that both move drugs north and carry cash and U.S. high-powered assault weapons back to fuel the drug war. Channeling her long experience working on border issues, Longmire brings to life the very real threat of Mexican cartels operating not just along the southwest border, but deep inside every corner of the United States. She also offers real solutions to the critical problems facing Mexico and the United States, including programs to deter youth in Mexico from joining the cartels and changing drug laws on both sides of the border.

GIS Tutorial for Homeland Security Random House
Amexica is the harrowing story of the extraordinary terror unfolding along the U.S.-Mexico border—"a country in its own right, which belongs to both the United States and Mexico, yet neither"—as the narco-war escalates to a fever pitch there. In 2009, after reporting from the border for many years, Ed Vulliamy traveled the frontier from the Pacific coast to the Gulf of Mexico, from Tijuana to Matamoros, a journey through a kaleidoscopic landscape of corruption and all-out civil war, but also of beauty and joy and resilience. He describes in revelatory detail how the narco gangs work; the smuggling of people, weapons, and drugs back and forth across the border; middle-class flight from Mexico and an American celebrity culture that is feeding the violence; the interrelated economies of drugs and the maquiladora factories; the ruthless, systematic murder of young women in Ciudad Juarez. Heroes, villains, and victims—the brave and rogue police, priests, women, and journalists fighting the violence; the gangs and their freelance killers; the dead and the devastated—all come to life in this singular book. Amexica takes us far beyond today's headlines. It is a street-level portrait, by turns horrific and sublime, of a place and people in a time of war as much as of the war itself.

Mexicanos W. W. Norton & Company
The collection considers the growing importance of the border as a prime site for criminal justice activity and explores the impact of border policing on human rights and global justice. It covers a range of subjects from e-trafficking, child soldiers, the 'global war on terror' in Africa and police activities that generate crime.
Amexica Rizzoli International Publications
"There is a vast cultural movement emerging from the global South and sweeping all before it. India's Shah Rukh Khan, after all, is the most popular actor in the world. Bollywood, Turkish soap operas called dizi, K-pop and other aspects of Eastern pop culture are international in their range and allure and the biggest challenger yet to America's soft power monopoly since the end of World War II. Bestselling author Fatima Bhutto's new book is about these new kings of popular entertainment in the twenty-first century." --
The Acid Test Scribe Publications
The war that has riven Bosnia-Herzegovina is the most ferocious carnage to blight Europe since the fall of the Third Reich. It has shocked, challenged, but ultimately baffled the world. This account of the war boils down the labyrinth of violence to a horribly simple story: the humiliation, decimation and betrayal of the Bosnian Muslims by two rival Balkan powers, and then by the international community.
Inside WikiLeaks Random House
AS A YOUNG WOMAN, Tilly flees home for the hollow underworld of

Nevada, looking for pure souls and finding nothing but bad habits. One day, after Tilly has spent nearly thirty years without a family, drinking herself to the brink of death, her niece Stella—who has been leading her own life of empty promise in New York City—arrives on the doorstep of Tilly’s desert trailer. The Gin Closet unravels the strange and powerful intimacy that forms between them. With an uncanny ear for dialogue and a witty, unflinching candor about sex, love, and power, Leslie Jamison reminds us that no matter how unexpected its turns, the life we’re given is all we have: the cruelties that unhinge us, the beauties that clarify us, the addictions that deform us, those fleeting possibilities of grace that fade as quickly as they come. The Gin Closet marks the debut of a stunning new talent in fiction.

Among the Lost Penguin

AmexicaFarrar, Straus and Giroux

Midnight in Mexico Simon and Schuster

Can music make the world a better place? Can it really 'belong' to anyone? Can the magic, mystery and incertitude of music - of the human brain meeting or making sound - can it stop wars, rehabilitate the broken, unite, educate or inspire? From Jimi Hendrix playing 'Machine Gun' at The Isle of Wight Festival in 1970 to the Bataclan under siege in 2015, Ed Vulliamy has lived the music, met the legends, and asked, when words fail, might we turn to music? There's only one way to find out, and that is to listen...

The Empathy Exams John Wiley & Sons

Former Wikileaks insider and spokesman Daniel Domscheit-Berg authors an expose of the "World's Most Dangerous Website." In an eye-opening account, Daniel Domscheit-Berg, the former spokesman of WikiLeaks, reveals never-disclosed details about the inner workings of the increasingly controversial organization that has struck fear into governments and business organizations worldwide, prompting the Pentagon to convene a 120-person task force. Under the pseudonym Daniel Schmitt, Domscheit-Berg was the effective Number 2 at Wikileaks and the organization's public face, after Julian Assange. In this book, he reveals the evolution, finances, and inner tensions of the whistleblower organization, beginning with this first meeting with Assange in December 2007. He also describes what led to his September 2010 withdrawal from WikiLeaks, including his disenchantment with the organization's lack of transparency, its abandonment of political neutrality, and Assange's increasing concentration of power.

Desert America Routledge

In 2005, after publishing her book The Demons of Eden—where she denounced the very powerful men behind the a Mexican child pornography ring—Lydia Cacho became a target. Exactly eight months after the publication of the book, one morning as she was making her way to work, Lydia was apprehended by the police from the neighboring state of Puebla, and taken into custody during a nightmarish 24 hours during which she was tortured, intimidated and abused. In this chilling memoir, comparable to Ayaan Hirsi Ali's Infidel, Lydia tells her story and exposes the horrific ways in which women—and young girls in particular—are abused then disposed of, while an oftentimes corrupt government simply sits and watches.

The Creation of Me, Them and Us St. Martin's Press

Ciudad Juarez lies just across the Rio Grande from El Paso, Texas. A once-thriving border town, it now resembles a failed state. Infamously known as the place where women disappear, its murder rate exceeds that of Baghdad. In Murder City, Charles Bowden—one of the few journalists who spent extended periods of time in Juarez—has written an extraordinary account of what happens when a city disintegrates. Interweaving stories of its inhabitants—a beauty queen who was raped, a repentant hitman, a journalist fleeing for his life—with a broader meditation on the town's descent into anarchy, Bowden reveals how Juarez's culture of violence will not only worsen, but inevitably spread north. Heartbreaking, disturbing, and unforgettable, Murder City was written at the height of his powers and established Bowden as one of America's leading journalists.

The Nine Nations of North America Stanford University Press

In this unprecedented and chilling monologue, a repentant Mexican hitman tells the unvarnished truth about the war on drugs and reveals why the violence that now defines the American-Mexican border will only worsen.

Cartel: The Coming Invasion of Mexico's Drug Wars Springer Nature

Divides North America into nine powers, and explains the cultural, ethnic, and geographic identities of each
