Brief Strategic Coaching offers coaches a different process for rapid problem resolution and change. The book guides readers to identify problematic attempts at solutions, to get unstuck and reach their goals by breaking free from the vicious cycle of "the more I try to solve a problem, the worse it gets". Instead, the new solution is often radically different to the original one and brief strategic coaching supports successful implementation of these new actions. Coaches can use this book to: -Integrate brief strategic coaching with their current methods of working -Understand and assess current solution attempts by coachees -Support coachees to escape the cycle of problem maintenance -Adjust problem perceptions and develop new solution strategies with the coachee This book offers a fresh and practical take on a classic idea, making it an essential addition to the bookshelves of coaches and management leaders globally. "I wish I'd had my hands on this before - my leader clients certainly would have benefited! A highly valuable addition to the coach's toolkit." Liz Hall, Editor of Coaching at Work magazine, Author of Mindful Coaching and Coach Your Team "Engaging and practical, this book is an invaluable guide for coaches and practitioners who work with clients wishing to break free from ineffective problem-solving strategies." Dr Christiana Iordanou, Lecturer in Psychology, University of Kent; Co-author of Values and Ethics in Coaching "I highly recommend this book to everyone who is interested in learning to apply the strategic approaches of Milton Erickson in coaching." Bernhard Trenkle, President ISH International Society of Hypnosis Member BOD of Milton Erickson Foundation, Phoenix Andrew Armatas is an Australian-born executive coach and psychologist with background experience in brief approaches to change and corporate mental health. A founding member of the International Society for Coaching Psychology, his expertise lies in mental training skills, suggestive

techniques and brief strategic principles in corporate and coaching contexts.

Access to government information faces many roadblocks in developing and emerging economies due to lack of appropriate legal frameworks and other requisite information laws. However, there is hope that many countries are now recognizing the importance of providing access to public information resources. Digital Access and E-Government: Perspectives from Developing and Emerging Countries explores the relationships that exist between access to information laws and e-government. It shares the strategies used in encouraging access to information in a variety of jurisdictions and environments, to be of use to e-government designers and practitioners, policymakers, and university professors.

Cognitive and Affective Perspectives on Immersive Technology in Education Cengage Learning

This book is the eleventh in a series presenting research papers arising from MSc/MRes research projects undertaken by students of the School of Computing and Mathematics at Plymouth University. The publications in this volume are based upon research projects that were undertaken during the 2012/13 academic year. A total of 15 papers are presented, covering many aspects of modern networking and communication technology, including security, mobility, coding schemes and quality measurement. The expanded topic coverage compared to earlier volumes in this series reflects the broadening of our range of MSc programmes. Specifically contributing programmes are: Communications Engineering and Signal Processing, Computer and Information Security, Computer Science, Network Systems Engineering, and Robotics.

Advances in Communications, Computing, Networks and Security Volume 11 IGI Global

Although it may seem a recent phenomenon, tourism has long been associated with improved health and spa tourism has its roots in antiquity. With the emergence of activities such as bushwalking and meditation, and with increasing numbers of people travelling abroad for medical or cosmetic procedures, medical tourism is now a growing niche in the tourism market. This book looks at the background and rise of health tourism, new emerging facets of the sector, and examines how health related travel fits into a tourism framework. It is suitable for undergraduate and postgraduate students.

Brief Strategic Coaching: The Problem Resolution Process that Inspired Brief and Solution-focused Thinking Bloomsbury Publishing

This analytical volume uses qualitative data, quantitative data, and direct employee experiences to aid understanding of why workplace bullying occurs in universities throughout the US. To address higher education workplace bullying, this text offers data-driven interventions for human resource staff and departments to effectively

tackle this destructive phenomenon. Drawing on Hollis ' first-hand research which is supported by findings from a 2019 Human Resources data collection, this text identifies populations which are most vulnerable to discrimination within academia. The data shows how human resource departments, executive leadership, and faculty might proactively intervene to prevent workplace bullying. Divided into two parts, the book offers empirical analysis of structural interventions for human resource efforts to combat workplace bullying in higher education. Second, the book puts forth solutions based on empirical findings for organizations and human resources to combat workplace aggression and civility which hurts higher education. Further, the author examines the specific effect of workplace harassment and cyberbullying on women of color, junior faculty, women, and the LGBTQ community. This text will benefit researchers, doctoral students, and conducting higher education research. Additionally, the book focusses on structural issues which interfere with multicultural education more broadly. Those interested in Human Resource Management, the sociology of education, and gender and sexuality studies and will also enjoy this volume.

Management Today McGraw-Hill Education (UK)

Today's global markets demand that companies of all sizes look to international markets for potential customers. The successive crises that have taken place in the last decade make the internationalization of companies essential. This situation is further aggravated in the case of SMEs, as surviving only from national markets is becoming increasingly difficult. Indeed, the economic sphere is in constant flux, which demands that companies have a great capacity for adaptation to face the new challenges of an ever more globalized and difficult market. In this context, new forms of business communication are emerging, especially through the web and new technologies. Digital marketing and the dissemination of corporate information have become key processes for the success of companies. It is therefore crucial to research different digital marketing processes and ways of breaking down linguistic and cultural barriers between users from different sociolinguistic contexts. Innovative Perspectives on Corporate Communication in the Global World contains different contributions focused on the description of methods, processes, and tools that can be adopted to achieve corporate internationalization goals. The chapters provide a comprehensive review of the why, what, and how of disseminating corporate information and promoting corporate digital communication into internationalization processes. These strategies can be related to the development of digital tools, the design of new corporate communication strategies, the proposal of new ways of breaking social and linguistic barriers between technology users, or the creation of new methodologies aimed at evaluating the effectiveness of digital marketing strategies. This book is ideal for marketers, managers, executives, entrepreneurs, practitioners, researchers, academicians, and students interested in new corporate communication strategies and their effectiveness.

Education is a field sometimes beset by theories-of-the-day and with easy panaceas that overpromise the degree to which they can alleviate pressing educational problems. The two-volume Encyclopedia of Educational Theory and Philosophy introduces readers to theories that have stood the test of time and those that have provided the historical foundation for the best of contemporary educational theory and practice. Drawing together a team of international scholars, this invaluable reference examines the

global landscape of all the key theories and the theorists behind them and presents them in the context needed to understand their strengths and weaknesses. In addition to interpretations of long-established theories, this work offers essays on cutting-edge research and concise, to-the-point definitions of key concepts, ideas, schools, and figures. Features: Over 300 signed entries by trusted experts in the field are organized into two volumes and overseen by a distinguished General Editor and an international Editorial Board. Entries are followed by cross references and further reading suggestions. A Chronology of Theory within the field of education highlights developments over the centuries; a Reader ' s Guide groups entries thematically, and a master Bibliography facilitates further study. The Reader ' s Guide, detailed index, and cross references combine for strong search-and-browse capabilities in the electronic version. Available in a choice of print or electronic formats, Encyclopedia of Educational Theory and Philosophy is an ideal reference for anyone interested in the roots of contemporary educational theory.

Microfoundations of Institutions Berghahn Books

The advanced AI techniques are essential for resolving various problematic aspects emerging in the field of bioinformatics. This book covers the recent approaches in artificial intelligence and machine learning methods and their applications in Genome and Gene editing, cancer drug discovery classification, and the protein folding algorithms among others. Deep learning, which is widely used in image processing, is also applicable in bioinformatics as one of the most popular artificial intelligence approaches. The wide range of applications discussed in this book are an indispensable resource for computer scientists, engineers, biologists, mathematicians, physicians, and medical informaticists. Features: Focusses on the cross-disciplinary relation between computer science and biology and the role of machine learning methods in resolving complex problems in bioinformatics Provides a comprehensive and balanced blend of topics and applications using various advanced algorithms Presents cutting-edge research methodologies in the area of AI methods when applied to bioinformatics and innovative solutions Discusses the AI/ML techniques, their use, and their potential for use in common and future bioinformatics applications Includes recent achievements in AI and bioinformatics contributed by a global team of researchers

This book constitutes a collection of selected contributions from the 11th International Conference on Perspectives in Business Informatics Research, BIR 2012, held in Nizhny Novgorod, Russia, in September 2012. The 15 papers presented in this volume were carefully reviewed and selected from 36 submissions. They have been organized in topical sections on: knowledge management and the Semantic Web; business and information systems development; business, people, and systems interoperability; and business intelligence.

Innovative Perspectives on Corporate Communication in the Global World Springer

Strategic alliances - voluntary, long-term collaborations between firms to achieve their objectives - are attracting increasing attention in business schools because of their growing prevalence among organizations today. Mastering the art of managing strategic alliances allows firms to radically improve their performance and this book provides a detailed, evidence-based approach outlining the design, management, and evaluation of these alliances. Elaborating on the decision-making structures apparent during each stage in the alliance life-cycle and in elucidating cases from across the world, Strategic Alliance Management offers a systematic framework that provides insights into the development and deployment of alliances.

Concluding with the three alliance paradoxes managers must address to design and manage their alliances effectively and efficiently, this text offers a profound vision of the key decision-making rationales and processes inherently related to strategic alliances. As such, it will be required reading for students studying the subject and a valuable supplementary reading source to those studying strategic management more generally. A website run by the authors, can be found here: <http://www.strategic-alliance-management.com/>

Information Systems and Technology for Organizational Agility, Intelligence, and Resilience CABI

Energy usage and consumption continue to rise globally each year, with the most efficient and cost-effective energy sources causing huge impacts to the environment. In an effort to mitigate harmful effects to the environment, implementing clean energy resources and

utilizing green energy management strategies have become worldwide initiatives, with many countries from all regions quickly becoming leaders in renewable energy usage. Still, not every energy resource is without flaws. Researchers must develop effective and low-cost strategies for clean energy in order to find the balance between production and consumption. The Research Anthology on Clean Energy Management and Solutions provides in-depth research that explores strategies and techniques used in the energy production field to optimize energy efficiency in order to maintain clean and safe use while delivering ample energy coverage. The anthology also seeks solutions to energy that have not yet been optimized or are still produced in a way that is harmful to the environment. Covering topics such as hydrogen fuel cells, renewable energy, solar power, solar systems, cost savings, and climate protection, this text is essential for electrical engineers, nuclear engineers, environmentalists, managers, policymakers, government officials, professionals in the energy industry, researchers, academicians, and students looking for the latest research on clean energy management.
