He offers unique and often startling insights into game theory and microeconomics, covering topics such as mixed strategies, discrimination, incentives, and human preferences. He also looks at finance, experimental economics,

behavioral economics, and neuroeconomics. Soccer provides rich data sets and environments that shed light on universal economic principles in interesting and useful ways. The Last She Penguin An award-winning novel in verse about a boy who navigates the

start of seventh grade and life growing up on the border the only way that feels right—through poetry. They call him Güero because of his red hair, pale skin, and freckles. Sometimes people only go off of what they see. Like the Mexican boxer Canelo Álvarez, twelve-year-old Güero is puro mexicano. He feels at home on both sides of the river, speaking Spanish or English. Güero is also a reader, gamer, and musician who runs with a squad of misfits called Los Bobbys. Together, they joke around and talk about their expanding world, which now includes girls. (Don't cross Joanna—she's tough as nails.) Güero faces the start of seventh grade with heart and smarts, his family's traditions, and his trusty accordion. And when life gets tough for this Mexican American border kid, he knows what to do: He writes poetry. Honoring multiple poetic traditions, *They Call Me Güero* is a classic in the making and the

recipient of a Pura Belpré Honor, a Tomás Rivera Mexican American Children's Book Award, a Claudia Lewis Award for Excellence in Poetry, and a Walter Dean Myers Honor.

While many professional translators believe the ability to translate is a gift that one either has or does not have, Allison Beeby Lonsdale questions this view. In her innovative book, she demonstrates how teachers can guide their students by showing them how insights from communication theory, discourse analysis, pragmatics, and semiotics illuminate the translation process. Challenging long-held assumptions, she establishes a fascinating framework on which to base the structure of a professional prose-translation class. Her original contributions to the question of

directionally and to the specific strategies of translating are applicable to not only the teaching of translation from Spanish to English, but to other teaching situations and to other pairs of languages as well. She also reviews the latest attempts in translation theory to define and contextualize ideal translator competence, student translator competence, and general translation strategies. Beeby Lonsdale completes her book by applying her conclusions to selecting and organizing the content of teaching translation from Spanish to English. She illustrates one or more of the basic translation principles through 29 teaching units, which are prefaced by objectives, tasks, and commentaries for the teacher, and through 48 task sheets, which show how to present the material to students. *Teaching Translation from*

"In Muslims in Spain, 1492-1814: Living and Negotiating in the Land of the Infidel, Eloy Martín-Corrales surveys Hispano-Muslim relations from the late fifteenth to the eighteenth centuries, a period of chronic hostilities. Nonetheless there were thousands of Muslims in Spain during this time: ambassadors, exiles, merchants, converts, and travelers. Their negotiating strategies and the necessary support they found on both shores of the Mediterranean prove that relations between Spaniards and Muslims were based on reasons of state and a pragmatism that generated intense ties, both political and economic. These increased enormously after the peace treaties that Spain signed with Muslim countries between 1767 and 1791"--

This intriguing study of Mexico's participation in world's fairs from 1889 to 1929 explores Mexico's self-

presentation at these fairs as a reflection of the country's drive toward nationalization and a modernized image. Mauricio Tenorio-Trillo contrasts Mexico's presence at the 1889 Paris fair—where its display was the largest and most expensive Mexico has ever mounted—with Mexico's presence after the 1910 Mexican Revolution at fairs in Rio de Janeiro in 1922 and Seville in 1929. Rather than seeing the revolution as a sharp break, Tenorio-Trillo points to important continuities between the pre- and post-revolution periods. He also discusses how, internationally, the character of world's fairs was radically transformed during this time, from the Eiffel Tower prototype, encapsulating a wondrous symbolic universe, to the Disneyland model of commodified entertainment. Drawing on cultural, intellectual, urban, literary, social, and art histories, Tenorio-Trillo's thorough and imaginative study presents a broad cultural history of Mexico from 1880 to 1930, set within the context of the origins of Western nationalism, cosmopolitanism, and modernism.
