Mahala's biography gives insight into the life and writing of Can Themba (1924-1967), an iconic figure of the South African literary world and Drum journalist who died in exile Can Themba: The Intellectual Tsotsi, a Biography brings to life the iconic South African writer and journalist, Can Themba, (21 June 1924 - 8 September 1967) who died while exiled in Swaziland in 1967. Best known for his classic short story, 'The Suit', Themba has been somewhat of an enigma, with very little known about his personal life. This biography brings forth the voices of those who had personal interactions with him, shining the light on different aspects of his life including education, literature, journalism and political fraternities. It features interviews with prominent individuals including his former students, Abdul Bham, Pitika Ntuli, and Mbulelo Mzamane; journalistic mentees Juby Mayet and Joe Thloloe; as well as friends, colleagues and contemporaries Parks Mangena, Peter Magubane, Jurgen Schadeberg, Don Mattera, and Nadine Gordimer; in addition to artists and academics Mthobi Mutloatse, Muxe Nkondo and Njabulo S. Ndebele. Also featured in this biographical text are veteran political figures such as Mangosuthu Buthelezi, Lindiwe Mabuzo and Ahmed Kathrada. Themba's intellectual acumen, scholarly aptitude and witicism are some of his most revered characteristics amongst those who had interactions with him either in person or through comprehensive reading of his works. Mahala is a master storyteller and deftly weaves together the threads of Themba's dynamic life. In this edifying biography Mahala recreates the sparkle and pathos of Sophiatown of the 1950s and the Drum era. Can Themba's successes and failures, as well as his triumphs and tribulations reverberate on the pages of this long-awaited biography.

The Trump neo-liberal and global warming era has intensified migration, highlighting the diasporic space and global structures as the context of theological inquiry. It is signified by the rise of overt sexism, racism, classism, anthropocentrism, Islamophobia and intensified conservatism that determine who crosses the boundaries, the terms of their crossing and the hospitality they receive. President Trump's shocking statement that characterized some Two-Thirds World countries as S.H.I.T. Holes as well as his travel ban policies that targeted countries of particular religious faith, attest to overt racism. In this volume, African theological scholars challenge euro-centric racist-global immigration policies and propose the paradigm of breaking the master's S.H.I.T. Holes. [Die Kloschüsseln der Herrschenden zerbrechen. Theologie treiben im Kontext globaler Migration] Die Trump-Ära hat im Zeichen von Neo-Liberalismus und Klimawandel eine Migrationswelle ausgelöst und die globalen Machtstrukturen sowie die Diaspora zum Kontext theologischer Forschung werden lassen. Sie ist gekennzeichnet durch offenen Sexismus, Rassismus, Klassismus, Anthropozentrismus, Islamophobia und intensiviertem Konservatismus, der bestimmt, wer die Grenzen überschreiten darf, die Bedingungen ihrer Überschreitung und die Gastfreundschaft die sie erfahren. Präsident Trumps schockierende Charakterisierung einiger Zwei-Drittel-Welt Länder als "Kloschüsseln" wie auch sein Einreiseverbot, das auf Länder mit einer bestimmten religiösen Orientierung zielt, zeugen von unverhohlenem Rassismus. In diesem Band stellen afrikanische Theologen und Theologinnen eine euro-zentrische, global-rassistische Immigrationspolitik im Rahmen ihres neuen Paradigmas "Zerbrechen der Kloschüsseln der Herrschenden" in Frage.

The Men Who Killed Gandhi by Manohar Malgonkar takes readers back into the pages of Indian history during the time of the partition, featuring the murder plot and assassination of Mahatma Gandhi. The Men Who Killed Gandhi is a spellbinding non fictional recreation of the events which led to India ' s partition, the eventual assassination of Gandhi, and the prosecution of those who were involved in Gandhi ' s murder. This historical reenactment is set against the tumultuous backdrop of the British Raj. Malgonkar ' s book is a result of painstaking research and from also having privileged access to many important documents and photographs related to the assassination. There is no doubt that Mahatma Gandhi played a leading role in obtaining independence from the British. But the problems that ensued afterwards, such as the structural rebuilding of the country and the Partition, led to many riots, massive migrations, and deep racial and cultural divides. Not everyone agreed with Gandhi and his ideals. As a result, a plot to assassinate Gandhi was devised by six individuals named, Narayan Apte, Gopal Godse, Madanlal Pahwa, Digambar Badge, and Nathuram Godse. This was eventually carried out in New Delhi, on the 30th of January, 1948. Eventually, these six individuals were tried and convicted. Four of them received life sentences while two of them received the death penalty. The first publication of The Men Who Killed Gandhi occurred in 1978, during the Emergency years. As a result, Malgonkar omitted many vital facts including Dr. Ambedkar ' s role in minimizing Savarkar ' s criminal conviction. This 11th edition of the text contains these omitted facts as well as rare documents, and photographs obtained from National Archives. After the four individuals who were convicted for Gandhi ' s murder completed their life sentences, they were interviewed by Malgonkar. These individuals revealed many details to him which were never known before. The author also received access to the Kapur Commission from his friend Mr. Nayar, who was in the Indian Police Service. As a result, The Men Who Killed Gandhi is considered the most historically accurate account of Gandhi ' s assassination plot.

Author Jamie Dube had his first paranormal experience at the age of thirteen. From that point on, his life has been a journey of investigation into the spirit world. Along the way, he learned many secrets about not only spirits but also the living. In Where Do You Walk? Dube shares narratives and insights from his lifelong connection and work with the paranormala gift given to him by the great white light of Christ. Through this knowledge, you can change your life forever by creating a living reality using perception and positive energy frequencies. With the help of knowledge of an angelic message received during a near-death experience, you can open your eyes to a sense of wonder that most people lose with their childhood. You can educate yourself, take control of your spirit light, and block the negative energies of the spirit world; these real-life tales of navigating the spiritual divide can help. Including true stories of the paranormal and the insight gained from those experiences, this guide explores ways to change your life through positive energy from the spirit world.

In August 2008, Heads of State of the Southern African Development Community adopted the ground-breaking SADC Protocol on Gender and

Development. This followed a concerted campaign by NGOs under the umbrella of the Southern Africa Gender Protocol Alliance. By the 2013 Heads of State summit, 13 countries had signed and 12 countries had ratified the SADC Gender Protocol. The Protocol is now in force. With one year to go, time is ticking to 2015, when governments need to have achieved 28 targets for the attainment of gender equality. In keeping with the Alliance slogan: Yes we must! this 2014 Barometer provides a wealth of updated data against which progress will be measure by all those who cherish democracy in the region. The world, and SADC, is also looking to the future with the post 2015 agenda. Now is the time to strengthen resolve, reconsider, reposition, and re-strategise for 2030.

This book develops a conceptual understanding of Artificial Intelligence (AI), Deep Learning and Machine Learning in the truest sense of the word. It is an earnest endeavor to unravel what is happening at the algorithmic level, to grasp how applications are being built and to show the long adventurous road in the future. An Intuitive Exploration of Artificial Intelligence offers insightful details on how AI works and solves problems in computer vision, natural language understanding, speech understanding, reinforcement learning and synthesis of new content. From the classic problem of recognizing cats and dogs, to building autonomous vehicles, to translating text into another language, to automatically converting speech into text and back to speech, to generating neural art, to playing games, and the author's own experience in building solutions in industry, this book is about explaining how exactly the myriad applications of AI flow out of its immense potential. The book is intended to serve as a textbook for graduate and senior-level undergraduate courses in AI. Moreover, since the book provides a strong geometrical intuition about advanced mathematical foundations of AI, practitioners and researchers will equally benefit from the book.

A rallying manifesto for the innovative problem-solving we need to build a better, more verdant, and sustainable planetary existence. Academics are letting Africa down. With all that we know, what do we have to show for it? Whose lives have been changed for the better by it? What have we done for and with our communities lately? In this provocative book—the first in a trilogy—Clapperton Chakanetsa Mavhunga argues that our critical thinkers must become actual thinker-doers. Taking its title from one of Thomas Sankara’s most inspirational speeches, Dare to Invent the Future looks for moments in Africa’s story where precedents of critical thought and knowledge in service of problem-solving are evident to inspire readers to dare to invent such a knowledge system. Mavhunga revisits insights from Edward Wilmot Blyden, Booker T. Washington, Aimé Césaire, Frantz Fanon, Amílcar Cabral, Julius Nyerere, and Thomas Sankara to illustrate how the academic disciplines have been, and could be, deployed in the service of and through problem-solving, building on what people are doing and know. At its core, he writes, knowledge in the service of and through problem-solving derives from reading the past for new questions, doing due diligence in the present, and contriving an anticipatory approach toward the future. Questioning the fundamental premises of Western and white knowledge production, especially regarding science and technology, Mavhunga proposes in this book refreshingly new

approaches to thinking-doing that stem from African realities, in the hopes of inspiring a generation that will run toward, not away from, problems to solve them.

'Modisane's book, read today by all South Africans, will expose our raw pasts, private and public in their nature, which are still present in many forms as unacknowledged antecedents ... Engrossed and fascinated, I turned the pages of *Blame Me on History* as fast as I could.' – Njabulo S Ndebele

Feeling an exile in the country of his birth, the talented journalist and leading black intellectual Bloke Modisane left South Africa in 1959. It was shortly after the apartheid government had bulldozed Sophiatown, the township of his childhood. His biting indictment of apartheid, *Blame Me on History*, was published in 1963 – and banned shortly afterwards. Modisane offers a harrowing account of the degradation and oppression faced daily by black South Africans. His penetrating observations and insightful commentary paint a vivid picture of what it meant to be black in apartheid South Africa. At the same time, his evocative writing transports the reader back to a time when Sophiatown still teemed with life. This 60th-anniversary edition of Modisane's autobiography serves as an example of passionate resistance to the scourge of racial discrimination in our country, and is a reminder not to forget our recent past.

Derived Relational Responding offers a series of revolutionary intervention programs for applied work in human language and cognition targeted at students with autism and other developmental disabilities. It presents a program drawn from derived stimulus relations that you can use to help students of all ages acquire foundational and advanced verbal, social, and cognitive skills. The first part of Derived Relational Responding provides step-by-step instructions for helping students learn relationally, acquire rudimentary verbal operants, and develop other basic language skills. In the second section of this book, you'll find ways to enhance students' receptive and expressive repertoires by developing their ability to read, spell, construct sentences, and use grammar. Finally, you'll find out how to teach students to apply the skills they've learned to higher order cognitive and social functions, including perspective-taking, empathy, mathematical reasoning, intelligence, and creativity. This applied behavior analytic training approach will help students make many substantial and lasting gains in language and cognition not possible with traditional interventions.

"She was killing herself slowly, and this obsession with the war had to stop." How can one man cope when his true love is a woman of great destiny? "The people are her purpose and she is my purpose." The Wind of Change follows the intersecting fates of Francois and Zola as they struggle with the injustices of life and inconsistencies of love in a world where children are dying. Within the Frenchman's narrative and declarations of love lies the tragic tale of the children of war-torn Africa and the personal cost of civil war and armed conflict, of torture, murder, resistance, and forgiveness. Set in the days of Nelson Mandela's release from incarceration, it brings to life the Pan-African ideals of the 60s through the journey of a young woman who would be queen to unite and bring peace to all of Africa. If you imagine a future can you make it real? Can you make a difference? If you give from your heart, can you make the wind change? Watch out for Volume 2 of The Wind of Change: "What Happened in Africa"
