Academic Reading Circles National Geographic Books

Academic Reading Circles is a teacher-resource book for a learner-centred reading skills approach. It explains and exemplifies an intensive reading approach aimed at improving learner engagement with and understanding of concepts in non-fiction texts, like those encountered in undergraduate courses. This approach combines individual investigation with collaborative construction of knowledge through group sharing and discussion. In the book, teachers are guided through an entire ARC cycle, including: *the

initial introduction of ARC to learners; *the five ARC roles learners undertake when reading a text; *detailed examples of their use on a sample text; *solutions for groupings, assessment, and potential problem areas; and *downloadable activities to further facilitate ARC beyond this book. Academic Reading Circles is ideal for teacher use in pre-sessional or in-sessional EAP programs at the university level. Secondary and general ESL/EFL teachers may also benefit. The book is published with the round. Moppet on the Run Learning Express (NY) Inspired by true events, One Hen tells the story of Kojo, a boy from Ghana who turns a small loan into a

thriving farm and a livelihood for many.

Long Walk to Freedom Yearling

Awesome Reading Comprehension Level 1 is part of a five-book series designed to focus on practical reading comprehension skills. It features fun and interesting stories that are both fiction and non-fiction. It also includes stories with dialogue to provide well-rounded access to all types of reading situations. This series presents a unique approach to building not only reading comprehension skills but also language usage skills. Each Unit presents an image with a story. From the story, 10 vocabulary words are pulled so that the student can learn more about that word and its use. The words are all in the same conjugation as used in the story. Students will define each word and its part of speech. Then they will use the vocabulary word in a new sentence to further their understanding of the tense and usage. After the vocabulary has been addressed, it is time for the student to answer comprehension questions about the story. Having a better understanding of

the vocabulary will allow the students to activate their recall of what they have read. To further the student's comprehension, they will be challenged to make predictions on the content they have read and then continue the story in a creative writing exercise. By making predictions, the students can demonstrate their true understanding of the story and by continuing the story on their own, they can further practice their writing skills. Key Features Fun and interesting stories with black and white pictures. Various activities to reinforce the student's comprehension of the story. Functional development of vocabulary and its use. Prediction based exercises to further demonstrate the student's comprehension. Designed for use in the classroom for ESL learners and teachers. 50 original stories, 500 new vocabulary and 50 creative writing exercises.

Help students appreciate texts and write about them with conviction. Responding to a comprehension question is a surprisingly complex task. It draws on multiple skills: students must be

able to read and analyze a text passage; consider what aspect of the text the question addresses; and then quickly and concisely write about their ideas, citing evidence to support them. Hence the prominence of constructed-response questions in standardized testing. In this refreshingly clear and upbeat guide, literacy consultant Nancy Boyles gives a step-by-step demonstration of how to help students achieve success with this task—and in the process of unpacking the steps involved, demonstrates how the instruction can inspire teachers' creativity as well as deepen students' literacy skills. Filled with ready-to-use scaffolds for every stage of instruction—sets of sample questions, anchor charts, cue cards, answer frames—this is a one-stop resource for teaching students how to organize their thoughts about what they've read, and then set them down in writing.

Language Intervention for School-Age Students is
your working manual for helping children with

language learning disabilities (LLD) gain the tools they need to succeed in school. Going beyond the common approach to language disorders in school-age populations, this innovative resource supplements a theoretical understanding of language intervention with a wealth of practical application strategies you can use to improve learning outcomes for children and adolescents with LLD. Well-referenced discussions with real-life examples promote evidence-based practice. Case histories and treatment strategies help you better understand student challenges and develop reliable methods to help them achieve their learning goals. Unique application-based focus combines the conceptual and practical frameworks to better help students achieve academic success. Questions in each chapter encourage critical analysis of intervention methods for a deeper understanding of the beliefs behind them. In-depth coverage of controversial topics challenges your understanding and debunks common myths. Realistic examples

and case studies help you bridge theory to practice and apply intervention principles. Margin notes highlight important facts, questions, and vocabulary for quick reference. Key Questions in each chapter put concepts into an appropriate context and help you focus on essential content. Summary Statement and Introductory Thoughts sections provide succinct overviews of chapter content for quick familiarization with complex topics.

Storybook characters and situations are perfect for launching discussions of social emotional learning—why not let them help? In picture books, well-loved characters deal with many of the same problems students face in their own lives. What better resource could there be for encouraging students to think about their actions and responses? Using classroom texts to start SEL conversations— during an interactive read- aloud or an extension of shared close-reading lessons— weaves social emotional learning organically into the fabric of an existing curriculum rather than adding a new block to the day. In a book perfect for a study group or for immediate use in the classroom,

literacy educator Nancy Boyles connects the dots between the competencies identified by leaders in the SEL field with the rich content of children's literature. More than 200 award-winning picture books are profiled along the way as she unpacks each SEL skill, sketches typical classroom situations in which teachers might not see that skill demonstrated, discusses what to look for in books that address it, and provides carefully crafted sets of questions to explore with students.

With his stunning watercolors -- and text that resounds with universal truths, award-winning artist Jon J Muth has transformed a story by Tolstoy into

a timeless fable for young readers. What is the best time to do things? Who is the most important one? What is the right thing to do? Nikolai knows that he wants to be the best person he can be, but often he is unsure if he is doing the right thing. So he goes to ask Leo, the wise turtle. But it is Nikolai's own response to a stranger's cry for help that leads him directly to the answers he is looking for. Jon J Muth combined his studies of Zen with his love for Tolstoy to create this profound, yet simple book about compassion and living in the moment.
