Since 1984, Chinese cinema has been the most dramatic entry onto the international film scene. China into Film is the first book to look at contemporary Chinese cinema as a visual art and to illustrate the ways in which it has been shaped by centuries of Chinese tradition. Jerome Silbergeld looks at the significance of gender roles, the strategies of film-makers in coping with state censorship, the translation of novels into films, the continuing attachment of film-makers to melodrama, and cinematic critiques of Maoism and post-Maoist culture.

Abundantly illustrated with Chinese paintings as well as scenes from such internationally acclaimed films as Yellow Earth, Red Sorghum, Raise the Red Lantern and Farewell My Concubine, China into Film reveals a

cinematic form at once excitingly new and deeply imbedded in traditional Chinese visual culture.

This historically based fictional novel tells on a pair of working cowmen and their exploits in the

American old west. This story chronicles a veteran cowhand, Patrick O'Connor, (Ornery) and his tenderfoot saddle partner, Francis Slimmery, (Slim), and how they made their way west to come into the steady employment of the ranch known as the, "O U T (Oh-Ewe-Tee) Spread". Further told is how the two main characters come to deal with life, contending; with their critters (cows), the elements of nature, the lay of the land, outlaws, wildlife, their friends, calico-friends, and each other, all the while toiling to tame their corner of the prairie west. Conveyed are the simple, but oft' humorous and life like escapades of these two laboring cow-saddlers, as they commence to ply their cow craft for the "brand". The setting for these accounts is far less fictional, and transpires on the very real North American frontier, circa 1880's. Told about as well is the time-honored cowboy code, one pervasive to the people of this era and played out by the two central figures. These tales dabble in the daily deeds, trials, and tribulations of nearly every aspect of a cowman's existence during that period. The anecdotal activities are set to expose the full range of endeavors, from the slow and arduous boredom of ranch chores, to the split second moments of hair-raising and life-threatening perils oft' encountered along the trails. The chapters in this story are intended to rekindle the feeling of an old west evening around the campfire, filled with tales of cowboy adventures, escapades packed with; love and luck, kinship and hardship, calamity and triumph, wisdom and self-exploration, all via the exploits of these two saddleback heroes and their friends. All this, and shared in the old-fashioned American story-telling tradition.

"Graham's ideas inspired the investment community for nearly a century."--Smart Money "Graham's method of investing is as relevant today as it was when he first espoused it during the Roaring Twenties."--Investor's Business Daily Benjamin Graham's revolutionary theories have influenced and inspired investors for nearly 70 years. First published in 1934, his *Security Analysis* is still considered to be the value investing bible for investors of every ilk. Yet, it is the second edition of that book, published in 1940 and long since out of print, that many experts--including Graham protégé Warren Buffet--consider to be the definitive edition. This facsimile reproduction of that seminal work makes available to investors, once again, the original thinking of "this century's (and perhaps history's) most important thinker on applied portfolio investment."

*Art Blakey and the Jazz Messengers* was one of the most enduring, popular, reliable and vital small bands in modern jazz history. Blakey was not only a distinguished, inventive and powerful drummer, but along with Duke Ellington and Miles Davis, he was one of jazz's foremost talent scouts. The musicians who flowed seamlessly in and out of this constantly evolving collective during its 36-year run were among the most important artists not just of their eras, but of any era. Though their respective innovations were vital to the evolution of bebop, hard bop and neo bop, the recorded work of the Messengers sidemen has never been properly analyzed. Until now. *Hard Bop Academy: The Sidemen of Art Blakey's Jazz Messengers* critically examines the multitude of gifted artists who populated the many editions of the Jazz Messengers. In addition to dissecting the sidemen's most consequential work with Blakey's band, jazz musician and acclaimed novelist Alan Goldsher offers up engaging profiles of everyone from Wynton Marsalis to Terence Blanchard to Hank Mobley to Wayne Shorter to Horace

Zainab Salbi was eleven years old when her father was chosen to be Saddam Hussein's personal pilot and her family's life was grafted onto his. Her mother, the beautiful Alia, taught her daughter the skills she needed to survive. A plastic smile. Saying yes. Burying in boxes in her mind the horrors she glimpsed around her. "Learn to erase your memories," she instructed. "He can read eyes." In this richly visual memoir, Salbi describes tyranny as she saw it - through the eyes of a privileged child, a rebellious teenager, a violated wife, and ultimately a public figure fighting to overcome the skill that once kept her alive: silence.
