Building on the historical perspective that characterized the previous book in the trilogy, Atlantis Rising, this final volume asks readers to remember that when they decided “to come to this earth adventure... blowing down the Establishment Walls would be a Herculean task.” But, she adds, “Fall they would indeed.” Hastening this necessary next step in evolution to higher being, says author Patricia Cori, requires understanding the forces at work and how to challenge and conquer them. No More Secrets, No More Lies unmasks the lies that have been employed to disempower the human race, while illuminating the tools necessary for those who intend to ascend with a revitalized Planet Earth. Intended as a guide for overcoming the designs of the dark warriors, and a blueprint for achieving the absolute freedom that is our true birthright as the super race of the realm, this provocative

book brilliantly integrates into a larger schema such issues as media manipulation, racism, dark forces, crop circles, our food and water, and imminent extraterrestrial contacts, with the cosmic unfolding of human awareness and the evolutionary activation of our complex DNA codes—our blueprint to immortality. The White Witch's Book of Healing: Weaving Magickal Rituals Throughout Your Craft for Sacred Healing and Reclamation of the Wile Witch Within Light Technology Publishing Is Present Realty: The Super-science of the transcendental value investigates our reality as an entity who has the power to shape the present and be the light that affirms our presence in the eternal future. The transcendental value of the past is immanent within the present. The present becomes the subject of scientific investigation. The entity who conceived the scientifically investigable

present is the super-scientific factor, whose reality transcends beyond the limits of science. An observer behaves as a mirror image of the present and uses the light of self-consciousness for illuminating the reality of the universe.

Without the observer ' s light, the present of the universe is the dark matter. Once the observer services the sentient light force, the future of the observer is the black hole. As a manager of our reality, we have an option not to transform our sentient energy into a light force, behaving as if we are the white star source of light, for illuminating the reality of the universe. Instead, we may invest our energy for conceiving a different reality at any moment that thereafter constitutes the past. Such unique reality is scientifically observable in the present as the illuminated matter. The illuminated matter is a proportion of the present, which is the dark matter. Thus, if an observer observes the illuminated matter as the rope, it might as well be a body of atoms that eventually transforms into a body of cells. That body of cells may be the reality of a snake. What we observe and experience in the present is not necessarily the reality. This work reveals the blockages that limit our vision ' s dimensionality and the solutions to be the reality that shapes the eternal present. It all began with -- ANNA -- In love with a woman he had only seen once and could not find, the Highlander, Kevin MacGreagor was growing older and needed a wife to give him sons. No other woman pleased him, even the daughters of other lairds, so he finally settled for Anna sight unseen. But when his men went to meet her guard, she was all alone and badly beaten. And if he did, could he keep himself from falling

in love with her?

ENCOURAGING BOOK TO HELP YOU REMEMBER WHO YOU ARE AND TO PLANT YOURSELF HERE Tap into the cosmic nature of your soul, discover your purpose and commit to being here on Earth. Letters to a Starseed asks the biggest questions that mystics and philosophers through the ages have been asking: What is the soul, where did it originate and why have we chosen to come here at this time? YOUR SOUL HAD A DREAM, YOUR LIFE IS IT. This is a book for those who at times feel misplaced in the world; those who have always felt a remembering of some other place without quite knowing what that place really is. As a planet, we are waking up to the fact that the ancient prophecies and warnings from the elders and wise ones are no longer predictions, but our waking reality. They are not just coming or even near ... we are living them right now. What we do now matters to the future of this planet. And we all have a role to play. Poems ranging from "La Jeune Parque" and "Le Cimetière marin" to occasional and light verse written as letters to friends, dedications in books, and inscriptions on ladies' fans demonstrate the wide scope of Valéry's lyric preoccupation. The bilingual edition, with David Paul's

English translations facing the French texts, includes the autobiographical "Recollection," quoted below, and excerpts on poetry, selected and translated from Valéry's notebooks by James Lawler. Paul Valéry turned to the discipline of poetry during the First World War, to escape from the "commotion of a world gone mad." "I fashioned myself a poetry," he wrote, "that had no other law than to establish for me a way of living with myself, for a part of my days." Originally published in 1971. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
