[Inquiry-Based Lessons in World History \(Vol. 1\)](#) McGraw-Hill Education

Duiker's comprehensive, balanced history of the world in the twentieth and twenty-first centuries provides you with context for interpreting the events that you hear about in the news each day. You'll view history from the broader global perspective, while at the same time gaining insight into the distinct character

of individual civilizations and regions. To ensure that you'll have a well-rounded understanding of the most decisive moments in recent times, Duiker integrates political, economic, social, and cultural history into a smoothly written narrative. The Fifth Edition text includes a special insert that guides you in using the text's many detailed maps and helps you learn how to make important connections between geography and the turn of historic events. Additional tools include timelines that highlight and contrast different cultures and nations--giving you an "at-a-glance," holistic perspective on eras and their defining events; photos from William Duiker's own collection for a closer, more personal look at the world we live in; and primary-source documents that illustrate and clarify key points.

Spanning the time period from 1045 BCE to 1500 CE, *Inquiry-Based Lessons in World History (Vol. 1)* focuses on creating global connections between people and places using primary sources in standards-based lessons. With sections on early humans, the ancient world, classical antiquity, and the world in transition, this book provides teachers with inquiry-based, ready-to-use lessons that can be adapted to any classroom and that encourage students to take part in the learning process by reading and thinking like historians. Each section contains four chapters that correspond to the scope and sequence of most world history textbooks. Each inquiry lesson begins with an essential question and connections to content and literacy standards, followed by primary source excerpts or links to those sources. Lessons include step-by-step directions, incorporate a variety of literacy strategies, and

require students to make a hypothesis using evidence from the texts they have read.

World History & Geography McGraw-Hill Education **UNLIKE TRADITIONAL TEXTBOOKS** that can overwhelm the reader with countless facts to absorb, the Student's Friend Concise World History highlights the most important developments of world history in a clear and concise manner that is capable of being comprehended by the human mind. Teachers have successfully used *The Student's Friend* in homeschool, middle school, high school, and college in the United States and abroad. Part 1 covers the period from prehistory to the year 1500; Part 2, the period from 1500 to the present. In contrast to other concise histories that may focus on impersonal historical processes, the Student's Friend includes men and women who helped to shape history and who illustrate timeless aspects of human nature. **WHY A CONCISE HISTORICAL NARRATIVE?** The Student's Friend is designed to be consistent with findings from cognitive science that emphasize learning the most important principles and concepts of a school discipline, rather than learning large quantities of superficial facts that are likely to be forgotten shortly after the exam is over. The respected Bradley Commission on History in Schools has said, "The amount of time required to achieve student engagement and genuine comprehension of significant

issues will necessitate leaving out much that is 'covered' by the usual text." **CONCISENESS CAN BRING CLARITY.** Cognitive psychologist Frank N. Dempster has written, "Many texts are so packed with facts, names, and details that the real point of the lesson is often obscured." One of the greatest benefits of a concise historical narrative is the clarity it can bring to a student's understanding of history by focusing on essential knowledge rather than on extensive, sometimes confusing, and often-trivial detail. **ELIMINATES GAPS AND DISCONTINUITIES.** Teachers can't adequately cover all the information contained in standard thousand-page textbooks, so they commonly skip around in the textbook, which can leave big holes in the historical narrative. The Student's Friend is designed to include no more information than students can realistically cover during a standard high school course. Because the picking and choosing has been carefully done and logically sequenced, continuity is maintained and gaps eliminated. **BALANCES BREADTH AND DEPTH.** The concise historical narrative leaves time in the curriculum for additional learning activities such as research papers, multimedia presentations, source-analysis activities, and simulations, a practice sometimes called "postholing." The narrative performs a unifying function like a fence that gives shape to the landscape and provides the connecting fabric between

events, while postholes are occasions to dig more deeply into the human dimensions of history-to explore how events of the past affected people's lives then and now. The subject matter of world history is so vast that it can be a difficult subject to grasp and to teach. Teachers and students alike can benefit from the understandable picture of history provided by the Student's Friend Concise World History.

Glencoe's Discovering Life Skills puts students on the path to discovery and excellence!

World Yearbook of Education 2011 McGraw-Hill/Glencoe
Once your child has completed his or her primary education, you'll have to seek curriculum for homeschool that covers History in greater detail. Your child is ready to face a bigger challenge when learning, and myWorld History is there to provide it. This middle school curriculum bundle breaks the barrier between History as a living thing and the subject as it's presented on paper. Not only will your child learn relevant dates over the course of the program, he or she will also experience the stories that make up the entirety of History. myWorld

History provides you and your child with project-based activities and interesting tales that take you on a journey through time. Your child will get to read about other people who lived all over the world and in different time periods, helping the lesson resonate. With all the engaging content provided by myWorld History, your child will develop a strong knowledge of History and the cultures of which it is comprised. Ideally, such exposure to different cultures will help your child become more empathetic and a better critical thinker. Furthermore, each chapter of myWorld History kicks off with an Essential Question. This question guides your child through the material, causing him or her to analyze the lesson's content as he or she progress through the chapter. Your child will have to ask questions and search for answers while addressing the Essential Question. Stories, activities, games, the student journal and projects relate back to the Essential Question, the main idea of the chapter. The myWorld History curriculum for homeschooling is the next step after the myWorld Social Studies series and can be used before or after myWorld Geography. The Bundle includes the Student Edition, Student Journal, Student Journal Answer Key and Parent Guide materials. The content in each lifts History off the page to keep your child engaged in the learning process. myWorld History proves that homeschool is full of exciting experiences and invaluable lessons. For more information about the specific materials included in myWorld History, visit the Features and Benefits page. Take your child on a journey through time without leaving home. With innovative resources, project-

based activities, and unprecedented support for all learners, myWorld History takes students beyond the printed page to actively experience the history of the world in which they live.

How do curriculum, conceptions of knowledge and the schooling experiences of young people engage the great issues of this tumultuous time? Curriculum is always influenced by the events that shape our world, but when testing and benchmarking preoccupy us, we can forget the world that is both the foundation and the object of curriculum. This edited volume brings together international contributors to analyze and reflect on the way the events of the last decade have influenced the curriculum in their countries. As they address nationalism in the face of economic globalisation, the international financial crisis, immigration and the culture of diaspora, they ask how national loyalties are balanced with international relationships and interests. They ask how the rights of women, and of ethnic and racial groups are represented. They ask what has changed about history and civics post 9/11, and they ask how countries that have experienced profound political and economic changes have addressed them in curriculum. These interactions and changes are a subject of particular interest for an international yearbook in that they are almost always permeated by global movements and influenced by multinational bodies and practices. And as these essays show, in curriculum, global and international issues are explicitly or implicitly also about local and national interests and about how citizens engage their rights and responsibilities. This volume brings together a new approach to perspectives on curriculum today and a new collection of insights into the changes from different parts of the world which discuss: How is the world represented in

curriculum? How do responses to world events shape the stories we tell students about who they are and can be? This book will be of great benefit to educational researchers and policy-makers, as well as undergraduate and postgraduate students.

and encourages the reader to become actively involved with the beautifully presented content.
