[A Report on the Correspondent Banking System](#) Graham & Trotman, Limited We examine the impact of bank supervision on the financing obstacles faced by almost 5,000 corporations across 49 countries.

We find that firms in countries with strong official supervisory agencies that directly monitor banks tend to face greater financing obstacles. Moreover, powerful official supervision tends to increase firm reliance on special connections and corruption in raising external finance, which is consistent with political/regulatory capture theories. Creating a supervisory agency that is independent of the government and banks mitigates the adverse consequences of powerful supervision. Finally, we find that bank supervisory agencies that force accurate information disclosure by banks and enhance private monitoring tend to ease the financing obstacles faced by firms. This revision guide is intended to serve as a complement to the textbook. Its aim is essentially to provide past examination questions set by the Institute of Bankers and the examiners' own answers together with past questions set at the City of London Polytechnic and other questions, with their answers. This gives the reader a wider range of topics which reflects the

contents of the textbook, and permits of selectivity to meet need. It is suggested that as each textbook chapter is read, the relevant section in the Revision Guide should be attempted in order to test knowledge and understanding, thereby further enhancing the learning process. To facilitate this, the guide is set out section by section, to match the chapters in the textbook. Several sections are prefaced by introductions to bridge the gap between textbook and questions. In addition, questions are presented in succeeding order of

difficulty so that readers can move from the less to the more complex at their own speed. November 1985 L. Waxman vii Passing the Examination The Banking Diploma Stage 2 Examination Finance of International Trade. The Institute of Bankers Diploma examinations take place twice yearly, in April and September. Prospective candidates who wish to prepare themselves as thoroughly as possible and who are using the associated textbook to this revision guide will find the question and answers which it contains an indispensable

means of preparation for the examination paper "Finance of International Trade". Banking & Finance John Wiley & Sons

The Technical Interview Guide to Investment Banking, + Website Goodheart-Wilcox Publisher

This paper presents recent trends in bank ownership across countries and

summarizes the evidence regarding the implications of bank ownership structure for bank performance and competition, financial stability, and access to finance. The evidence reviewed suggests that foreign-owned banks are more efficient than domestic banks in developing countries, promote competition in host banking sectors, and help stabilize credit when host countries face idiosyncratic shocks. But there are tradeoffs, since foreign-owned banks can transmit external shocks and might not always expand access to credit. The record on the impact of

government bank ownership suggests few benefits, especially for developing countries.
