Complex metal alloys (CMAs) comprise a huge group of largely unknown alloys and compounds, where many phases are formed with crystal structures based on giant unit cells containing atom clusters, ranging from tens of to more than thousand atoms per unit cell. In these phases, for many phenomena, the physical length scales

are substantially smaller than the unit-cell dimension.

Hence, these materials offer unique combinations of properties which are mutually exclusive in conventional materials, such as metallic electric conductivity combined with low thermal conductivity, good light absorption with high-temperature stability, high metallic hardness with reduced wetting by liquids, etc. This book is the second of a series of books issued yearly as a deliverable to the European Community of the School established within the

"The Crucible" is a 1952 play by the American playwright Arthur Miller. It is a dramatization of the Salem witch trials that took place in the Province of Massachusetts Bay during 1692 and 1693. Miller wrote the play as an allegory of McCarthyism, when the US government

blacklisted accused communists. Miller himself was questioned by the House of Representatives' Committee on Un-American Activities in 1956 and convicted of "contempt of Congress" for refusing to identify others present at meetings he had attended. It was first performed at the Martin Beck Theater on Broadway on January 22, 1953. Miller felt that this production was too stylized and cold and the reviews for it were largely hostile (although The New York Times noted "a powerful play in a driving performance"). Nonetheless, the production won the 1953 "Best Play" Tony Award. A year later a new production succeeded and the play became a classic. It is a central work in the canon of American drama. Fuji Books' edition of "The Crucible" contains supplementary texts: \* "Tragedy And The Common Man", an essay by Arthur Miller. \* Excerpts from Nathaniel Hawthorne's magnum opus "The Scarlet Letter", a narrative of the Salem Witch trials. \* A few selected quotes of Arthur Miller.

Studienarbeit aus dem Jahr 2013 im Fachbereich Englisch - Literatur, Werke, Universität Siegen, Sprache: Deutsch, Abstract: In *The Crucible* (1953), a four-act play, Miller's scene is Salem, Massachusetts in the year 1692 and the action is based on the witchcraft trials of that time. In "A Note on the Historical Accuracy of This Play," Miller says: "This play is not history in the sense [...] used by the academic historian," for "dramatic purposes" prompted certain changes in the record. Nevertheless, Miller believes the "reader will discover here the essential nature" of the Salem trials (Miller, in: Murray: 1967, p. 52). This quote describes the truth in an appropriate short way. The following analysis of the main characters has not the aim to offer the reader an adequate historical overview, nor to work as an outline to present the details of

the people who lived in Salem in 1692. The aim is in fact to characterize and interpret the protagonists, as Miller did it in his day, and through this, to expose the development of their sense of morality and their pursuit of freedom, especially of John Proctor. To reach that aim the focus will be on John Proctor's internal state of mind concerning his contradictory behavior. This means his strengthening of his will and his conviction of what is wrong and right. The reader will find a development of his comprehension of his 'self' among emotional alterations, which matters a lot in Miller's dramas, as much as social behavior and religious crises. Those crises start a chain of events, which do most notably peak in Proctor's quest for identity and the dramatic finding of it. Through information given in the dialogues in Miller's play *The Crucible* will the reader be told about the answers to the question,

---

what the influences were that the main characters had on John Proctor. After the analysis of the protagonists a special analysis of John Proctor takes place which has the aim to describe his search for identity and resume and evaluate it in a conclusion in the end. Due to the mentioned focus on the finding of Proctor's 'self' there will be no explicit study of historical backgrounds of the Salem witchcraft trials per se. And due to the lack of space in this study will there be no further analysis of further plays of Miller or his way of narrating plays in general. The the text will shortly be about characterizations of the main roles in Arthur Miller's *The Crucible*, with focus on John Proctor's view of morality and his 'self'. And a conclusion. As Bigsby (2005: p. 158) said before:  
“ *The Crucible* is both an intense psychological [...].

The Crucible is a study in the mass

hysteria which led to the 1692 Salem witchcraft trials, concentrating on the fate of some of the key figures caught up in the persecution. It powerfully depicts people and principles under pressure and the issues and motivations involved. At the same time, it is also a parable for the events of the McCarthy era in the USA of the 1950s when anyone suspected of left-wing views was arraigned for 'Un-American Activities'.
