The author, 83 and a widower, drives from a northern suburb of Philadelphia, Pa. to take his oldest daughter Jane to a lunch for Mother's Day 2010. Her two grown children live in other states. Jane, 61, is a recent grandmother. The author is a recent great-grandfather. A former teacher of high school English, the author retired in 1991 and for about 10 years traveled extensively throughout Europe but now tutors 8 adults, 6 Korean women and 2 African-Americans, for the Abington Library adult literacy program. Each of his 8 students gets an individual one-hour session one day a week. The tutors are not compensated for their gas or their time spent helping students. During the Mother's Day lunch, father and daughter talk about the upcoming primary election for U.S. Senator and the movies of Clint Eastwood. The next week the author gets a call from his twin sister, who lives in Portland, Oregon, postponing a planned visit to the east because of a fall. During a tutoring session at the Library, the author finds an unclaimed paperback edition of "The Girl with the Dragon Tattoo." He decides to keep it to read. When not tutoring, the author enjoys listening to music, watching movies. His 3 daughters, Jane, Kate, and Tess, are divorced, live in the Philadelphia area. Each has 2 grown children. The author's son, his youngest, lives in Austin, Texas with a wife and 3 daughters, 12, 10, and 7.

The author's 4 children are interested in all Philadelphia sports teams and call him occasionally about wins and losses. These calls are a source of much pleasure.

A bold, expert, and actionable map for the re-invention of America's broken mental health care system. "Healing is truly one of the best books ever written about mental illness, and I think I've read them all." —Pete Earley, author of *Crazy As* director of the National Institute of Mental Health, Dr. Thomas Insel was giving a presentation when the father of a boy with schizophrenia yelled from the back of the room, "Our house is on fire and you're telling me about the chemistry of the paint! What are you doing to put out the fire?" Dr. Insel knew in his heart that the answer was not nearly enough. The gargantuan American mental health industry was not healing millions who were desperately in need. He left his position atop the mental health research world to investigate all that

was broken—and what a better path to mental health might look like. In the United States, we have treatments that work, but our system fails at every stage to deliver care well. Even before COVID, mental illness was claiming a life every eleven minutes by suicide. Quality of care varies widely, and much of the field lacks accountability. We focus on drug therapies for symptom reduction rather than on plans for long-term recovery. Care is often unaffordable and unavailable, particularly for those who need it most and are homeless or incarcerated. Where was the justice for the millions of Americans suffering from mental illness? Who was helping their families? But Dr. Insel also found that we do have approaches that work, both in the U.S. and globally. Mental illnesses are medical problems, but he discovers that the cures for the crisis are not just medical, but social. This path to healing, built upon what he calls the three Ps (people, place, and purpose), is more straightforward than we might imagine. Dr. Insel offers a comprehensive plan for our failing system and for families trying to discern the way forward. The fruit of a lifetime of expertise and a global quest for answers, *Healing* is a hopeful, actionable account and achievable vision for us all in this time of mental health crisis.

In this authoritative and empowering book, one of the

world's leading experts on early child development gives caregivers of children on the autistic spectrum the knowledge they need to navigate the complex maze of symptoms, diagnoses, tests, and treatment options that await them. For more than thirty years, James Coplan, M.D., has been helping families cope with the challenges posed by autistic spectrum disorders (ASD). Each family that walks into his office, he knows, is about to begin a journey. With this book, he lays out the steps of that journey. Dr. Coplan brings you into the treatment rooms and along for the tests and evaluations, and provides the kind of practical hands-on guidance that will help you help your child with ASD through every phase of life. At a time when ASD has become the subject of wild theories and uninformed speculation, Dr. Coplan grounds his recommendations in reality. He helps you understand for yourself where your child may be on the spectrum that includes autism, Asperger Syndrome, and Pervasive Developmental Disorder-Not Otherwise Specified. His clear, comprehensive, and compassionate advice prepares you to make informed medical decisions, evaluate the various educational and therapeutic alternatives, and find answers to such fundamental questions as

- How do I optimize my child's long-term potential?
- Which interventions will best serve my child?
- How do the various therapies work, and what is the evidence to support them?
- What is the best way to teach my child?

This book empowers you to be an expert advocate for your child, so that you'll know when to say no to an ill-advised therapy or medication and can make with confidence the hundreds of important decisions you will face in the years ahead. For every parent who has made the painful transition from "Why did this happen?" to "What can we do to help our child?", here is the indispensable guidebook you've been waiting for.

Hawthorn wasn't trying to insert herself into a missing person's investigation. Or maybe she was. But that's only because Lizzie Lovett's disappearance is the one fascinating mystery their sleepy town has ever had. Bad things don't happen to popular girls like Lizzie Lovett, and Hawthorn is convinced she'll turn up at any moment-which means the time for speculation is now. So Hawthorn comes up with her own theory for Lizzie's disappearance. A theory way too absurd to take seriously...at first. The more Hawthorn talks, the more she believes. And what better way to collect evidence than to immerse herself in Lizzie's life? Like getting a job at the diner where Lizzie worked and hanging out with Lizzie's boyfriend. After all, it's not as if he killed her-or did he? Told with a unique voice that is both hilarious and heart-wrenching, Hawthorn's quest for proof may uncover the greatest truth is within herself.
