American Literature for Non-American Readers Bloomsbury Publishing USA

This handbook offers students and researchers a compact introduction to the nineteenth-century American novel in the light of current debates, theoretical concepts, and critical methodologies. The volume turns to the nineteenth century as a formative era in American literary history, a time that saw both the rise of the novel as a genre, and the emergence of an independent, confident American culture. A broad range of concise essays by European and American scholars demonstrates how some of America's most well-known and influential novels responded to and participated in the radical transformations that characterized American culture between the early republic and the age of imperial expansion. Part I consists of 7 systematic essays on key historical and critical frameworks including debates about race and citizenship, transnationalism, environmentalism and print culture, as well as sentimentalism, romance and the gothic, realism and naturalism. Part II provides 22 essays on individual novels, each combining an introduction to relevant cultural contexts with a fresh close reading and the discussion of critical perspectives shaped by literary and cultural theory.

The Contemporary Spanish-American Novel Rowman & Littlefield

The number and popularity of novels that have overtly reconfigured aspects of classic American texts suggests a curious trend for both readers and writers, an impulse to retell and reread books that have come to define American culture. This book argues that by revising canonical American literature, contemporary American writers are (re)writing an American myth of origins, creating one that corresponds to the contemporary writer's understanding of self and society. Informed by cognitive psychology, evolutionary literary criticism, and poststructuralism, Entzminger reads texts by canonical authors Poe, Hawthorne, Melville, Alcott, Twain, Chopin, and Faulkner, and by the contemporary writers that respond to them. In highlighting the construction and cognitive function of narrative in their own and in their antecedent texts, contemporary writers highlight the fact that such use of narrative is universal and essential to human beings. This book suggests that by revising the classic texts that compose our cultural narrative, contemporary writers mirror the way human individuals consistently revisit and refigure the past through language, via self-narration, in order to manage and understand experience.

Literary Ambition and the African American Novel Taylor & Francis

The Contemporary Spanish-American Novel provides an accessible introduction to an important World literature. While many of the authors covered—Aira, Bolaño, Castellanos Moya, Vázquez—are gaining an increasing readership in English and are frequently taught, there is sparse criticism in English beyond book reviews. This book provides the guidance necessary for a more sophisticated and contextualized understanding of these authors and their works. Underestimated or unfamiliar Spanish American novels and novelists are introduced through conceptually rigorous essays. Sections on each writer include: *the author's reception in their native country, Spanish America, and Spain *biographical history *a critical examination of their work, including key themes and conceptual concerns *translation history *scholarly reception The Contemporary Spanish-American Novel offers an authoritative guide to a rich and varied novelistic tradition. It covers all demographic areas, including United States Latino authors, in exploring the diversity of this literature and its major themes, such as exile, migration, and gender representation.

American Lit Remixed University of Chicago Press

American Lit Remixed argues that literary texts use music to combat the artifice and alienation of the digital age. Works by well known authors and less familiar ones draw from mixtapes, remixes, vinyl records, and cassettes to reinvent identity and community, as well as literary form.

Reconceptualizing American Literary/cultural Studies University of Virginia Press

'This book offers both an original and substantial contribution to the field of literary criticism. By revealing the role of gender-marked language in major writers of realist fiction in America, Elsa Nettels does for literary studies what Deborah Tannen did for sociolinguistics.' --Susan J. Rosowski, University of Nebraska-Lincoln

A&C Black

Fifty-one essays by writers such as Langston Hughes, W.E.B. Du Bois, Ralph Ellison, and Zora Neale Hurston, as well as critics and academics such as Henry Louis Gates, Jr. examine the central texts and arguments in African American literary theory from the 1920s through the present. Contributions are organized chronologically beginning with the rise of a black aesthetic criticism, through the Black Arts Movement, feminism, structuralism and poststructuralism, queer theory, and cultural studies. Handbook of the American Novel of the Nineteenth Century Springer

Witnessing the end of a war that nearly terminated the nation, the abolition of racial slavery and rise of legal segregation, the rise of Modernism and Hollywood, the closing of the frontier and two World Wars, the literary historical period represented in this volume constitutes the crucible of American literary history. Here, 35 essays by top researchers in the field detail how considerations of race and

citizenship; immigration and assimilation; gender and sexuality; nationalism and empire; all reverberate throughout novels written in the United States between 1870 and 1940. Contributors discuss the professionalization of literary production after the Civil War alongside legal and political debates over segregation and citizenship; while chapters on journalism, geography, religion, and immigration offer discussions on everything from the lasting role of literary realism in American fiction to the Spanish-American War's effect on developing theories of aesthetics and popular culture. The volume offers thorough coverage of the emergence of serial fiction, children's fiction, crime and detective fiction, science fiction, and even cinema and comics, as new media and artistic revolutions like the Harlem Renaissance helped usher in the new international aesthetic movement of Modernism. The final chapters in the volume explore the relationship of the novel to the emergence of "American literature" as a category in the academy, in public criticism and journalism, and in mass culture.

The Presidents of American Fiction brings together American literature, history, and political science to explore the most influential fictionalized accounts of the presidency from the early 19th century to the time of Trump. Of late, popular understandings of the presidency are being radically re-written-consider, for example, the distinctive myths that accompanied the ascent of the Obama and Trump administrations-and many readers of all stripes are radically reimagining the office and its holder. Placing these changes within a broader cultural context, Michael J. Blouin investigates narratives involving fictional presidents, from the supposedly factual to the outright fantastical, within their distinct literary and historical moments. The author considers representative texts including works penned by James Fenimore Cooper from the Jacksonian moment, Gore Vidal in the age of Nixon and Vietnam, and Philip Roth in the neoliberal period. Through detailed readings that question how American presidents function as characters within the popular imagination, this book examines the presidency as a complex, ever-evolving trope, and in so doing enhances our appreciation of American literature's inextricable link with American politics.

A disturbing but ultimately discredited strain in American thought, eugenics was a crucial ideological force in the early twentieth century. Luczak investigates the work of writers like Jack London and Charlotte Perkins Gilman, to consider the impact of eugenic racial discourse on American literary production from 1900-1940.

The Emergence of American Literary Narrative, 1820-1860 Routledge

American Literature Before 1880 attempts to place its subject in the broadest possible international perspective. It begins with Homer looking westward, and ends with Henry James crossing the Atlantic eastwards. In between, the book examines the projection of images of the East onto an as-yet unrecognized West; the cultural consequences of Viking, Colombian, and then English migration to America; the growth and independence of the British American colonies; the key writers of the new Republic; and the development of the culture of the United States before and after the Civil War. It is intended both as an introduction for undergraduates to the richness and variety of American Literature, and as a contribution to the debate about its distinctive nature. The book therefore begins with a lengthy survey of earlier histories of American Literature.

A KEY TO AMERICAN LITERATURE Oxford University Press

Mediation is the term James Ruppert uses to describe his important new theory of reading Native American fiction. Focusing on novels of six major contemporary American writers - N. Scott Momaday, James Welch, Leslie Silko, Gerald Vizenor, D'Arcy McNickle, and Louise Erdrich - Ruppert analyzes the ways in which these writers draw upon their bicultural heritage, guiding Native and non-Native readers alike to a different and expanded understanding of each other's worlds. While Native American writers may criticize white society, revealing its past and present injustices, their emphasis, Ruppert argues, is on healing, survival, and continuance. Their fiction aims to produce cross-cultural understanding rather than

divisiveness. To that end they articulate the perspectives and values of competing world views. In particular they create characters who manifest what Ruppert calls "multiple identities" - determined by both Native and non-Native perceptions of the self. These writers use a variety of narrative techniques deriving from different cultural traditions. They might incorporate Native oral storytelling techniques, adapting them to written form, or they might reconstruct Native mythologies, investing them with new meaning and relevance by applying them to contemporary situations. As novel-writers, they also include features more characteristic of western European writing - such as the omniscient narrator or the detective-story plot.

What happens to American literary texts when they are read by non-American readers? The rise of cross-cultural reception studies has made this a significant question, and the present volume provides a rich set of answers. The essays also make clear cross-cultural readings are not to be regarded as less appropriate than American readings. They are simply readings driven by different pragmatic situations, involving readers with different expectations and first-hand knowledge of different realities. By exploring a variety of cultural reading experiences, this book lays a useful groundwork for teachers and scholars interested in the cross-cultural transmission of literary texts, especially American teachers abroad who wish to understand their students' responses.

This book offers insight into the ways students enrolled in European classrooms in higher education come to understand American experience through its literary fiction, which for decades has been a key component of English department offerings and American Studies curricula across the continent and in Great Britain and Ireland. The essays provide an understanding of how post-World War II American writers, some already elevated to canonical status and some not, are represented in European university classrooms and why they have been chosen for inclusion in coursework. The book will be of interest to scholars and teachers of American literature and American studies, and to students in American literature and American studies courses.
