the book your professor got  
for organic was the ACS  
official book. they make one  
for organic chemistry they  
don't make one for A-  
Chem. Would be nice but  
sucks. I am actually trying  
to find something to guide  
me also. I just know they  
don't make it so what I am  
gonna do is just look over  
all my the major points on  
the slide and then go from  
there.

What material should I study for the Analytical Chemistry ACS exam? My professor hasn't said a word about the final exam and there isn't a study guide for the exam like there is for Organic, so I'm not sure if there's anything I should focus on while studying or if I should just study all of the material we've covered. Thanks guys.
