"Are you the lady who is to teach the royal family?" She inclined her head slightly. "I am." "Have you friends in Bangkok?" "I know no one in Bangkok at all." When Anna arrives on a crowded dock in Siam in 1862, she is afraid her friends might have been right: A country as "backward" as Siam is no place for a proper young Englishwoman. And when she meets the king, who is unbearably headstrong and arrogant, she is quite positive she has made a huge mistake. But then Anna begins her post as governess to the royal children (all sixty-seven of them!), and it's not long before they taught her to love the beauty and excitement of this strange new land. Suddenly she has more friends than she could ever hope for. Yet in the kingdom of Siam, there are rules Anna cannot accept. And as her relationship with the king grows, the conflicts between them grow too. If they are to overcome their differences, Anna and the King will have to meet somewhere between East and West...

Making a Life on a Tough New Planet New York : Doubleday

Based on the incredible true story of one woman's journey to the exotic world of

nineteenth-century Siam, the riveting novel that inspired *The King and I*. In 1862, recently widowed and with two small children to support, British schoolteacher Anna Leonowens agrees to serve as governess to the children of King Mongkut of Siam (present-day Thailand), unaware that her years in the royal palace will change not only her own life, but also the future of a nation. Her relationship with King Mongkut, famously portrayed by Yul Brynner in the classic film *The King and I*, is complicated from the start, pitting two headstrong personalities against each other: While the king favors tradition, Anna embraces change. As governess, Anna often finds herself at cross-purposes, marveling at the foreign customs, fascinating people, and striking landscape of the kingdom and its harems, while simultaneously trying to influence her pupils—especially young Prince Chulalongkorn—with her Western ideals and values. Years later, as king, this very influence leads Chulalongkorn to abolish slavery in Siam and introduce democratic reform based on the ideas of freedom and human dignity he first learned from his beloved tutor. This captivating novel brilliantly combines in-depth research—author Margaret Landon drew from Siamese court records and Anna's own writings—with richly imagined details to create a lush portrait of 1860s Siam. As a Rodgers & Hammerstein Broadway musical and an Academy Award-winning film, the story of Anna and the King of Siam has enchanted millions over the years. It is a gripping tale of cultural differences and shared humanity that invites readers into a vivid and sensory world populated by unforgettable characters.

Anna and the King Rockport Pub

A brave British widow goes to Siam and—by dint of her principled and indomitable character—inspires that despotic nation to abolish slavery and absolute rule: this appealing legend first took shape after the Civil War when Anna Leonowens came to America from Bangkok and succeeded in becoming a celebrity author and lecturer. Three decades after her death, in the 1940s and 1950s, the story would be transformed

into a powerful Western myth by Margaret Landon's best-selling book *Anna and the King of Siam* and Rodgers and Hammerstein's musical *The King and I*. But who was Leonowens and why did her story take hold? Although it has been known for some time that she was of Anglo-Indian parentage and that her tales about the Siamese court are unreliable, not until now, with the publication of *Masked*, has there been a deeply researched account of her extraordinary life. Alfred Habegger, an award-winning biographer, draws on the archives of five continents and recent Thai-language scholarship to disclose the complex person behind the mask and the troubling facts behind the myth. He also ponders the curious fit between Leonowens's compelling fabrications and the New World's innocent dreams—in particular the dream that democracy can be spread through quick and easy interventions. Exploring the full historic complexity of what it once meant to pass as white, *Masked* pays close attention to Leonowens's midlevel origins in British India, her education at a Bombay charity school for Eurasian children, her material and social milieu in Australia and Singapore, the stresses she endured in Bangkok as a working widow, the latent melancholy that often afflicted her, the problematic aspects of her self-invention, and the welcome she found in America, where a circle of elite New England abolitionists who knew nothing about Southeast Asia gave her their uncritical support. Her embellished story would again capture America's imagination as World War II ended and a newly interventionist United States looked toward Asia. Written in engrossing, intimate prose, it makes us rethink how blood's deep connections relate to the attachments of proximity."—Andrew Solomon, author of *Far from the Tree* In the early 1980s, Mary Hall is a little girl growing up in poverty in Camden, New Jersey, with her older brother Jacob and parents who, in her words, were "great at making babies, but not so great at holding on to them." After her father leaves the family, she is raised among a commune of mothers in a low-income housing complex. Then, no longer able to care for the only daughter she has left at home, Mary's mother sends Mary away to Oklahoma to live with her maternal grandparents, who have also been raising her younger sister, Rebecca. Living in Oklahoma with her maternal grandfather, Mary gets a new name and a new life. But she's haunted by the past: by the baby girls she's sure will come looking for her someday, by the mother she left behind, by

the father who left her. Mary is a college student when her sisters start to get back in touch. With each subsequent reunion, her family becomes closer to whole again. Moving, haunting, and at times wickedly funny, *Bastards* is about finding one's family and oneself.

"Tubbs' connection to these women is palpable on the page — as both a mother and a scholar of the impact Black motherhood has had on America. Through Tubbs' writing, Berdis, Alberta, and Louise's stories sing. Theirs is a history forgotten that begs to be told, and Tubbs tells it brilliantly." — Ibram X. Kendi, #1 New York Times bestselling author of *How to Be an Antiracist* and National Book Award winner *Stamped from the Beginning* Much has been written about Berdis Baldwin's son James, about Alberta King's son Martin Luther, and Louise Little's son Malcolm. But virtually nothing has been said about the extraordinary women who raised them. In her groundbreaking and essential debut *The Three Mothers*, scholar Anna Malaika Tubbs celebrates Black motherhood by telling the story of the three women who raised and shaped some of America's most pivotal heroes. Berdis Baldwin, Alberta King, and Louise Little were all born at the beginning of the 20th century and forced to contend with the prejudices of Jim Crow as Black women. These three extraordinary women passed their knowledge to their children with the hope of helping them to survive in a society that would deny their humanity from the very beginning—from Louise teaching her children about their activist roots, to Berdis encouraging James to express himself through writing, to Alberta basing all of her lessons in faith and social justice. These women used their strength and motherhood to push their children toward greatness, all with a conviction that every human being deserves dignity and respect despite the rampant discrimination they faced. These three mothers taught resistance and a fundamental belief in the worth of Black people to their sons, even when these beliefs flew in the face of America's racist practices and led to ramifications for all three families' safety. The fight for equal justice and dignity came above all else for the three mothers. These women, their similarities and differences, as individuals and as mothers, represent a piece of history left untold and a celebration of Black motherhood long overdue.

"Anna Leonowens has been a historical puzzle. Susan Morgan establishes a solid ground for our understanding of this intriguing writer who became

famous in our time thanks to a Broadway musical. Her life and contributions as a writer, a humanist, and a 19th century feminist were far richer beyond being the 'I' with the King."—Thongchai Winichakul, author of *Siam Mapped: A History of the Geo-Body of a Nation* "With extraordinary detective work, Susan Morgan uncovers the real tale of a brilliant and dynamic traveler who cut ties to her past history and fabricated the story of her life that has found its way into legend. In lovely and graceful prose, she uses this story to help us understand patterns of national and international life."—Allan M. Winkler, author of *Franklin D. Roosevelt and the Making of Modern America* "With sensitive writing and meticulous research, Bombay Anna offers the first comprehensive biography of Anna Leonowens, the 'I' in *The King and I*, which gave my father, Yul Brynner, his signature role. The details of her self-invention are only part of the revelation Susan Morgan provides; she also paints a masterful portrait of the Britain's Raj and its colonial hegemony in Southeast Asia. It is a fascinating read." —Prof. Rock Brynner, author of *Yul: The Man Who Would Be King*

This book explores influential designers' sketchbooks as a truer reflection of a designer's thought processes, preoccupations, and

problem-solving strategies than can be had by simply viewing finished projects. Highly personal and idiosyncratic, sketchbooks offer an arena for unstructured exploration, a space free from all budgetary and client constraints. Visually arresting objects in their own right, this book aims to elevate sketches from mere ephemera to important documents where the reader can glean valuable insight into the creative process, and apply it to their own practices. Featured designers include Ralph Caplan, Nigel Holmes, Chris Bigg, Eva Jiricna, Jason Munn, Gary Baseman, Marian Bantjes, and many others.

"Read it, please. Straight through to the end. Whatever else you were planning to do next, nothing could be more important." —Barbara Kingsolver Twenty years ago, with *The End of Nature*, Bill McKibben offered one of the earliest warnings about global warming. Those warnings went mostly unheeded; now, he insists, we need to acknowledge that we've waited too long, and that massive change is not only unavoidable but already under way. Our old familiar globe is suddenly melting, drying, acidifying, flooding, and burning in ways that no human has ever seen. We've created, in very short order, a new planet, still recognizable but fundamentally different. We may as well call it Eaarth. That new planet is filled with new binds and traps. A changing world costs large sums to defend—think of the money that went to repair New Orleans, or the trillions it will take to transform our energy systems. But the

endless economic growth that could underwrite such largesse depends on the stable planet we've managed to damage and degrade. We can't rely on old habits any longer. Our hope depends, McKibben argues, on scaling back—on building the kind of societies and economies that can hunker down, concentrate on essentials, and create the type of community (in the neighborhood, but also on the Internet) that will allow us to weather trouble on an unprecedented scale.

Change—fundamental change—is our best hope on a planet suddenly and violently out of balance.

Such was Chow Phya Sri Sury Wongse when I was first presented to him: a natural king among the dusky forms that surrounded him, the actual ruler of that semi-barbarous realm, and the prime contriver of its arbitrary policy. Black, but comely, robust, and vigorous, neck short and thick, nose large and nostrils wide, eyes inquisitive and penetrating, his was the massive brain proper to an intellect deliberate and systematic. Well found in the best idioms of his native tongue, he expressed strong, discriminative thoughts in words at once accurate and abundant. His only vanity was his English, with which he so interlarded his native speech, as often to impart the effect of levity to ideas that, in themselves, were grave, judicious, and impressive.
