Fluid Mechanics Irwin Professional Pub

Winner of the Best Anthology Book Award from the John Whitmer Historical Association Winner of the Special Award for Scholarly Publishing from the Association for Mormon Letters Scholarly interest in Mormon theology, history, texts, and practices--what makes up the field now known as Mormon studies--has reached unprecedented levels, making it one of the fastest-growing subfields in religious studies. In this volume, Terry Givens and Philip Barlow, two leading scholars of Mormonism, have brought together 45 of the top experts in the field to construct a collection of essays that offers a comprehensive overview of scholarship on Mormons. The book begins with a section on Mormon history, perhaps the most well-developed area of Mormon studies. Chapters in this section deal with questions ranging from how Mormon history is studied in the university to the role women have played over time. Other sections

examine revelation and scripture, church structure and practice, theology, society, and culture. The final two sections look at Mormonism in a larger context. The authors examine Mormon expansion across the globe--focusing on Mormonism in Latin America, the Pacific, Europe, and Asia--in addition to the interaction between Mormonism and other social systems, such as law, politics, and other faiths. Bringing together an impressive body of scholarship, this volume reveals the vast range of disciplines and subjects where Mormonism continues to play a significant role in the academic conversation. The Oxford Handbook of Mormonism will be an invaluable resource for those within the field, as well as for people studying the broader, ever-changing American religious landscape.

In the Middle CreateSpace

The table was of hand-hewn spruce boards, and the men who played whist had frequent difficulties in drawing home their tricks across the uneven surface. Though they sat in their undershirts, the sweat noded and oozed on their faces; yet their feet, heavily moccasined and woollen-socked, tingled with the bite of the frost. Such was the difference of temperature in the small cabin between the floor level and a yard or more above it. The sheet-iron Yukon Stove roared red-hot, yet, eight feet away, on the meat-shelf, placed low and beside the door, lay chunks of solidly frozen moose and bacon. The door, a third of the way up from the bottom, was a thick rime. In the chinking between the logs at the back of the bunks the frost showed white and glistening. A window of oiled paper furnished light. The lower portion of the paper, on the inside, was coated an inch deep with the frozen moisture of the men's breath.

Here the author of Loving Relationships shares her special insights about the importance of spiritual nourishment of the self and one's relationships--the inner communion that can be achieved by opening up to the lessons of life and love.

Farewell to Manzanar Business Plus

This is the story of the men who, as political realists, fought for the cause of racial reform in America before, during, and after the Civil War. Charles Sumner, Thaddeus Stevens, Benjamin F. Wade, and Zachariah Chandler are the central figures in Mr. Trefousse's study of the Radical Republicans who steered a course between the extreme abolitionists on the one hand and the more cautious gradualists on the other, as they strove to break the slaveholder's domination of the federal government and then to wrest from the postbellum South an acknowledgment of the civil rights of the Negro. The author delineates their key role in founding the Republican party and follows their struggle to keep the party firm in its opposition to the expansion of slavery, to commit it to emancipation, and finally to make it the party of racial justice. This is the story as well of the tangled relationship of the Radical Republicans with Abraham Lincoln—a relationship of both quarrels and mutual support. The author stresses the similarity between Lincoln's ultimate aims and those of the Radical Republicans, demonstrating that without Lincoln's support Sumner and his colleagues could never have accomplished their ends—and that without their help Lincoln might not have succeeded in crushing the rebellion and putting an end to the slavery. And he argues that by 1865 Lincoln's Reconstruction policies were nearing those of the Radicals and that, had he lived, they would not have broken with him as they did with his successor. Lincoln's assassination left the Radicals with no means to translate their demands into effective action. Their efforts to remake the South in such a way as to secure justice for the Negro brought them into conflict with President Johnson, in whose impeachment they played a leading role. Although they succeeded in initiating congressional Reconstruction and adding the fourteenth and fifteenth amendments to the Constitution, the Radicals lost power after the failure of the Johnson impeachment. Mr.

Trefousse shows how, despite their declining influence throughout the 1870s, their accomplishments helped make possible—a century later—the resumption of the struggle for civil rights.

Enchantress from the Stars Oxford University Press

The authors' new approach to learning two playing techniques offers a systematic method for mastering the modern, legato technique needed for organ music composed after 1750, as well as an articulated technique for earlier works. The authors also present useful information on accompanying anthems and solos and on adapting piano and orchestral accompaniments to the organ.

The American Organist Celestial Arts

The Commander-in-Chief of the Burmese Army, nicknamed the "four-foot Colonel," offers an account of his nation's struggle for independence from a unique perspective. General Dun describes his background, his early life and training (in England and India), and his involvement with the Burmese nationalist movement. He also explains his position in the struggles between the emerging Burmese nation and various minority groups such as the Karens, of which he was a member. This third-person account is filled with humor and insight and allows the reader a rare glimpse into the mind of a powerful personality.
