### USMLE Success McGraw Hill Professional

Teaching Anatomy: A Practical Guide is the first book designed to provide highly practical advice to both novice and experienced gross anatomy teachers. The volume provides a theoretical foundation of adult learning and basic anatomy education and includes chapters focusing on specific issues that teachers commonly encounter in the diverse and challenging scenarios in which they teach. The book is designed to allow teachers to adopt a student-centered approach and to be able to give their students an effective and efficient overall learning experience. Teachers of gross anatomy and other basic sciences in

undergraduate healthcare programs will find in this unique volume invaluable information presented in a problem-oriented, succinct, and user-friendly format. Developed by renowned, expert authors, the chapters are written concisely and in simple language, and a wealth of text boxes are provided to bring out key points, to stimulate reflection on the reader's own situation, and to provide additional practical tips. Educational theories are selectively included to explain the theoretical foundation underlying practical suggestions, so that teachers can appropriately modify the strategies described in the book to fit their own educational environments. Comprehensive and a significant contribution to the literature, Teaching Anatomy: A Practical Guide is an indispensable resource for all instructors in gross anatomy.

**High Yield USMLE Step 1, Step 2, Step 3 Book** John Wiley &

Sons  
The Gunner Goggles Series is the first exam prep resource written by a high-scoring peer group of medical students, ensuring the most practical and efficient study guidance. It organizes topics around the USMLE and NBME content outlines for the required shelf exams and features state-of-the-art Augmented Reality (AR) mobile application to extend learning beyond the book. This innovative series features AR opportunities throughout the text for an integrated print-mobile experience that maximizes learning and test preparation. The Gunner Goggle function allows you to scan pages for integrated AR links, unlocking animations, visuals, and 3D models that clarify complex anatomy, conditions, and concepts in a remarkably effective and unique manner. Gunner Goggles Series: Psychiatry is one of seven authoritative exam preparation guides that use cutting-edge AR technology to fully prepare you for the NBME clinical shelf exams, the USMLE Step 2 Clinical Knowledge (CK) exam, and successful clinical rotations. Topics are organized around the USMLE and NBME content outlines for specific shelf exams, and information is presented in a highly templated, concise manner. The Augmented Reality application allows you to efficiently study and learn using an integrated print-mobile approach. In addition to unlocking animations and other visuals, AR app access also includes additional content, links to provide feedback to the authors, community pages, and more. All test topics are covered in just enough detail to help you hone in on key points you must know for exam success. Unique! Every disease is described by its stem clues (buzzwords that appear in question stems) and prophylactic measures (PPx), mechanism (MoD), diagnostic tests (Dx) and treatment/management principles (Tx/Mgmt) – the four "Physician Tasks" that the NBME requires students to know about each disease. You'll also get real-world tips for your clinical rotations from your peers – information that won't show up on the shelf exam but is ideal for maximum impact when on rounds (knowing the prognosis for a specific disease, for example). Plus ... effective study techniques, sample study schedules, tips and tricks to better retain information learned from review questions, and methods to self-generate mnemonics. Edited, written, and crowdsourced by high-performing medical students and residents and reviewed by experts in the field to ensure accuracy, relevancy, and accessibility. Titles in the Gunner Goggles series: Family Medicine • Print ISBN: 978-0-323-51034-9 • e-Book ISBN: 978-0-323-52756-9 Medicine • Print ISBN: 978-0-323-51035-6 • e-Book ISBN: 978-0-323-52758-3 Neurology • Print ISBN: 978-0-323-51036-3 • e-Book ISBN: 978-0-323-52760-6 Ob-Gyn • Print ISBN: 978-0-323-51037-0 • e-Book ISBN: 978-0-323-52768-2 Pediatrics • Print ISBN: 978-0-323-51038-7 • e-Book ISBN: 978-0-323-52763-7 Psychiatry • Print ISBN: 978-0-323-51039-4 e-Book ISBN: 978-0-323-52765-1 Surgery • Print ISBN: 978-0-323-51040-0 • e-Book ISBN: 978-0-323-52767-5
