Most avid sky gazers wait until nightfall to catch a glimpse of the stars that are scattered across the heavens. The fact of the matter is that one needs only to feel the Sun's rays in order to experience the presence of a star. The Sun is an ordinary star, a ball of hot gas much like millions of others in the universe, but as the center of the solar system, it is critical to the survival of all life forms on Earth. This comprehensive volume examines the nature of the Sun and details the properties and types of various stars, as well as the greater galaxies of which they are a part.

Examine microeconomic theory as a way of looking at the world as MICROECONOMICS: AN INTUITIVE APPROACH WITH CALCULUS, 2E builds on the basic economic foundation of individual behavior. Each chapter contains two sections. The A sections introduce concepts using intuition, conversational writing, everyday examples, and graphs with a focus on mathematical counterparts. The B sections then cover the same concepts with precise, accessible mathematical analyses that assume one semester of single-variable calculus. The book offers flexible topical coverage with four distinct paths: a non-game theory path through microeconomics, a path emphasizing game theory, a path emphasizing policy issues, or a path focused on business. Readers can use B sections to explore topics in greater depth. MANAGEMENT, 12E includes several innovative pedagogical features to help students understand their management capabilities and learn what it's like to manage in an organization today. Each of the 19 chapters begins with an opening questionnaire that engages the reader's interest, directly connects to the topic of the chapter, and enables students to see how they respond to situations and challenges that real-life managers typically face. A New Manager Self-Test in each chapter provides students with further insight into how they would function in the real world of management. The Remember This bullet-point summaries at the end of each major chapter section give students a snapshot of the key points and concepts covered in that section. The end-of-chapter questions have been carefully revised to encourage critical thinking and application of chapter concepts, and Small Group Breakout exercises give students the opportunity to apply concepts while building teamwork skills. Ethical dilemmas, all-new end-of-chapter cases, and a fully updated set of On the Job video cases help students sharpen their diagnostic skills for management problem solving. The chapter sequence in MANAGEMENT is organized around the management functions of planning, organizing, leading, and controlling. These four functions effectively encompass management research and the characteristics of the manager's job.
