Week 2 Lab Activity Part 1: Ecology Vocabulary Use the chapters of your textbook or any other textbooks available to come up with definitions of the following ecology terms. Be sure to use the ecological definition; for example, there are many definitions of the term “ community ” , but you want the one that applies to ecosystems.  
Biology Lesson Plans: Free Labs, Activities, Science Projects  
Activity Read the entire activity before getting started. Break the class into small groups with no more than four people per group. Give each group their lab sheets and topographic maps. Reading the assumptions aloud. Answer questions 1-3. Answer #1: 4.8 can round to 5; Answer #2: 15 deer; Answer #3: 75 square miles for each mountain lion.  
Labs & Activities - Cornell Institute for Biology Teachers

Ecology lab – Wolf conservation Predators and Prey on Isle Royale Introduction Isle Royale is an island about 15 miles from the northern shore of Lake Superior, which is one of the Great Lakes on the border of Canada and the U.S. Lake Superior is the largest freshwater lake in the world, stretching 160 miles from north to south and well  
Lambiase, Tina / Honors Biology  
In this lab, students will be introduced to the concept of a dichotomous key through the use of preliminary activities modeled by the teacher. They will then learn about the ecology and biology of selected marine mollusks, before putting their dichotomous key reading skills to the test on 8 or...  
Unit 5 Ecology Review Flashcards | Quizlet  
The simulated experiments in our virtual labs and interactive chapters let students actively explore concepts and discover how ecological processes work. This approach is particularly powerful for challenging topics such as Lotka-Volterra models, zero growth isoclines, nutrient cycles, types of photosynthesis, and life tables. The conceptual focus of the labs also makes them a
