Set in the days of the Empire, with the British ruling in Burma, *Burmese Days* describes both indigenous corruption and Imperial bigotry, when 'after all, natives were natives - interesting, no doubt, but finally only a "subject" people, an inferior people with black faces'. Against the prevailing orthodoxy, Flory, a white timber merchant, befriends Dr Veraswami, a black enthusiast for Empire. The doctor needs help. U Po Kyin, Sub-divisional Magistrate of Kyauktada, is plotting his downfall. The only thing that can save him is European patronage:

membership of the hitherto all-white Club. While Flory prevaricates, beautiful Elizabeth Lackersteen arrives in Upper Burma from Paris. At last, after years of 'solitary hell', romance and marriage appear to offer Flory an escape from the 'lie' of the 'pukka sahib pose'.

"Offers a useful reminder of the role of modern science in fundamentally transforming all of our lives." —President Barack Obama (on Twitter) "An important book." —Steven Pinker, *The New York Times Book Review* Now also a PBS documentary series: the surprising story of how humans gained what amounts to an extra life, from the bestselling author of *How We Got to Now* and *Where Good Ideas Come From* As a species we have doubled our life expectancy in just one hundred years. All the advances of modern life—the medical breakthroughs, the public health institutions, the rising standards of living—have given us each about twenty thousand extra days on average. There are few measures of human progress more astonishing than our increased longevity. This book is Steven Johnson's attempt to understand where that progress came from. How many of those extra twenty thousand days came from vaccines, or the decrease in famines, or seatbelts? What are the forces that now keep us alive longer? Behind each breakthrough lies an inspiring story of cooperative innovation, of brilliant thinkers bolstered by strong systems of public support and collaborative networks. But it is not enough simply to remind ourselves that progress is possible. How do we avoid decreases in life expectancy as our public health systems face unprecedented challenges? What current technologies or interventions that could reduce the impact of future crises are we somehow ignoring? A study in how meaningful change happens in society, *Extra Life* is an ode to the enduring power of common goals and public resources. The most fundamental progress we have

experienced over the past few centuries has not come from big corporations or start-ups. It has come, instead, from activists struggling for reform; from university-based and publicly funded scientists sharing their findings open-source-style; and from nonprofit agencies spreading new innovations around the world.

This collection highlights the diverse ways comics and graphic novels are used in English and literature classrooms, whether to develop critical thinking or writing skills, paired with a more traditional text, or as literature in their own right. From fictional stories to non-fiction works such as biography/memoir, history, or critical textbooks, graphic narratives provide students a new way to look at the course material and the world around them. Graphic novels have been widely and successfully incorporated into composition and creative writing classes, introductory literature surveys, and upper-level literature seminars, and present unique opportunities for engaging students' multiple literacies and critical thinking skills, as well as providing a way to connect to the terminology and theoretical framework of the larger disciplines of rhetoric, writing, and literature.

This book redefines the nature of textual difficulty in literature and shows the implications of the new definition for teachers at all levels of education. Contrary to the traditional use of grade levels or readability formulae, the authors redefine difficulty in terms of readers and the texts they meet. They base their arguments on contemporary linguistic theory, on historical and comparative studies of criticism, on literary theory about readers and texts, on post-Freudian psychology, on empirical research concerning the nature of reading literature, and on studies of classrooms, curricula, and testing. What emerges is a coherent work that builds a case for seeing difficulty in literature as a human phenomenon more than a textual one.

"You'll never think of bees, their keepers, or the fruits (and nuts) of their labor the same way again." —Trevor Corson, author of *The Secret Life of Lobsters* Award-winning journalist Hannah Nordhaus tells the remarkable story of John Miller, one of America's foremost migratory beekeepers, and the myriad and mysterious epidemics threatening American honeybee populations. In luminous, razor-sharp prose, Nordhaus explores the vital role that honeybees play in American agribusiness, the maintenance of our food chain, and the very future of the

nation. With an intimate focus and incisive reporting, in a book perfect for fans of Eric Schlosser's *Fast Food Nation*, Michael Pollan's *The Botany of Desire*, and John McPhee's *Oranges*, Nordhaus's stunning exposé illuminates one of the most critical issues facing the world today, offering insight, information, and, ultimately, hope.

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the *Orwell's Essays* series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in

balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

A Sea of Troubles Hodder Education

The Non-Fiction of George Orwell includes three memoirs, Down and Out in Paris and London, The Road to Wigan Pier, and Homage to Catalonia which provide an indispensable introduction to the thought and writing of George Orwell. Immediately after deciding to become a writer, the Eton-educated Orwell lived among the paupers and the poorest of working-class labourers in Paris and the East End of London, observing and recording. His first book Down and Out in Paris and London discusses not just the physical life of the poor, but also their inner life. "If you set yourself to it, you can live the same life, rich or poor. You can keep on with your books and your ideas. You just got to say to yourself, "I'm a free man in here" - he tapped his forehead - "and you're all right." ? George Orwell, Down and Out in Paris and London "People are wrong when they think that an unemployed man only worries about losing his wages; on the contrary, an illiterate man, with the work habit in his bones, needs work even more than he needs money. An educated man can put up with enforced idleness, which is one of the worst evils of poverty ... The man who really merits pity is the man who has been down from the start, and faces poverty with a blank, resourceless mind." ? George Orwell, Down and Out in Paris and London. The Road to Wigan Pier, a highly original and unorthodox political treatise, describes Orwell's experiences living among the destitute and unemployed miners of northern England, sharing, observing, and describing their lives. It concludes with a passionate description of socialism; a critique of the middle class, who, logically, should support it but are its most vociferous opponents; and a scathing critique of the socialist movements of the time. Robert McCrum describes the book's essential role in the evolution of "George Orwell" "The upshot of this uniquely strange book was a kind of creative liberation: Eric Blair, who was now unequivocally George Orwell, had found his voice and his identity. For the rest of his active life - barely 10 years - he would write as a British literary socialist. From this declaration of intent come his masterpieces: Homage to Catalonia, Animal Farm and, finally, Nineteen Eighty-Four. It's arguable that without The Road to Wigan Pier none of these would have been possible." Homage to Catalonia is Orwell's

account of his experiences as a volunteer in the Spanish Civil War. It was a formative period for his political thought and his subsequent writing. He states in Why I Write "Every line of serious work that I have written since 1936 has been written, directly or indirectly, against totalitarianism and for Democratic Socialism, as I understand it." Homage to Catalonia, "politically and as literature ... is a work of first-class importance," Geoffrey Gorer. "It shows us the heart of innocence that lies in revolution; also, the miasma of lying that, far more than the cruelty, takes the heart out of it," Philip Mairet. George Orwell (1903-1950) was a leading British writer of the twentieth century. After studying at Eton as a King's Scholar he joined the Indian Imperial Police until 1927 when, disgusted by imperialism, he resigned to pursue his boyhood dream of being a writer. Orwell was a prolific journalist, essayist, novelist and nonfiction writer. He is remembered for his prescient writing and his unwavering commitment to truth and clarity of expression. Animal Farm and Nineteen Eighty-Four have placed him at the very pinnacle of British literature.
