The Economic Writings of Sir William Petty  
London : H.F.W. Deane  
A landmark work from the author of *Orientalism* that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries, as the Western powers built empires that stretched from Australia to the West

Indies, Western artists created masterpieces ranging from *Mansfield Park* to *Heart of Darkness* and *Aida*. Yet most cultural critics continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition, *Culture and Imperialism* reopens the dialogue between literature and the life of its time.

For many, U2's Bono is an icon of both evangelical spirituality and secular moral activism. In this book, Chad E. Seales examines the religious and spiritual culture that has built up around the rock star over the course of his career and considers how Bono engages with that religion in his music and in his activism. Looking at Bono and his work within a wider critique of white American evangelicalism, Seales traces Bono's career, from his background in religious groups in the 1970s to his

rise to stardom in the 1980s and his relationship with political and economic figures, such as Jeffrey Sachs, Bill Clinton, and Jesse Helms. In doing so, Seales shows us a different Bono, one who uses the spiritual meaning of church tradition to advocate for the promise that free markets and for-profits will bring justice and freedom to the world's poor. Engaging with scholarship in popular culture, music, religious studies, race, and economic development, Seales makes the compelling case that neoliberal capitalism is a religion and that Bono is its best-known celebrity revivalist. Engagingly written and biting critical, *Religion Around Bono* promises to transform our understanding of the rock star's career and advocacy. Those interested in the intersection of rock music, religion, and activism will find Seales's study provocative and enlightening.

An Irish Miracle is the story of Dillon and Alastar Connolly, young men separated by two generations and searching for their places in the world. From an Ohio farm to western Ireland and from the 1940s to present day, their journeys take them through peaceful countryside and personal challenges. The paths of these two young men cross in unexpected ways, never far from the people, the horses, and the lands they love. Dillon begins his part of the adventure with more than a little trepidation, but he soon finds himself drawn to the beauty of the Irish countryside, and the kindness of the Irish people he meets along the way. Alastar's gift and passion for horses leads him to Ballybrit, home of the world-famous Galway Racecourse . . . and the fiery redhead, Rita O'Reilly. Once you follow the emotional journeys of these two young men, you'll feel drawn to the Emerald Isle, just as they both were. And when five o'clock comes around, you just might find yourself searching for a well-poured pint of Guinness . . . or two.
