[Discovering Our Past](#) State University of New York Press

This book offers a groundbreaking examination of citizenship education programs that serve contemporary youth in schools and communities across the United States. These programs include social studies classes and curricula, school governance, and community-based education efforts. The book takes an interdisciplinary approach to exploring the experiences and perspectives of educators and youth involved in these civic education efforts. The contributors offer rich analyses of how mainstream and alternative programs are envisioned and enacted, and the most important factors that shape them. A variety of theoretical lenses and qualitative methodologies are used, including ethnography, focus group interviews, and content analyses of textbooks.

[Cavaliers and Roundheads](#) McGraw-Hill Education

This social as well as a military history recreates the scenes of civil war in England, between 1642 and 1649.

[World History & Geography](#) National Geographic Learning

As debates rage over the place of faith in our national life, Tocqueville's nineteenth-century crediting of religion for shaping America is largely overlooked today. Now, in Republicanism, Religion, and the Soul of America, Ellis Sandoz reveals the major role that Protestant Christianity played in the formation and early period of the American republic. Sandoz traces the rise of republican government from key sources in Protestant civilization, paying particular attention to the influence of the Bible on the Founders and the blossoming of the American mind in the eighteenth century. Sandoz analyzes the religious debt of the emergent American community and its elevation of the individual person as unique in the eyes of the Creator. He shows that the true distinction of American republicanism lies in its grounding of human dignity in spiritual individualism and an understanding of man's capacity for self-government under providential guidance. Along the way, he addresses such topics as the neglected question of the education of the Founders for their unique endeavor, common law constitutionalism, the place of Latin and Greek classics in the Founders' thought, and the texture of religious experience from the Great Awakening to the Declaration of Independence To establish a unifying theoretical perspective for his study, Sandoz considers the philosophical underpinnings of religion and the contribution that Eric Voegelin made to our understanding of religious experience. He contributes fresh studies of the character of Voegelin's thought: its relationship to Christianity; his debate with Leo Strauss over reason, revelation, and the meaning of philosophy; and the theory of Gnosticism as basic to radical modernity. He also provides a powerful account of the spirit of Voegelin's later writings, contrasting the political scientist with the meditative spiritualist and offering new insight into volume 5 of *Order and History*. Republicanism, Religion, and the Soul of America concludes with timely reflections on the epoch now unfolding in the shadow of Islamic jihadism. Bringing a wide range of materials into a single volume, it confronts current academic concerns with religion while offering new insight into the construction of the American polity—and the heart of Americanism as we know it today.

Unit 1. Early civilizations -- Unit 2. The ancient world -- Unit 3. New empires and new faiths -- Unit 4. The middle ages -- Unit 5. A changing world -- Unit 6. Modern times.

[Human Heritage](#) Hippocrene Books

This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and

the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)

My Max Score, a new concept developed by AP teachers and exam graders, offers separate review materials for long-term prep and last-minute cram sessions-no matter when you start studying, This is just what you need-plus strategies, sample essays, and full-length practice tests to bring out your best on test day.

[United States History and Geography, Student Edition](#) McGraw-Hill Education

UNLIKE TRADITIONAL TEXTBOOKS that can overwhelm the reader with countless facts to absorb, the Student's Friend Concise World History highlights the most important developments of world history in a clear and concise manner that is capable of being comprehended by the human mind. Teachers have successfully used The Student's Friend in homeschool, middle school, high school, and college in the United States and abroad. Part 1 covers the period from prehistory to the year 1500; Part 2, the period from 1500 to the present. In contrast to other concise histories that may focus on impersonal historical processes, the Student's Friend includes men and women who helped to shape history and who illustrate timeless aspects of human nature. WHY A CONCISE HISTORICAL NARRATIVE? The Student's Friend is designed to be consistent with findings from cognitive science that emphasize learning the most important principles and concepts of a school discipline, rather than learning large quantities of superficial facts that are likely to be forgotten shortly after the exam is over. The respected Bradley Commission on History in Schools has said, "The amount of time required to achieve student engagement and genuine comprehension of significant issues will necessitate leaving out much that is 'covered' by the usual text." CONCISENESS CAN BRING CLARITY. Cognitive psychologist Frank N. Dempster has written, "Many texts are so packed with facts, names, and details that the real point of the lesson is often obscured." One of the greatest benefits of a concise historical narrative is the clarity it can bring to a student's understanding of history by focusing on essential knowledge rather than on extensive, sometimes confusing, and often-trivial detail. ELIMINATES GAPS AND DISCONTINUITIES. Teachers can't adequately cover all the information contained in standard thousand-page textbooks, so they commonly skip around in the textbook, which can leave big holes in the historical narrative. The Student's Friend is designed to include no more information than students can realistically cover during a standard high school course. Because the picking and choosing has been carefully done and logically sequenced, continuity is maintained and gaps eliminated. BALANCES BREADTH AND DEPTH. The concise historical narrative leaves time in the curriculum for additional learning activities such as research papers, multimedia presentations, source-analysis activities, and simulations, a practice sometimes called "postholing." The narrative performs a unifying function like a fence that gives shape to the landscape and provides the connecting fabric between events, while postholes are occasions to dig more deeply into the human dimensions of history-to explore how events of the past affected people's lives then and now. The subject matter of world history is so vast that it can be a

difficult subject to grasp and to teach. Teachers and students alike can benefit from the understandable picture of history provided by the Student's Friend Concise World History. [Reading Essentials](#) McDougal Littell/Houghton Mifflin  
This book brings together contributions from around the world that analyse and reflect on the way curriculum is configuring and reconfiguring that world.

[Mathematics with Business Applications](#) University of Missouri Press

Incorporate classroom-tested reading strategies that give your students the tools they need to become independent learners with this middle school world history program—the perfect combination of story and standards.

Glencoe World History addresses student learning on many levels and encourages the reader to become actively involved with the beautifully presented content.

[ISE Traditions & Encounters: A Global Perspective on the Past](#) Maxwell Learning

This book offers you a brief, but very involved look into the operations in the drilling of an oil & gas wells that will help you to be prepared for job interview at oil & gas companies. From start to finish, you'll see a general prognosis of the drilling process. If you are new to the oil & gas industry, you'll enjoy having a leg up with the knowledge of these processes. If you are a seasoned oil & gas person, you'll enjoy reading what you may or may not know in these pages. This course provides a non-technical overview of the phases, operations and terminology used on offshore drilling platforms. It is intended also for non-drilling personnel who work in the offshore drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of drilling operations, with a particular focus on the unique aspects of offshore operations.

[The History of England from the Accession of James the Second](#) McDougal Littell/Houghton Mifflin

This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implementation at the local level and may be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework's course descriptions and teachers' lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) "Unresolved Problems of the Modern World"; (2) "Connecting with Past Learnings: The Rise of Democratic Ideas"; (3) "The Industrial Revolution"; (4) "The Rise of Imperialism and Colonialism: A Case Study of India"; (5) "World War I and Its Consequences"; (6) "Totalitarianism in the Modern World: Nazi Germany and Stalinist Russia"; (7) "World War II: Its Causes and Consequences"; and (8) "Nationalism in the Contemporary World." Each unit contains references. (EH)

[Republicanism, Religion, and the Soul of America](#)

Petrogav International

Glimpses of World History Ingram

"This is History Book. It explored the grand scheme of world history as a product of real-life human beings pursuing their individual and collective interests. It also offered a global perspective on the past by focusing on both the distinctive characteristics of individual societies and the connections that have linked the fortunes of different societies. It has combined a clear chronological framework with the twin themes of traditions and encounters, which help to make the unwieldy story of world history both more manageable and more engaging. From the beginning, Traditions & Encounters offered an inclusive vision of the global past-one that is meaningful and appropriate for the interdependent world of contemporary times"--
