Your students are individuals. Do your teaching materials treat them that way? Feldman's Essentials of Understanding Psychology does. Using a revolutionary revision process, Bob Feldman's Essentials of Understanding Psychology is a fully integrated learning system that gives students an even greater opportunity to achieve success, and brings the Students First goal to a new level. Evidence-Based Education in the Classroom: Examples From Clinical Disciplines shows educators how to use evidence to inform teaching practices and improve educational outcomes for students in clinically based fields of study. Editors and speech-language pathologists Drs. Jennifer C. Friberg, Colleen F. Visconti, and Sarah M. Ginsberg collaborated with a team of more than 65 expert contributors to share examples of how they have used evidence to inform their course design and delivery. Each chapter is set up as a case study that includes: A description of the teaching/learning context focused on in the chapter A brief review of original data or extant literature being applied A description of how evidence was applied in the teaching/learning context Additional ideas for how evidence could be applied in other teaching/learning contexts across clinical disciplines Additional resources related to the pedagogy described in the case study (e.g., journal articles, books, blogs, websites) Educators in the fields of speech-language pathology, audiology, nursing, social work, sports medicine, medicine, dietetics, dental assisting, physician assisting, radiology technology, psychology, and kinesiology—already familiar with evidence-

based practice—will find this resource helpful in implementing evidence-informed approaches to their teaching. While the content in clinical programs is quite different, there are many similarities in how to teach students across such programs. No One Ever Taught Me How to Learn Springer

This is a collection of my daily thoughts, life experiences, and readings, designed to help you live a positive life. If you are like me, you would have spent your whole life conforming to the status quo, being negative, lacking self-confidence, and moving aimlessly. I remember someone encouraging me one day, telling me that

there are levels to myself that the world has not seen, and it is up to me to decide if I display my greatness. In 2006, I made a decision to live a positive life, but it would take me up to seven years to see the fruits of my labor. In 2013, I worked as an intake specialist. And with no formal training in counseling, I realized that apparently, people would trust me and tell me all their issues and problems. At first, I was a little afraid, but I started praying, asking God to help me say the right things to the people I interact with. Soon enough, I was becoming a positive motivational light in my workplace. People would come into my office sad but leave with bright smiles. I realized that this is what God wanted me to do. The Bible says, Study to show yourself approved (2 Timothy 2:15). I began reading motivational self-help books; watching videos of speakers such as Les Brown, Zig Ziglar, Earl Nightingale, Dr. Norman Vincent Peale, Napoleon Hill, MLK, T. D. Jakes, and Brendon Burchard; and looking up thousands of positive quotes and affirmations. I realized that I could take my life experiences and stories and use them for positive enforcement to help others, and the idea to write this book was born. I know that when you read this book, it will entertain you, put a smile on your face, and last but not least, help you to reengineer your mentality toward embracing a positive mind-set. You will look for the positives in life and not the negatives. You will start seeking opportunity and stop complaining about circumstances. You will see the good in everything and everybody. You will learn how to control your emotions and not let your emotions control you. You will be on the road toward bettering

yourself. My life was altered because someone spoke something positive to me; therefore, I aim to speak positivity to you. This book is for people just like me, who have struggled with doubt/unbelief, self-pity, unforgiveness, jealousy, negative/pessimistic thinking, anger/bitterness, and all the other factors that helped to create a defeatist outlook and fatalistic attitude toward life. I know this book will touch and impact you positively once you adopt an open mind and heart. Eat, sleep, and live positivity.
