Study Guide for Anatomy & Physiology - E-Book Pearson Education For one-semester courses in human anatomy. A functional approach to human anatomy Human Anatomy, the #1 best-selling textbook for the human anatomy course, is widely regarded as the most readable and visually accessible book on the market. Using a functional anatomy theme, the text presents human anatomy as a well-illustrated "story" with the right amount of detail that learners can understand at an introductory level. Analogies and comparative descriptions make anatomical structures more memorable and understandable and explain how the shape and composition

of structures allow them to perform their functions. The 9th Edition features new exercises and questions that help students learn and use anatomical language and interpret real-world medical images while learning basic human anatomy. Building on the functional anatomy approach of previous editions, selected illustrated tables have been enhanced to tell a more cohesive and logical "story" of human anatomy.

Pearson

A Photographic Atlas for Anatomy & Physiology is a new visual lab study tool that helps students learn and identify key anatomical structures. Featuring photos from Practice Anatomy Lab (tm) 3.0 and other sources,

the Atlas includes over 250 cadaver dissection photos, histology photomicrographs, and cat dissection photos plus over 50 photos of anatomical models from leading manufacturers such as 3B Scientific®, SOMSO®, and Denoyer-Geppert Science Company. The Atlas is composed of 13 chapters, organized by body system, and includes a final chapter with cat dissection photos. In each chapter, students will first explore gross anatomy, as seen on cadavers and anatomical models, and then conclude with relevant histological images.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. With 30 exercises covering all body systems; a clear, engaging writing style; and full-color illustrations, this updated edition offers you everything needed for a successful lab experience. This edition features updated pre-lab quizzes at the beginning of each exercise, new Group

Challenge activities, and an updated art program. A wide variety of laboratory exercises and activities gives students a hands-on lab experience, including organ and body dissection activities for the cat, sheep, and cow. Beautiful, full-color art and photos help students visualize anatomical structures for laboratory practice. Thorough, clearly-written exercises assist students in comprehending and retaining the material. They include background information, a list of objectives, step-by-step instructions, and exercise review sheets. Integrated to follow each lab exercise, the review sheets can be used for pre- or post-lab review. Human and cat anatomy dissection photographs/plates are included. The “Organ Systems Overview” dissection exercise includes instruction on both rat and human dissection. Color photographs of rat and human dissection views further enhance the exercise. The spiral binding gives students a useful, convenient format for taking notes during lab. Perforated pages make it convenient for students to tear out the Review Sheets.
