Answer: A. “ I can take drugs and skip meals so I can lose excess sugar fast. ” It is important for nurses to investigate nutritional intake, noting any problems with intake and adherence to prescribed diet, to help prevent adverse reactions to drug therapy.

### Answer Key Integumentary System Quiz

As may be obvious from its name, one of the major functions of connective tissue is to connect tissues and organs. Unlike epithelial tissue, which is composed of cells closely packed with little or no extracellular space in between, connective tissue cells are dispersed in a matrix. The matrix usually includes a large amount of extracellular material produced by the connective tissue cells that ...
