"Prealgebra is designed to meet scope and sequence requirements for a one-semester prealgebra course. The text introduces the fundamental concepts of algebra while addressing the needs of students with diverse backgrounds and learning styles. Each topic builds upon previously developed material to demonstrate the cohesiveness and structure of mathematics. Prealgebra follows a nontraditional approach in its presentation of content. The beginning, in particular, is presented as a sequence of small steps so that students gain confidence in their ability to succeed in the course. The order of topics was carefully planned to

emphasize the logical progression throughout the course and to facilitate a thorough understanding of each concept. As new ideas are presented, they are explicitly related to previous topics."--BC Campus website.

"What started as an eight-month assignment turned into a six-year adventure and the creation of a social business to help Kenya's farmers lift themselves out of poverty. The social business, Juhudi Kilimo, provides microloans to enable smallholder farmers to buy productive assets, such as cows, tools and so on. Since its foundation in 2009, Juhudi Kilimo has provided over 50,000 loans worth \$30 million and financed the purchase of 23,100 cows by some of Kenya's poorest farmers. In its six years Juhudi managed to rack up an impressive list of

international investors The Rockefeller Foundation, The Ford Foundation, Acumen Fund, Soros Economic Development Fund, Grameen Foundation, Deutsche Bank and Kiva.org. The company also won a Charles Schwab Social Entrepreneur of the Year Award and part of CIO Magazine's top 100 list. The challenges faced by the company in its early years reveal a dark underbelly of investor greed, corruption and the deep multicultural misunderstandings that can lead to conflicts. The company was driven by a young entrepreneur from the US, who admits he had no idea what he was doing but learned along the way. The lessons he presents here can help guide those starting new ventures or trying to defy the odds with a new social

business in East Africa. The business stories are intertwined with his adventures, racing camels, running from rhinos and much more."--Summary from Amazon.
