Q3D Extractor v8 includes a new
capacitance solver that is

capable of extracting the
capacitance and conductance with
lossy dielectrics. This new
solver is optimized to exploit
available computer memory and
perform multiple frequency
evaluations and allows users to
model infinite ground planes.

Ground net and Return path Grounded net
reduce feature allows you to add grounded
conductors to your model. Return path lets you
select a conductor that is identified as a return
path enabling you to model the effects of return
currents on the inductance and resistance
matrices.
