Central Themes, Level Two, is an English language course book designed for students in Secondary Two. Its scope and sequence is based on the English syllabus of the Lebanese Ministry of Education and Higher Education. Central Themes, Level Two, presents topics, such as technology, human

rights, natural phenomena, environment, health and safety, and immigration, which exhibit universality and stand true for people of all cultures. Through those topics, students better understand human experiences and gain insight into how the world works. Central Themes, Level Two, is a holistic language-teaching course book. Each of the ten units has four theme-based lessons, preceded by Starting Point and followed by Finish Line. The unit has also two windows on reading and writing strategies. The activities presented throughout these constituents are geared to develop students' skills in reading, writing, speaking, listening, and research. The activities equally enrich students' vocabulary stock, sharpen their critical thinking, and raise their cultural awareness. Central Themes, Level Two, is ideal for Secondary Two students interacting in a classroom

setting or preparing for their exams. Central Themes, Level Two, is a holistic language-teaching course book. This book offers the tools teachers need to get started with an innovative approach to teaching history, one that develops literacy and higher-order thinking skills, connects the past to students' lives today, and meets Common Core State Standards (grades 7–12). The author provides over 60 primary sources organized into seven thematic units, each structured around an essential question from U.S. history. As students analyze carefully excerpted documents—speeches by presidents and protesters, Supreme Court cases, political cartoons—they build an understanding of how diverse historical figures have approached key issues. At the same time, students learn to participate in civic debates and develop their own views on what it means to be a 21st-century American. Each unit connects to current events and dynamic classroom activities make history come alive. In addition to the documents themselves, this teaching manual provides strategies to assess student learning; mini-lectures designed to introduce documents; activities to help students process, display, and integrate their learning; guidance to help teachers create their own units; and more. Book Features: A timely aid for secondary school teachers confronted with Common Core and other state-level quality requirements. An approach that promotes student engagement and critical thinking to replace or augment a traditional textbook. Challenges to the “master narrative” of U.S. history from figures like Sojourner Truth, Malcolm X,

and Cesar Chavez, as well as traditionally recognized historical figures such as George Washington and Thomas Jefferson. Essential questions to help students explore seven of the most important recurring themes in U.S. history. Role-plays and debates to promote interaction among students. Printable copies of the documents included in the book can be downloaded at tccpress.com.

BESTSELLER • "A

harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism."

—PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the

summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more—including Krakauer's—in guilt-ridden disarray, would also provide the impetus for *Into Thin Air*, Krakauer's epic account of the May 1996 disaster. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition.

Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since *Into Thin Air*'s denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*,

<p>Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters--a prestigious prize intended "to honor writers of exceptional accomplishment." According to the Academy's citation, "Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an</p>	<p>ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind."</p> <p><u>Central Themes</u> Cambridge University Press</p> <p>With its fresh new look, the third edition of the Summit program helps develop confident English speakers who are able to navigate a host of social and professional situations. Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a

programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.
