Trauma patients present a unique challenge to anesthesiologists, since they require resource-intensive care, often complicated by pre-existing medical conditions. This fully revised new edition focuses on a broad spectrum of traumatic injuries and the procedures anesthesiologists perform to care for trauma patients perioperatively, surgically, and post-operatively. Special emphasis is given to assessment and treatment of co-existing disease, including surgical management of

trauma patients with head, spine, orthopaedic, cardiac, and burn injuries. Topics such as training for trauma (including use of simulation) and hypothermia in trauma are also covered. Six brand new chapters address pre-hospital and ED trauma management, imaging in trauma, surgical issues in head trauma and in abdominal trauma, anesthesia for oral and maxillofacial trauma, and prevention of injuries. The text is enhanced with numerous tables and 300 illustrations showcasing techniques of airway management, shock resuscitation, echocardiography and use of ultrasound for the performance of regional anesthesia in trauma.

Big Ideas of Early Mathematics Cengage Learning "This splendid work of scholarship . . . sums up with economy and power all that the written record so far deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria."—Edward B. Garside, New York Times Book Review Ancient Mesopotamia—the area now called Iraq—has received less attention than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. "To any serious student of Mesopotamian civilization, this is one of the most valuable books ever written."—Leonard Cottrell, Book Week "Leo Oppenheim has made a bold, brave, pioneering attempt to present a synthesis of the vast mass of philological and archaeological data that have accumulated over the past hundred years in the field of Assyriological research."—Samuel Noah Kramer, Archaeology A. Leo Oppenheim, one of the most distinguished Assyriologists of our time, was editor in charge of the Assyrian Dictionary of the Oriental Institute and John A. Wilson Professor of Oriental Studies at the University of Chicago.

Supporting the Success of Adult and Online Students, the fifth book in the Proven Practices in Higher Education series by City University of Seattle, presents twenty-seven chapters on supporting and retaining adult students. Each chapter, written by different authors and teams of authors, presents another perspective on how to motivate and encourage adult learners. The first third of the book focuses on how to teach adult students. They include information on the importance of creating a social support network, establishing a solid instructor presence in online classrooms, and matching students with dedicated mentors. Educators will learn how to identify the "dark triad" of disruptive personalities in a classroom setting. The second third of the book includes innovative ways of motivating adult learners. These include using new forms of media to engage students and creating professional learning communities to provide them support. The last third of the book presents strategies for advising students, especially those that may be returning from a long break in their education. Chapters include information about retaining doctoral students and helping returning undergraduates. These strategies and others will be immensely helpful to educators looking for a new angle in reaching and

engaging with their students.

Moral injury, often called an invisible wound of war, affects the spirit and soul of a person. It is like a bullet wound that will continue to bleed, ultimately affecting the entire body, until, in the worst of cases, death results. As with any wound, a basic understanding of how to treat it is necessary. Consider this publication a course in learning about and the treatment of a moral wound.

Jayce Kennedy Price became our son in one bewildering, brilliant afternoon. I took a transgender teenager out to lunch to offer him friendship and mentoring, and by the time we cleared the dishes away he'd become my son and I'd become his mom. This is the story of the time since that day. It has been a time of transitions large and small as Jayce went through hormone treatment, surgery, and college, while my other kids made transitions of their own.
