Unlike many other puzzle books, this series offers your early learner total independence to play them without any assistance from you. It is a self-checking puzzle book that gives a child complete freedom to enjoy words he is learning and to check his answers all by himself easily. In Book 2 of Primary Games, your child will find a book in LARGE PRINT that uses lower-cased lettering. Unlike most other game books, this one uses the SAME LIST of spelling words in each set of puzzle games. This means, that after he has played all the puzzles, he will have a sense of mastery for the words he has been using. Here is what you will find in this resource: 1. Using visually attractive picture images beside each spelling word, your child or student will have an illustration of the word he is learning to spell 2. These SAME spelling words are then used in the WORD SEARCH PUZZLE. Each puzzle only incorporates horizontal and vertical letter placement. Backward and diagonal lettering are not used to prevent confusion 3. The ANSWERS to each word search puzzle can be found on the BACK of the puzzle page, making it easy for your child to receive immediate feedback and any necessary help with his efforts 4. Next, the CROSSWORD PUZZLE incorporates the SAME spelling words your child has been playing with; however, instead of clues, the words are listed, making it fun for him to find the numbers and fill in the blanks 5. In the final puzzle game of the set, your child will get to test himself with a Fill-in-the-Blanks game that uses the SAME words he has been learning in the other puzzle games 6. And because of the large print, your child will have plenty of room to practice writing his letters, eliminating the frustration of spaces that are too small Through the use of REPETITION and learning to see the SHAPES of words by using lower-case lettering, your child will experience success and confidence--all without any supervision or help from YOU! And be sure to check out Book 1 of Primary Games for continued fun--for you AND your child!

Spelling, Punctuation and Grammar for KS3 - The Workbook (with Answers and Online Edition) Archway Publishing

This workbook has been designed for use in the classroom whether in traditional, homeschool or virtual (e-learning) settings. Each puzzle contains twenty words that have been carefully chosen and are recommended to work with your students on. At the 4th Grade level, words can be left to right, down, diagonal or backwards. The solutions area in the back of the book and are meant for self-checking and/or parent/teacher checking, and of course, for those times when you look and look and still can't find the word! Because some of these words are only three or four letters, it is quite possible that some words will appear more than once within a puzzle. If you are giving points for each word located, consider bonus points for finding those duplicates. Also, it's very common that puzzles contain extra words that aren't on the list. It's a great way to give students that finish quickly something else to focus on. Unfortunately, due to the randomization of the letters in each puzzle, it is possible that a "bad word" or two may exist throughout the book. At this grade level, students tend to look for them. Obviously, you should discourage searching for those words, but don't make it an issue until it is one or they'll go out of their way to find words. The 4th Grade book increases the rows to 20x20. As grade levels go up, the number of rows will range from 20 x 20 up to 29 x 29, and of course the words are grade level appropriate and get longer. There are a few duplicated words in this book deliberately. They are some commonly misspelled words, so it's extra reinforcement and practice. The back of each page is deliberately blank so the students can focus using the same layout every week without fumbling with the book. While writing words or putting words in short sentences may be an option, we recommend using lined paper instead with the appropriately sized rows. One activity you might consider is having the students pair up and test each other (using the back page of the current lesson) and then check their own answers. The pages are not perforated by design because many teachers have students turn in the entire book and some will not pass them back out until the following Monday when you are ready to introduce new words. This discourages students from working ahead. You'll notice that some words are short while others are longer even within the same week's words. The words were carefully selected based on many factors whether it be word type, commonly misspelled words, certain letter and sound combinations or other factors. Don't want your students to be able to view the solutions at the back of the book? A few staples or some tape to bind those pages together will fix that, although most students enjoy being able to find the words without peeking at the answers, especially at younger ages. No separate Teachers' Edition is necessary with this workbook. Be sure to check out our other spelling books for other grade levels as well as other books we have published.
