with flaps with a new introduction by Robert Weick. Part of the Knickerbocker Classics series, a modern design makes this timeless book a perfect travel companion. Considered to be one of the most influential political writings, The Communist Manifesto is as relevant today as when it was originally published. This pamphlet by the German philosophers Karl Marx and Friedrich Engels, published in 1884 as revolutions were erupting across Europe, discusses class struggles and the problems of a capitalist society. After being exiled to London, Marx published the first part of Das Kapital, a theoretical text that argues that capitalism will create greater and greater division in wealth and welfare and ultimately be replaced by a system of common ownership of the means of production. After Marx's death, Engels completed and published the second and third parts from his colleague's notes. The Knickerbocker Classics bring together the essential works of classic authors from around

the world in stunning editions to be collected and enjoyed.

More than 300 million Indians are still prey to hunger; illiteracy and disease; and 51 per cent of India's children are still undernourished. What will it take for India to bridge this great divide?

When will the fruits of development reach the poorest of the poor; and wipe the tears from the eyes of every man; woman and child; as Mahatma Gandhi had dreamt? And how should this; our greatest challenge ever; be negotiated? In this extraordinarily inspiring and visionary book; N.R. Narayana Murthy; who pioneered; designed and executed the Global Delivery Model that has become the cornerstone of India's success in information technology services outsourcing; shows us that a society working for the greatest welfare of the greatest number—samasta jananam sukhino bhavantu—must focus on two simple things: values and good leadership. Drawing on the remarkable Infosys story and the lessons learnt from the two decades of post-reform
