That's a GREAT Answer! provides complete and ready-to-go support to help teachers get great answers to open-ended comprehension questions from the students who need help the most—elementary students, struggling older readers, and English language learners. In this revised second edition, Nancy Boyles now includes new Common Core State Standards-based objectives, step-by-step lesson sequences, collaborative tasks that link teaching to learning, insightful new teaching tips, updated and enhanced bibliographies, and student targets on the CD that specify how to meet each objective and answer a particular comprehension question. Her ready-to-go student scaffolds then break comprehension objectives into fifty-three specific, measurable, open-ended questions divided among four thinking strands. A chart shows the correlation between all objectives and the Common Core State Standards for comprehension—easily aligned to the literacy objectives of any state curriculum. Each open-ended question includes:

- a step-by-step lesson sequence
- a template for a related oral collaborative task
- teaching tips
- a bibliography of fiction and nonfiction picture books aligned with the question
- a template instructing students how to find key evidence for the objective before writing their response
- an answer frame scaffold for initial response practice that helps students at any grade level organize and elaborate
- a target on the CD that specifies for students how to meet each objective and answer a particular comprehension question

The included CD provides all of the answer frames and targets for the open-ended questions, as well as rubrics, criteria charts, planners, and an extensive master bibliography that matches key fiction and nonfiction literature models with appropriate objectives. From setting a foundation with great standards, books, and instruction through guidelines for assessment, That's a GREAT Answer offers a (now more) complete, great answer for teachers who want to empower their students to respond well to open-ended questions."

Help students appreciate texts and write about them with conviction. Responding to a comprehension question is a surprisingly complex task. It draws on multiple skills: students must be able to read and analyze a text passage; consider what aspect of the text the question addresses; and then quickly and concisely write about their ideas, citing evidence to support them. Hence the prominence of constructed-response questions in standardized testing. In this refreshingly clear and upbeat guide, literacy consultant Nancy Boyles gives a step-by-step demonstration of how to help students achieve success with this task—and in the process of unpacking the steps involved, demonstrates how the instruction can inspire teachers' creativity as well as deepen students' literacy skills. Filled with ready-to-use scaffolds for every stage of instruction—sets of sample questions, anchor charts, cue cards, answer frames—this is a one-stop resource for teaching students how to organize their thoughts about what they've read, and then set them down in writing.
