One of The New York Times "100 Notable Books of 2016" KOBO "Best of the Year" From the creator of the seminal documentary of the same name, an Oscar finalist, the definitive history of the successful battle to halt the AIDS epidemic, and the powerful, heroic stories of the gay activists who refused to die without a fight. Shortly after David France arrived in New York in 1978, the newspaper articles announcing a new cancer specific to gay men seemed more a jab at his new community than a genuine warning. Just three years later, he was reporting on the first signs of what would become an epidemic. Intimately reported, suspenseful, devastating, and finally, inspiring, this is the story of the men and

women who watched their friends and lovers fall, ignored by public officials, religious leaders, and the nation at large. Confronted with shame and hatred, they chose to fight, starting protests, rallying a diverse community that had just begun to taste liberation in order to demand their right to live. We witness the founding of ACT UP and TAG (Treatment Action Group), the rise of an underground drug market in opposition to the prohibitively expensive (and sometimes toxic) AZT, and the gradual movement toward a lifesaving medical breakthrough. Throughout, France's unparalleled access to this community immerses us in the lives of extraordinary characters, including the closeted

Wall Street trader turned activist; the prominent NIH immunologist with a contentious but enduring relationship with ACT UP; the French high school dropout who finds purpose battling pharmaceutical giants in New York; and the South African physician who helped establish the first officially recognized buyers' club at the height of the epidemic. Expansive yet richly detailed, How to Survive a Plague is an insider's account of a pivotal moment in the history of civil rights.

access to the notoriously reticent musician. Lightfoot takes us deep inside the artist's world, from his idyllic childhood in Orillia, the wild sixties, and his canoe trips into Canada's North to his heady times atop the music world. Jennings explores the toll that success took on his personal life—including his troubled relationships, his battle with alcohol and his near-death experiences—and the extraordinary drive and tenacity that pulled him

through it all. Rich in voices from fellow musicians, close friends, Lightfoot's family and the singer's own reminiscences, the biography tells the stories behind some of his best-known love songs, including "Beautiful" and "Song for a Winter's Night," as well as the infidelity and divorce that resulted in classics like "Sundown" and "If You Could Read My Mind." Kris Kristofferson has called Lightfoot's songs "some of the most

beautiful and lasting music of our time." Lightfoot is an unforgettable portrait of a treasured singer-songwriter, an artist whose work has been covered by everyone from Joni Mitchell, Barbra Streisand and Nico to Bob Dylan, Elvis Presley and Gord Downie. Revealing and insightful, Lightfoot is both an inspiring story of redemption and an exhilarating read. sank. Fifteen hundred passengers and crew lost their lives. As the order to abandon ship was given, the orchestra took their instruments on deck and continued to play. They were still playing when the ship went down. The violinist, 21 year-old Jock Hume, knew that his fiancée, Mary, was expecting their first child, the author's mother. One hundred years later, Christopher Ward reveals a dramatic story of love, loss and betrayal, and the catastrophic impact of Jock's death on two very different Scottish families.

He paints a vivid portrait of an age in which class determined the way you lived - and died. An outstanding piece of historical detective work, **AND THE BAND PLAYED ON** is also a moving account of how the author's quest to learn more about his grandfather revealed the shocking truth about a family he thought he knew, a truth that had been hidden for nearly a hundred years. **And the Band Played on Macmillan**  
When Titanic collided with an iceberg at 23:40 on April 14th,

the eight members of the band had already retired for the evening. Still, they put on overcoats and mufflers came out to play in the lounge. When most of the First Class passengers had taken to their lifeboats, the musicians simply moved to the deck and continued to play, calming the passengers as the ship sank. One second class passenger said: "Many brave things were done that

night, but none were more brave than those done by men playing minute after minute as the ship settled quietly lower and lower in the sea. The music they played served alike as their own immortal requiem and their right to be recalled on the scrolls of undying fame." Survivors' accounts differ about whether their final tune was "L'Automme" or "Nearer My God To Thee." What has never

been disputed is the courage of these musicians who deliberately sacrificed the possibility of escape in order to produce a mood of tranquillity at a time of extreme anxiety. But who were they? What journeys brought them to this deck on this icy ocean? Had any of them previously displayed signs of great courage? Who did they leave behind? Historian and biographer Steve

Turner delves into the lives of these brave men, revealing eight unique portraits of bravery. "Gays, we are told, would damage morale in the military. Shilts documents the fact that morale has already been eaten away by hypocrisy, contradictions, and favoritism...This book will be to gay and lesbian liberation what Betty Friedan's was to early feminism or Rachel Carson's to ecological consciousness. No fair-minded person can read Conduct Unbecoming and consider the present system defensible. - USA Today "Gripping reading....the history of homosexual people and the movement for gay/lesbian equality in the United States

can nowhere be more clearly told." - Los Angeles Times
