Just finished taking NBME 15...I'll agree with everyone else as well and say that there were way more UWorld style questions. A lot more vague symptoms too (way less "buzzwords") and more questions (I thought) where I was wavering between a couple answers. A lot more questions than the other NBME that I just straight up guessed on.

NBME Answers and Explanations! gdupgrant So the thing i think they tried to catch people on was that the SMV Joins with the splenic to become the portal vein and the IMV feeds into the splenic vein. And they want you to know that cecum is midgut, so drained by the SMV. so my approach was automatically eliminate any answer that included IMV or Splenic vein and that left me with only Ileocolic ...

I think with these NBME problems though, if you can get the answer within one "step" that should be your choice. Here you can just go Squamous Cell Carcinoma with a direct action on serum calcium levels (via PTHrP). Thyroid requires a few more steps, (assuming your statement is true) so in the eyes of NBME, it ain't gonna be the right choice.

Still, based on the functional and structural biology, I don't see it as a "protein processor" either, much like a similar question from another NBME test that reworded the best answer to "protein processing" to describe the end result of pol gene translation (e.g., ligases, integrases, etc). That was a tricky little bastard.
