Alliances have shaped grand strategy and warfare since the dawn of civilization. Indeed, it is doubtful that the United States of America would have gained its independence without its Revolutionary War alliance with France. Such alliances may prove even more important to international security in the twenty-first century. Economic and financial difficulties alone will ensure that policy makers attempt to spread the burden of securing vital interests onto other nations through alliances, both formal organizations such as NATO and informal alliances of convenience as developed to wage the Gulf War in 1991. A team of leading historians examine the problems inherent in alliance politics and relationships in the framework of grand strategy through the lens of history. Aimed at not just the military aspects of alliances, the book uncovers the myriad factors that have made such coalitions succeed or fail in the past.

For many, U2's Bono is an icon of both evangelical spirituality and secular moral activism. In this book, Chad E. Seales examines the religious and spiritual culture that has built up around the rock star over the course of his career and considers how Bono engages with that religion in his music and in his activism. Looking at Bono and his work within a wider critique of white American evangelicalism, Seales traces Bono's career, from his background in religious groups in the 1970s to his rise to stardom in the 1980s and his relationship with political and economic figures, such as Jeffrey Sachs, Bill Clinton, and Jesse Helms. In doing so, Seales shows us a different Bono, one who uses the spiritual meaning of church tradition to advocate for the promise that free markets and for-profits will bring justice and freedom to the world's poor. Engaging with scholarship in popular culture, music, religious studies, race, and economic development, Seales makes the compelling case that neoliberal capitalism is a religion and that Bono is its best-known celebrity revivalist. Engagingly written and bitingly critical, *Religion Around Bono* promises to transform our understanding of the rock star's career and advocacy. Those interested in the intersection of rock music, religion, and activism will find Seales's study provocative and enlightening.

A magisterial account of how the cultural and maritime relationships between the British, Dutch and American territories changed the existing world order - and made the Industrial Revolution possible Between 1500 and 1800, the North Sea region overtook the Mediterranean as the most dynamic part of the world. At its core the Anglo-Dutch relationship intertwined close alliance and fierce antagonism to intense creative effect. But a precondition for the Industrial Revolution was also the establishment in British North America of a unique type of colony - for the settlement of people and culture, rather than the extraction of things. England's republican revolution of 1649-53 was a spectacular attempt to change social, political and moral life in the direction pioneered by the Dutch. In this wide-angled and arresting book Jonathan Scott argues that it was also a turning point in world history. In the revolution's wake, competition with the Dutch transformed the military-fiscal and naval resources of the state. One result was a navally protected Anglo-American trading monopoly. Within this context, more than a century later, the Industrial Revolution would be triggered by the alchemical power of American shopping

Religion Around Bono
An Irish Miracle is the story of Dillon and Alastar Connolly, young men separated by two generations and searching for their places in the world. From an Ohio farm to western Ireland and from the 1940s to present day, their journeys take them through peaceful countryside and personal challenges. The paths of these two young men cross in unexpected ways, never far from the people, the horses, and the lands they love. Dillon begins his part of the adventure with more than a little trepidation, but he soon finds himself drawn to the beauty of the Irish countryside,

and the kindness of the Irish people he meets along the way. Alastar's gift and passion for horses leads him to Ballybrit, home of the world-famous Galway Racecourse . . . and the fiery redhead, Rita O'Reilly. Once you follow the emotional journeys of these two young men, you'll feel drawn to the Emerald Isle, just as they both were. And when five o'clock comes around, you just might find yourself searching for a well-poured pint of Guinness . . . or two.
