The Non-Fiction of George Orwell includes three memoirs, *Down and Out in Paris and London*, *The Road to Wigan Pier*, and *Homage to Catalonia* which provide an indispensable introduction to the thought and writing of George Orwell. Immediately after deciding to become a writer, the Eton-educated Orwell lived among the paupers and the poorest of working-class labourers in Paris and the East End of London, observing and recording. His first book *Down and Out in Paris and London* discusses not just the physical life of the poor, but also their inner life. "If you set yourself to it, you can live the same life, rich or poor. You can keep on with your books and your ideas. You just got to say to yourself, 'I'm a free man in here' - he tapped his forehead - "and you're all right." George Orwell, *Down and Out in Paris and London* "People are wrong when they think that an unemployed man only worries about losing his wages; on the contrary, an illiterate man, with the work habit in his bones, needs work even more than he needs money. An educated man can put up with enforced idleness, which is one of the worst evils of poverty ... The man who really merits pity is the man who has been down from the start, and faces poverty with a blank, resourceless mind." George Orwell, *Down and Out in Paris and London*. *The Road to Wigan Pier*, a highly original and unorthodox political treatise, describes Orwell's experiences living among the destitute and unemployed miners of northern England, sharing, observing, and describing their lives. It concludes with a passionate description of socialism; a critique of the middle class, who, logically, should support it but are its most vociferous opponents; and a scathing critique of the socialist movements of the time. Robert McCrum describes the book's essential role in the evolution of "George Orwell" "The upshot of this uniquely strange book was a kind of creative liberation: Eric Blair, who was now unequivocally George Orwell, had found his voice and his identity. For the rest of his active life - barely 10 years - he would write as a British literary socialist. From this declaration of intent come his masterpieces: *Homage to Catalonia*, *Animal Farm* and, finally, *Nineteen Eighty-Four*. It's arguable that without *The Road to Wigan Pier* none of these would have been possible." *Homage to Catalonia* is Orwell's account of his experiences as a volunteer in the Spanish Civil War. It was a formative period for his political thought and his subsequent writing. He states in *Why I Write* "Every line of serious work that I have written since 1936 has been written, directly or indirectly, against totalitarianism and for Democratic Socialism, as I understand it." *Homage to Catalonia*, "politically and as literature ... is a work of first-class importance," Geoffrey Gorer. "It shows us the heart of innocence that lies in revolution; also, the miasma of lying that, far more than the cruelty, takes the heart out of it," Philip Mairet. George Orwell (1903-1950) was a leading British writer of the twentieth century. After studying at Eton as a King's Scholar he joined the Indian Imperial Police until 1927 when, disgusted by imperialism, he resigned to pursue his boyhood dream of being a writer. Orwell was a prolific journalist, essayist, novelist and nonfiction writer. He is remembered for his prescient writing and his unwavering commitment to truth and clarity of expression. *Animal Farm* and *Nineteen Eighty-Four* have placed him at the very pinnacle of British literature.

They are all important writers happily included in Elizabeth Marlow's *How to Teach Literature: Introductory Course*. Elizabeth lifts the reader to experience the beat in Poe's writing, the stark descriptors in the work of Hemingway, the rhythm of Alfred, Lord Tennyson. She shows us that writing is not just a group of assembled words; it is a matrix of sound, color, meter, and imagery. For an English teacher, this is a helpful reminder and some fresh air. For a student, this is a gateway to the beauty and skill of great writing. To us all, this book is a way for the literature veteran to be challenged, and the newcomer to be lured into the wondrous world of literature. I wholeheartedly recommend this book. —John Baskam, middle school and high school English teacher at Covenant Christian Academy, Cumming, Georgia This is just the sort of guide I wish I'd had when I was homeschooling my children. Elizabeth Marlow addresses both the big picture, which is the main goal of fostering a lifelong love for classic literature in students, and everyday practical concerns. Parents and teachers will find her trustworthy in her mature spiritual grounding, her impeccable literary taste, and her wealth of experience gained from decades of teaching literature in a Christian school. The book is well organized and thorough, and her witty, down-to-earth writing style makes it a pleasure to read. —Marcelle Tuggle, veteran homeschool mom

“Offers a useful reminder of the role of modern science in fundamentally transforming all of our lives.” —President Barack Obama (on Twitter) “An important book.” —Steven Pinker, *The New York Times Book Review* Now also a PBS documentary series: the surprising story of how humans gained what amounts to an extra life, from the bestselling author of *How We Got to Now* and *Where Good Ideas Come From* As a species we have doubled our life expectancy in just one hundred years. All the advances of modern life—the medical breakthroughs, the public health institutions, the rising standards of living—have given us each about twenty thousand extra days on average. There are few measures of human progress more astonishing than our increased longevity. This book is Steven Johnson’s attempt to understand where that progress came from. How many of those extra twenty thousand days came from vaccines, or the decrease in famines, or seatbelts? What are the forces that now keep us alive longer? Behind each breakthrough lies an inspiring story of cooperative innovation, of brilliant thinkers bolstered by strong systems of public support and collaborative networks. But it is not enough simply to remind ourselves that progress is possible. How do we avoid decreases in life expectancy as our public health systems face unprecedented challenges? What current technologies or interventions that could reduce the impact of future crises are we somehow ignoring? A study in how meaningful change happens in society, *Extra Life* is an ode to the enduring power of common goals and public resources. The most fundamental progress we have experienced over the past few centuries has not come from big corporations or start-ups. It has come, instead, from activists struggling for reform; from university-based and publicly funded scientists sharing their findings open-source-style; and from nonprofit agencies spreading new innovations around the world.

This book redefines the nature of textual difficulty in literature and shows the implications of the new definition for teachers at all levels of education. Contrary to the traditional use of grade levels or readability formulae, the authors redefine difficulty in terms of readers and the texts they meet. They base their arguments on contemporary linguistic theory, on historical and comparative studies of criticism, on literary theory about readers and texts, on post-Freudian psychology, on empirical research concerning the nature of reading literature, and on studies of classrooms, curricula, and testing. What

emerges is a coherent work that builds a case for seeing difficulty in literature as a human phenomenon more than a textual one.
