Times Book Review Notable Book of 2017 One of the
New York Times 100 Notable Books of 2017 A visionary
exploration of the life and times of Joseph Conrad, his
turbulent age of globalization and our own, from one of the
most exciting young historians writing today Migration,
terrorism, the tensions between global capitalism and
nationalism, and a communications revolution: these
forces shaped Joseph Conrad ’ s destiny at the dawn of the

twentieth century. In this brilliant new interpretation of one of the great voices in modern literature, Maya Jasanoff reveals Conrad as a prophet of globalization. As an immigrant from Poland to England, and in travels from Malaya to Congo to the Caribbean, Conrad navigated an interconnected world, and captured it in a literary oeuvre of extraordinary depth. His life story delivers a history of globalization from the inside out, and reflects powerfully on the aspirations and challenges of the modern world. Joseph Conrad was born J ó zef Teodor Konrad Korzeniowski in 1857, to Polish parents in the Russian Empire. At sixteen he left the landlocked heart of Europe to become a sailor, and for the next twenty years travelled the world ’ s oceans before settling permanently in England as an author. He saw the surging, competitive "new imperialism" that planted a flag in almost every populated part of the globe. He got a close look, too, at the places “ beyond the end of telegraph cables and mail-boat lines, ” and the hypocrisy of the west ’ s most cherished ideals. In a compelling blend of history, biography, and travelogue,

Maya Jasanoff follows Conrad's routes and the stories of his four greatest works—The Secret Agent, Lord Jim, Heart of Darkness, and Nostromo. Genre-bending, intellectually thrilling, and deeply humane, The Dawn Watch embarks on a spell-binding expedition into the dark heart of Conrad's world—and through it to our own.

The life of Jozef Teodor Konrad Korzeniowski reads like an adventure story, an adventure story written by somebody like Joseph Conrad. The young Conrad dreamed of a life at sea and eventually became a British merchant seaman, working his way up from apprentice to captain on classic three-masted square-rigged barques. He would also become one of the most important novelists in the English language, and almost half of his life's work is set in Southeast Asia. Conrad's favorite destination was the vibrant, bustling port of Singapore as well as the remote ports of the Dutch East Indies, and his early works - Almayer's Folly, An Outcast of the Islands, Lord Jim and The Rescue - are based on the people and places he encountered in his own voyages on the Vidar, a trading vessel that plied the waters of the Indonesian archipelago from its base in Singapore. In Joseph Conrad's Eastern Voyages, Ian Burnet places Conrad's Malay novels into their proper narrative sequence and explores the backstory of his characters helping the reader to visualize the cultural and historical context of Conrad's time in late 19th-century Southeast Asia.

For one hundred years, Heart of Darkness has been among the most widely read and taught novels in the English language. Hailed as an incisive indictment of European imperialism in Africa upon its publication in 1899, more recently it has been repeatedly denounced as racist and imperialist.

Peter Firchow counters these claims, and his carefully argued response allows the charges of Conrad's alleged bias to be evaluated as objectively as possible. He begins by contrasting the meanings of race, racism, and imperialism in Conrad's day to those of our own time. Firchow then argues that Heart of Darkness is a novel rather than a sociological treatise; only in relation to its aesthetic significance can real social and intellectual-historical meaning be established. Envisioning Africa responds in detail to negative interpretations of the novel by revealing what they distort, misconstrue, or fail to take into account. Firchow uses a framework of imagology to examine how national, ethnic, and racial images are portrayed in the text, differentiating the idea of a national stereotype from that of national character. He believes that what Conrad saw personally in Africa should not be confused with the Africa he describes in the novel; Heart of Darkness is instead an envisioning and a revisioning of Conrad's experiences in the medium of fiction.

An Outcast of the Islands (1896) Novel by Simon and Schuster Joseph Conrad: Voice, Sequence, History, Genre 1) that narrative theory, and especially some of its more recent developments, can help critics generate greater insight into the complexities of Conrad's work; and (2) that a rigorous engagement with Conradian narrative can lead theorists to a further honing of their analytical tools. More particularly, the volume focuses on the four narrative issues identified in the subtitle, and it analyzes examples of Conrad's fiction and nonfiction, from early work such as An Outcast of the Islands to

his late work of reminiscence, *A Personal Record*. The volume also provides multiple perspectives on major works such as *Heart of Darkness* and *Lord Jim*, a cluster of three essays on *Nostromo* and history, and an afterword by the editors that looks ahead to future work on the interrelations of Conrad and narrative theory. brings together essays by established critics of Conrad and by leading narratologists that explore Conrad's innovative uses of narrative throughout his career. Collectively, these explorations by Daphna Erdinast-Vulcan, Gail Fincham, Jeremy Hawthorn, Susan Jones, Jakob Lothe, J. Carol Reed is one of the truly outstanding directors of British cinema, and one whose work is long overdue for reconsideration. This major study ranges over Reed's entire career, combining observation of general trends and patterns with detailed analysis of twenty films, both acknowledged masterpieces and lesser-known works. Evans avoids a simplistic auteurist approach, placing the films in their autobiographical, socio-political and cultural contexts and relating these to the analysis of Reed's art. The critical approach combines psychoanalysis, gender theory, and the analysis of form. Archival research is also relied on to clarify Reed's relations with his creative team, financial backers and others. Films examined include *Bank Holiday*, *A Girl Must Live*, *Odd Man Out*, *The Fallen Idol*, *The Third Man*, *Night Train to Munich*, *The Way Ahead*, *Outcast of the Islands*, *Trapeze* and *Oliver!*.

Jacques Tati is widely regarded as one of the greatest postwar

European filmmakers. He made innovative and challenging comedies while achieving international box office success and attaining a devoted following. In *Play Time*, Malcolm Turvey examines Tati's unique comedic style and evaluates its significance for the history of film and modernism. Turvey argues that Tati captured elite and general audiences alike by combining a modernist aesthetic with slapstick routines, gag structures, and other established traditions of mainstream film comedy. Considering films such as *Monsieur Hulot's Holiday* (1953), *Mon Oncle* (1958), *Play Time* (1967), and *Trafic* (1971), Turvey shows how Tati drew on the rich legacy of comic silent film while modernizing its conventions in order to encourage his viewers to adopt a playful attitude toward the modern world. Turvey also analyzes Tati's sardonic view of the bourgeoisie and his complex and multifaceted satire of modern life. Tati's singular and enduring achievement, Turvey concludes, was to translate the democratic ideals of the postwar avant-garde into mainstream film comedy, crafting a genuinely popular modernism. Richly illustrated with images from the director's films, *Play Time* offers an illuminating and original understanding of Tati's work.

“An original book...about individuals who used ideas to change the world” (The New Yorker)—the fascinating exploration into the creation and history of the Paris Peace Pact, an often overlooked but transformative treaty that laid the foundation for the international system we live under today. In 1928, the leaders of the world assembled in Paris to outlaw war. Within the year, the treaty signed that day, known as the Peace Pact, had been ratified by nearly every state in the world. War, for the first time in history, had become illegal. But within a decade of its signing, each state that had gathered in Paris to renounce war was at war. And in the century that followed, the Peace Pact was dismissed as an act of folly and an unmistakable failure. This book argues that the Peace Pact ushered in a sustained march toward peace that

lasts to this day. A “thought-provoking and comprehensively researched book” (The Wall Street Journal), *The Internationalists* tells the story of the Peace Pact through a fascinating and diverse array of lawyers, politicians, and intellectuals. It reveals the centuries-long struggle of ideas over the role of war in a just world order. It details the brutal world of conflict the Peace Pact helped extinguish, and the subsequent era where tariffs and sanctions take the place of tanks and gunships. *The Internationalists* is “indispensable” (The Washington Post). Accessible and gripping, this book will change the way we view the history of the twentieth century—and how we must work together to protect the global order the internationalists fought to make possible. “A fascinating and challenging book, which raises gravely important issues for the present... Given the state of the world, *The Internationalists* has come along at the right moment” (The Financial Times).

Through attention to incidents of betrayal and self-betrayal in his fiction, this book traces the development of Conrad's conception of identity through the three phases of his career: the self in isolation, the self in society and the sexualised self. It shows how

the early fiction negotiates the opposed dangers of the self-ideal and the surrender to passion; how the middle fiction tests the ideal code psychologically and ideologically; and how the late fiction probes sexuality and morbid psychology.

The only annotated edition available, *An Outcast of the Islands* (1896), Conrad's second novel, is a tale of intrigue in an eastern setting. Peter Willems, a clerk in Macassar, granted a "second chance" at a remote river trading post, falls ever more hopelessly into traps set by himself and others. A parable of human frailty, with love and death the major players, this is a story of a man unable to understand others and fated never to possess his own soul.

An Outcast of the Islands is the second novel by Joseph Conrad, published in 1896, inspired by Conrad's experience as mate of a steamer, the *Vidar*. The novel details the undoing of Peter Willems, a disreputable, immoral man who, on the run from a scandal in Makassar, finds refuge in a hidden native village, only to betray his benefactors over lust for the tribal chief's daughter. The story features Conrad's recurring character Tom Lingard, who also appears in *Almayer's Folly* (1895) and *The Rescue* (1920), in addition to sharing other characters with those novels. It is considered to be underrated as a work of literature for many. Conrad romanticizes the jungle environment and its inhabitants in a similar style to his "Heart of Darkness." This novel was adapted into the film *Outcast of the Islands* in 1951 by director Carol

Reed, featuring Trevor Howard as Willems, Ralph Richardson as Lingard, Robert Morley, and Wendy Hiller.

Nineteenth-century adventure fiction relating to the British empire usually served to promote, celebrate and justify the imperial project, asserting the essential and privileging difference between 'us' and 'them', colonizing and colonized. Andrea White's study opens with an examination of popular exploration literature in relation to later adventure stories, showing how a shared view of the white man in the tropics authorized the European intrusion into other lands. She then sets the fiction of Joseph Conrad in this context, showing how Conrad in fact demythologized and disrupted the imperial subject constructed in earlier writing, by simultaneously - with the modernist's double vision - admiring man's capacity to dream but applauding the desire to condemn many of its consequences. She argues that the very complexity of Conrad's work provided an alternative, and more critical, means of evaluating the experience of empire.

Joseph Conrad's Authorial Self is organized around the category of the author with some illuminating aspects of Conrad's Polishness as the major area of consideration. It starts with a theoretical treatment of Conrad's authorship, continues through a focus on autobiography along with his creative process, proceeds with analyses of his ideas derived from his Polish heritage as presented in his personality and oeuvre, and moves on to biographies of the writer's relatives. This set is followed by papers on "Amy Foster," a short story of strong Polish resonance and a classic of émigré literature, considerations of translations of his works into Polish, and essays on central/south-central Europe and the sea. The main integrative concept of authorial self is supported by two secondary principles: delimitation by the geographical area covered: mainly Poland, but also Russia and central and south-central Europe, and the chronology of Joseph Conrad's life and works, from influences upon Konradek in Lwów and the significance of East Carpathian poetics to juxtapositions of his oeuvre with early twentieth century authors as well as a contemporary Polish author and translations of his works. The final five papers span the whole period studied in this volume, from the first Polish translation published in 1897 to one of the most recent in 2011, from possible influences upon Conrad in his childhood and youth to the most recent reception of his works in the Balkans. This book is volume 27 of the series *Conrad: Eastern and Western Perspectives*, edited by Wiesław Krajka.
