Answers To Interactive Physiology Urinary Interactive Physiology 3 • Juxtamedullary nephrons - lie in both the cortex and medulla 2. Renal Medulla • The middle layer is called the renal medulla, in which you can see the triangular renal pyramids. These pyramids look striated because of parallel bundles of ducts carrying urine from the nephrons.

Answers To Interactive Physiology Urinary System

The kidneys filter metabolic wastes, excess ions, and chemicals from the blood to form urine. Ureters. The ureters are a pair of tubes that carry urine from the kidneys to the urinary bladder. The ureters are about 10 to 12 inches long and run on the left and right sides of the body parallel to the vertebral column.
