The Making of Oliver Cromwell Orchard Books

Essentials of Elementary Social Studies is a teacher friendly text that provides comprehensive treatment of classroom planning, instruction, and strategies. Praised for its dynamic approaches and a writing style that is conversational, personal, and professional, this text enables and encourages teachers to effectively teach elementary social studies using creative and active learning strategies. New to this Edition This fourth edition has been significantly refined with new and relevant topics and strategies needed for effectively teaching elementary social studies. • Keeping with the book's emphasis on planning and teaching, a full, new chapter on lesson plans has been added. This chapter is designed to provide elementary teachers with 14 classroom tested lessons for each grade level (K-6). • A new chapter on technology is designed to better prepare elementary teachers to effectively teach social studies with technology. Attention is given to digital history, media literacy, teaching with film and music, and numerous other types of impactful technology. • Each chapter now includes a "Resources" section. The resources section provides various resources for further development. The section includes articles, books, and web resources. • Each chapter now includes "Extension" and "Focus" activities. These activities provide readers with the opportunity to extend the learning experience with relevant and meaningful scenarios. Instructors can also use the extension and focus activities as class activities. • Brand new companion website expands on chapter content and provides resources for further study (www.routledge.com/cw/Turner).

Mutiny on the Amistad Penguin

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Texas Contemporary World Studies Abrams

The Autobiography of Malcolm X was intended to be a true autobiography, with the name of Alex Haley appearing not at all or as a ghost writer or as a mere contributor or assistant. However, with the assassination of Malcolm X having occurred in Harlem in New York City on February 21, 1965 just before this book could be published, it became necessary to reveal the important role of Alex Haley in creating this book.

By the time teens are in high school, they have already spent years wrestling with a heavy backpack. It's high time to solve this problem--and Pearson can help. Explore Pearson@home social studies products for home use.

Out of the Shadow McDougal Littell/Houghton Mifflin

This volume presents the first full-scale treatment of the only instance in history where African blacks, seized by slave dealers, won their freedom and returned home. Jones describes how, in 1839, Joseph Cinqu  led a revolt on the Spanish slave ship, the Amistad, in the Caribbean. The seizure of the ship by an American naval vessel near Montauk, Long Island, the arrest of the Africans in Connecticut, and the Spanish protest against the violation of their property rights created an international controversy. The Amistad affair united Lewis Tappan and other abolitionists who put the "law of nature" on trial in the United States by their refusal to accept a legal system that claimed to dispense justice while permitting artificial distinctions based on race or color. The mutiny resulted in a trial before the U.S. Supreme Court that pitted former President John Quincy Adams against the federal government. Jones vividly recaptures this compelling drama--the most famous slavery case before Dred Scott--that climaxed in the court's ruling to free the captives and allow them to return to Africa.

Teaching the Critical Vocabulary of the Common Core University of Virginia Press

The plans for a large slave rebellion in the Richmond area in 1800, orchestrated by a literate enslaved blacksmith named Gabriel, leaked out before they could be executed, and he and twenty-five other enslaved people were hanged. In reaction to the plot, the Virginia and other legislatures passed restrictions on free blacks, as well as on the education, movement, and hiring out of the enslaved. Although Gabriel's conspiracy is well known among historians, documents relating to it have remained relatively inaccessible. In Gabriel's Conspiracy, Philip J. Schwarz offers a valuable selection of the documents discovered to date. Together with Michael Nicholls's complementary book, Whispers of Rebellion (Virginia), these volumes offer a complete account of the quashed slave conspiracy.

The Resettlement Administration The Countryman Press

From the author of Guns, Germs and Steel, Jared Diamond's Collapse: How Societies Choose to Fail or Survive is a visionary study of the mysterious downfall of past civilizations. Now in a revised edition with a new afterword, Jared Diamond's Collapse uncovers the secret behind why some societies flourish, while others founder - and what this means for our future. What happened to the people who made the forlorn long-abandoned statues of Easter Island? What happened to the architects of the crumbling Maya pyramids? Will we go the same way, our skyscrapers one day standing derelict and overgrown like the temples at Angkor Wat? Bringing together new evidence from a startling range of sources and piecing together the myriad influences, from climate to culture, that make societies self-destruct, Jared Diamond's Collapse also shows how - unlike our ancestors - we can benefit from our knowledge of the past and learn to be survivors. 'A grand sweep from a master storyteller of the human race' - Daily Mail 'Riveting, superb, terrifying' - Observer 'Gripping ... the book fulfils its huge ambition, and Diamond is the only man who could have written it' - Economist 'This book shines like all Diamond's work' - Sunday Times

Cecil's Story ASCD

The first volume in a pioneering account of Oliver Cromwell--providing a major new interpretation of one of the greatest figures in history Oliver Cromwell (1599-1658)--the only English commoner to become the overall head of state--is one of the great figures of history, but his character was very complex. He was at once courageous and devout, devious and self-serving; as a parliamentarian, he was devoted to his cause; as a soldier, he was ruthless. Cromwell's speeches and writings surpass in quantity those of any other ruler of England before Victoria and, for those seeking to understand him, he has usually been taken at his word. In this remarkable new work, Ronald Hutton untangles the facts from the fiction. Cromwell, pursuing his devotion to God and cementing his Puritan support base, quickly transformed from obscure provincial to military victor. At the end of the first English Civil War, he was poised to take power. Hutton reveals a man who was both genuine in his faith and deliberate in his dishonesty--and uncovers the inner workings of the man who has puzzled biographers for centuries.

Runaway Twin Penguin

Online instruction is rapidly expanding the way administrators and educators think about and plan instruction. In addition, due to a pandemic, online instructional practices and learning in a virtual environment are being implemented with very little training or support. Educators are

learning new tools and strategies at a quick pace, and often on their own, even through resistance. It is important to explore lessons learned through the pandemic but also of importance is sharing the virtual classroom options and instruction that align to best practices when transitioning to online instruction. Sharing these will allow educators to understand and learn that virtual instruction can benefit all, even when not used out of need, and can enhance face-to-face courses in many ways. The Handbook of Research on Lessons Learned From Transitioning to Virtual Classrooms During a Pandemic is a critical reference that presents lessons instructors have learned throughout the COVID-19 pandemic including what programs and tools were found to be the most impactful and useful and how to effectively embed virtual teaching into face-to-face teaching. With difficult choices to be made and implemented, this topic and collection of writings demonstrates the learning curve in a state of survival and also lessons and resources learned that will be useful when moving back to face-to-face instruction as a tool to continue to use. Highlighted topics include the frustrations faced during the transition, lessons learned from a variety of viewpoints, resources found and used to support instruction, online learner perspectives and thoughts, online course content, and best practices in transitioning to online instruction. This book is ideal for teachers, principals, school leaders, instructional designers, curriculum developers, higher education professors, pre-service teachers, in-service teachers, practitioners, researchers, and anyone interested in developing more effective virtual and in-classroom teaching methods.

Years of adventure, 1874-1920 The Overmountain Press

New York Times bestselling authors Bill Nye the Science Guy and Gregory Mone take middle-grade readers on a scientific adventure in the launch of an exciting new chapter book series, Jack and the Geniuses. The perfect combination to engage and entertain readers, the series features real-world science along with action and a mystery that will leave kids guessing until the end, making these books ideal for STEM education. In the series opener, Jack and the Geniuses: At The Bottom of The World, readers meet Jack and his foster siblings, Ava and Matt, who are orphans. But they're not your typical kind of orphans—they're geniuses. Well, Ava and Matt are, which sometimes makes life difficult for twelve-year-old Jack. Ava speaks multiple languages and builds robots for fun, and Matt is into astronomy and a whiz at math. As for Jack, it's hard to stand out when he's surrounded by geniuses all the time. When the kids try to spy on Dr. Hank Witherspoon, one of the world's leading scientists, they end up working for him in his incredible laboratory. Soon, Hank and the kids travel to Antarctica for a prestigious science competition, but they find that all is not as it seems: A fellow scientist has gone missing, and so has any trace of her research. Could someone be trying to use her findings to win the contest? It's up to Jack, Ava, and Matt to find the missing scientist and discover who's behind it all—before it's too late. Integrating real science facts with humor and suspense, and featuring an ensemble cast of loveable boy and girl characters, this uniquely engaging series is an irresistible chemical reaction for middle-grade readers. With easy-to-read language presented in a fun, motivating, and accessible way, this series opener is a great book for both inquisitive kids and reluctant readers. The book also includes information about the science discussed and used to solve the mystery, as well as a cool science project about density that kids can do at home or in the classroom. Bill Nye's brand new talk show series for Netflix, "Bill Nye Saves the World" is set to launch in Spring 2017.

Jack and the Geniuses Texas Tech University Press

Lincoln's Last Days is a gripping account of one of the most dramatic nights in American history—of how one gunshot changed the country forever. Adapted from Bill O'Reilly's bestselling historical thriller, Killing Lincoln, this book will have young readers—and grown-ups too—hooked on history. In the spring of 1865, President Abraham Lincoln travels through Washington, D.C., after finally winning America's bloody Civil War. In the midst of celebrations, Lincoln is assassinated at Ford's Theatre by a famous actor named John Wilkes Booth. What follows is a thrilling chase, ending with a fiery shoot-out and swift justice for the perpetrators. With an unforgettable cast of characters, page-turning action, vivid detail, and art on every spread, Lincoln's Last Days is history that reads like a thriller. This is a very special book, irresistible on its own or as a compelling companion to Killing Lincoln.

The Slaves McGraw Hill Professional

Twelve-year-old Ann understands there is only one thing to be grateful for as a slave: having her family together. But when the master falls into debt, he plans to sell both Ann and her younger brother to two different owners. Ann is convinced her family must run away on the Underground Railroad. Will Ann's family survive the dangerous trip to their freedom in the North? This Girls Survive story is supported by a glossary, discussion questions, and nonfiction material on the Underground Railroad, making it a valuable resource for young readers.

[Ann Fights for Freedom](#) Penguin UK
