F stands for "funny" in this perfect gift for students or anyone who has ever had to struggle through a test and needs a good laugh. Celebrating the creative side of failure in a way we can all relate to, F in Exams gathers the most hilarious and inventive test answers provided by students who, faced with a question they have no hope of getting right, decide to have a little fun instead. Whether in science (Q: What is the highest frequency noise that a human can register? A: Mariah Carey), the humanities (Q: What did Mahatma Gandhi and Genghis Khan have in common? A:

Unusual names), math, or other subjects, these 250 entries prove that while everyone enjoys the spectacle of failure, it's even sweeter to see a FAIL turn into a WIN.

bestselling work of undercover reportage from our sharpest and most original social critic, with a new foreword by Matthew Desmond, author of *Evicted* Millions of Americans work full time, year round, for poverty-level wages. In 1998, Barbara Ehrenreich decided to join them. She was inspired in part by the rhetoric surrounding welfare reform, which promised that a job—any

job—can be the ticket to a better life. But how does anyone survive, let alone prosper, on \$6 an hour? To find out, Ehrenreich left her home, took the cheapest lodgings she could find, and accepted whatever jobs she was offered. Moving from Florida to Maine to Minnesota, she worked as a waitress, a hotel maid, a cleaning woman, a nursing-home aide, and a Wal-Mart sales clerk. She lived in trailer parks and

crumbling residential motels. Very quickly, she discovered that no job is truly "unskilled," that even the lowliest occupations require exhausting mental and muscular effort. She also learned that one job is not enough; you need at least two if you want to live indoors. *Nickel and Dimed* reveals low-rent America in all its tenacity, anxiety, and surprising generosity—a land of Big Boxes, fast

food, and a thousand desperate stratagems for survival. Read it for the smoldering clarity of Ehrenreich's perspective and for a rare view of how "prosperity" looks from the bottom. And now, in a new foreword, Matthew Desmond, author of *Evicted: Poverty and Profit in the American City*, explains why, twenty years on in America, *Nickel and Dimed* is more relevant than

ever.

A 30-day program for reaching a new level of energy, clarity, and calm, based on a paradigm shifting idea: You have to change your body to change your mind and mood. Too often, conventional medicine treats the body as separate from the mind, ignoring physical issues like

chronic illness and weight gain. Science shows that these issues are oftentimes intricately entwined with mood issues like depression, anxiety, stress, and persistent fatigue. In *State Change*, Dr. Berzin draws on cutting-edge research and her work with thousands of patients to tell the complete story of how our bodies drive our minds, mood, and energy levels. This

builds on her work at her nationally renowned holistic health service Parsley Health, where Dr. Berzin and her team of over 100 highly trained medical providers focus on treating the whole patient, yielding extraordinary results for those dealing with gastrointestinal, hormone-related, autoimmune, and mental health conditions. This trailblazing book explores the new

science of optimizing the body in ways that will help anyone attain a new baseline for energy, calm, and optimism. Dr. Berzin believes that treating common imbalances in the body is the only way to achieve what she calls a state change—a transformation to higher levels of mental focus, emotional stability, and flow. Leveraging Parsley's unique patient data and

successful proprietary protocols, State Change includes a 30-day program for resetting the body, mind, and mood. With easy-to-understand advice and detailed personalized assessments, State Change is the ultimate gateway to a positive mental state and peak physical health.
