Texts with Personification Bloomsbury Publishing USA  
Help students appreciate texts and write about them with conviction. Responding to a comprehension question is a surprisingly complex task. It draws on multiple skills: students must be able to read and analyze a text passage; consider what aspect of the text the question addresses; and then quickly and concisely write about their ideas, citing evidence to support them. Hence the prominence of constructed-response questions in standardized testing. In this refreshingly clear and upbeat guide, literacy consultant Nancy Boyles gives a step-by-step demonstration of how to help students achieve success with this task—and in the process of unpacking the steps involved, demonstrates how the instruction can inspire teachers' creativity as well as deepen students' literacy skills. Filled with ready-to-use scaffolds for every stage of instruction—sets of sample questions, anchor charts, cue cards, answer frames—this is a one-stop resource for teaching students how to organize their thoughts about what they've read, and then set them down in writing.

Timothy is on probation. It's a strange word—something that happens to other kids, to delinquents, not to kids like him. And yet, he is under house arrest for the next year. He must check in weekly with a probation officer and a therapist, and keep a journal for an entire year. And mostly, he has to stay out of trouble. But when he must take drastic measures to help his struggling family, staying out of trouble proves more difficult than Timothy ever thought it would be. By turns touching and funny, and always original, *House Arrest* is a middlegrade novel in verse about one boy's path to redemption as he navigates life with a sick brother, a grieving mother, and one tough probation officer.

*Against the Personification of Democracy* offers a new theory of political subjectivity that puts the dilemma of desire into the forefront. By using Lacan to read key figures in political philosophy, the book demonstrates why democratic theory -- representative or radical - is not only ineffective when it comes to the best form of political cohabitation, but also productive of destructive and self-defeating forces. The book begins with the debate between Hobbesian and Lockean notions of subjectivity to argue that the nature of political subjectivity is a function of the problem of desire. It then considers the question of the proper structure of political cohabitation in light of Hannah Arendt's insights into what happened to the stateless in World War II, leading to a distinction between the person in a bare and unadorned form and the public persona that is represented in most forms of democracy. Lacan is used to reread the question of political subjectivity, but, unlike radical democratic theory, the book argues against agonistic, representative, and thus endless democracy. Such a political formation is seen as an instigation and ultimate disappointment to desire (the persona), which leads to general negative outcomes, including genocide, concentration camps, and the removal of rights. Arguing against Zizek's proposal that a radical Act can save us politically, the book proposes a universal political formation as the only way out of the dilemma of political desire. This formation is not dependent on public personas, but rooted in actual persons meeting in their locality and sovereign to no one. An indispensable text for anyone interested in political theory, political philosophy, and democratic theory, *Against the Personification of Democracy* critiques positive theories of sovereignty through its analysis of political subjectivity and the problem of desire. More importantly, it provides a truly universal theory of democratic cohabitation that escapes political desire and thus the scapegoats of democratic failure, not to mention the anxiety of the impossibility of the democratic promise.

Roadmap to the AIMS High School Reading University of Chicago Press  
This book examines the personification of Wisdom as a female figure - a central motif in Proverbs, Job, Sirach, Wisdom and Baruch. Alice M. Sinnott identifies how and why the complex character of Wisdom was introduced into the Israelite tradition, and created and developed by Israelite/Jewish wisdom teachers and writers. Arguing that by personifying Wisdom the authors of Proverbs responded to Israel's defeat by Babylon and the loss of Davidic monarchy, and by retrieving and transforming the Wisdom figure the authors of Sirach, Baruch and Wisdom responded to the spread of Hellenism and the potential loss of identity for Jews. Sinnott concludes that personified Wisdom functioned to reinterpret and transform the Israelite/Jewish tradition.

Tests require a special kind of savvy, a kind of critical thinking and knowledge application that is not always a part of classroom reading experiences. Who better to teach you how to prepare your students for reading tests than someone who has written them? Charles Fuhrken has spent years working with several major testing companies and contributing to the reading assessments of various testing programs. What he's learned about testing can help teachers who are interested in teaching effective reading strategies as well as preparing students for reading tests. What Every Middle School Teacher Needs to Know About Reading Tests (From Someone Who Has Written Them) offers extensive, practical strategies to help students perform well on test day. This ready-to-use, easy-to-understand resource provides a wealth of information about reading tests, including high-quality preparation materials, samples of the most frequently assessed reading standards, and engaging core-reading activities. Charles takes the mystery out of reading tests; he explains how students can learn the language of tests and apply their knowledge of reading to standardized tests. In addition to providing information about reading tests that will help students feel prepared and confident on test day, What Every Middle School Teacher Needs to Know About Reading Tests provides a wealth of resources that can be incorporated into a teacher's everyday reading work, including vocabulary development, literary techniques, interpretation, comprehension, and more.

Taking a holistic approach to developmental reading, ENGAGE: COLLEGE READING is the third book in a 3-book series, covering reading levels grades 10-12. It guides students through a stepped and incremental approach, activating background or prior knowledge as many of the skills students need to become critical readers are skills they already possess and use on a daily basis. Often using popular media as a springboard, Dole and Taggart show students how the skills used when watching television or movies can easily transfer to their academic reading. In this third book, Engage offers a much greater emphasis on critical thinking, academic reading and reading for careers. Reviewers have lauded the inclusion of varied, interesting readings that will stimulate students' interest in reading and will provide them with

A New Translation From The French By Marion Wiesel Born in Sighet, Transylvania, Elie Wiesel was a teenager when he and his family were taken from their home in 1944 and deported to the Auschwitz concentration camp, and then to Buchenwald. Night is the terrifying record of Elie Wiesel's memories of the death of his family, the death of his own innocence, and his despair as a deeply observant Jew confronting the absolute evil of man. This new translation by his wife and most frequent translator, Marion Wiesel, corrects important details and presents the most accurate rendering in English of Elie Wiesel's seminal work.
