The enigmatic psyche of Hamlet, the prince of Denmark has raised myriad critical opinions, which see him as an indecisive hero, a lunatic, misogynist and a philosopher who failed as a son, lover and prince, leading a life of incest shadowed by inferiority complex and paranoia. The result is the son becoming the bane of his family. The book takes a fresh look at Hamlet, the hero, from a novel angle

in the light of the philosophy of the Bhagavadgita, and projects him as a hero who fights many a battle in his mind against his own gunas until he gets refined as a Trigunatita. A glance at Hamlet criticism provides a kaleidoscopic view of the extensive critical readings on Hamlet ever since the text was published. This work captivates converging and diverging elements of the two masterpieces. In *Hamlet and Arjuna: Birds of a Feather*, Dr. Salia Rex analyses the psyche and actions of Hamlet, the tragic hero of William Shakespeare, and Arjuna, the mythological hero of Veda Vyasa, to unearth their converging elements and quintessential uniqueness as heroes. *Companion to Literary Myths, Heroes and Archetypes* Fantagraphics Books

Military service members are frequently referred to as heroes by the civilian population as it is assumed they have performed heroic acts while serving their country; however, the denial of a heroic act creates a conflict of stories between the hero, the witnesses, and the public, which leaves room for interpretation of whether the action qualifies as heroic. Despite the clear collective knowledge of heroes, in academic literature and in popular culture, there is little consensus on how to define heroism and who qualifies as a hero (Ashley & Brown, 2015; Chinkin & Kaldor, 2013; Lash, 1995). Through a mixed methods design known as group concept mapping (Kane & Rosas, 2018), a visual framework was constructed to conceptualize and delineate aspects of the civilian perception of military veterans' heroism. Group concept mapping organizes data through multidimensional scaling and hierarchical cluster analysis, which produces a visual

representation of expressed thoughts and the connections between them, and provides structure for identifying contributing factors within complex and undefined concepts, such as heroism. The resulting concept map consisted of eight clusters, including (a) Community; (b) Only those who have been there; (c) Training; (d) Psychological pain; (e) Higher purpose; (f) Mental health struggles (g) Positive traits; and (h) Stereotypes. Overall, the themes of demonstrating heroic characteristics and the journey to becoming a hero are the keys to understanding the results of the concept map. Overall, the themes delineated by the concept map pertain to demonstrating heroic characteristics and the journey to becoming a hero and are the keys to understanding the civilian perception of military veterans as heroes.

[Illustrated with over 30 photos of the author, his unit, escape, his kit etc.] As General MacArthur sailed away from the Philippines vowing to return, he left behind him many American soldiers that had been swept up by the victorious Japanese tide of invasion. One

such man was Lt.-Colonel William Edwin 'Ed' Dyess, he and his unit of the 21st Pursuit Squadron flew their obsolete P-40 Warhawks against the superior Japanese fighters until no more planes remained. Undaunted he fought on as an infantryman before his eventual capture by the Japanese his deeds of selfless bravery were legendary, including giving his own plane to a fellow aviator so he could fly to safety. Dyess and his brave men deserved a better fate than that which awaited them at the hands of their Japanese captors on the infamous Bataan Death March. Driven north from Bataan, the American and Philippino prisoners were beaten, starved and prodded at the tip of the bayonet toward prison camps that had been callously unprovided with the basic means of existence. In the only successful mass prison escape, Dyess along with his men broke out of their prison camp and made contact with resistance groups. After a time waging further Guerilla operations, Dyess and two other American servicemen were evacuated by submarine to Australia. As Dyess recuperated the American Government knowing the effect that the truth of the atrocities committed by the Japanese would galvanize public opinion allowed the release of his story via the Chicago Tribune. The story created a huge storm of

outrage directed at the Japanese and of respect and admiration for Dyess and his fellow soldiers who had endured so much on their behalf.

Dyess returned to active service as soon as was possible but tragically died in an airplane accident in 1943, a hero to his men and country. A tragically vivid and gruelling account of one of the most heroic escape stories yet told.

"I'll never forget the first time I killed a man. Wait...I'm getting way ahead of myself calling it a killing. Yes, I did kill him, but you couldn't really classify it as a murder. I shot him in order to save an innocent person's life, in the line of duty. I used to be a cop. Until I killed - but a justified shooting - a young man by the name of Tommy Ray Wallace. After that? I was a useless drunk. I lost everything. And the girl whose life I saved? She never even thanked me for it." So says Ben Striker, former cop - and hero. He lost everything that day, in the line of duty. His job, his family, his faith, his integrity, all gone in the blink of an eye. Cops are REAL heroes, who more often than not don't get the respect or recognition they deserve. Heroes are only human too, and at times, in the midst of all the horror and pain

and helplessness they feel on the job - and at home, behind the badge - yes, they are vulnerable, and they may falter like everyone else. In the book GOOD COP, SAD COP, Author David Boyer provides an insight into the private lives of our men and women in blue, and how much they have to deal with behind the scenes, often having to suffer in silence. Please pray everyday for our Police Officers. They have a very tough job. We cannot expect them to wallow in the filth of society day in and day out without our full support and our prayers. Who among us is willing to give our lives for people we don't know or for people who don't care about us? That is what they are willing to do everyday they put on their uniform and leave home - and when they go back home, too.

Stories traveled to the frontlines of the War  
on Terror to profile the dedicated men and

adversity. In this new volume of his New

commitment, and strength of those who  
serve—and those who love them. The term

with bravery, a warrior ethos, and spiritual  
strength that will encourage us all. Heroes  
are people who knowingly place themselves

terror attack of 9-11-01, more than 2  
million young Americans have volunteered  
to serve in difficult and dangerous places.  
No military force in history has been asked  
to do more than those who have served and  
sacrificed in this long fight. They are  
American heroes. So too are their loved  
ones here at home. These are their stories.
