Anticipation Guide - Strategies for Students

The topic can be on anything and that is why it can relate to any of the other content areas.
Math: For math there are different ways a teacher can use an anticipation guide. For example when students are learning about a new concept, ex: geometric figures, the teacher can have a set of statements.
Anticipation Guide Examples Science
An anticipation guide is a comprehension strategy that is used before reading to activate students' prior knowledge and build curiosity about a new topic.
Before reading,

students listen to or read several statements about key concepts presented in the text; they're often structured as a series of statements with which the students can choose to agree or disagree.

Anticipation Guide Examples Science - svc.edu

As stated on the Anticipation Guide itself, "Anticipation guides help engage students by activating prior knowledge and stimulating student interest before reading." Students read the eleven

statements and decide if they agree or disagree with the statements, recording their answers in the first column.

This student is anticipating what he or she is about to read. Here is an anticipation guide that is used for math. Students answer true and false statements before they learn about geometry. After the geometry unit, students answer the same statements. By doing this

anticipation guide, students can see what they need to learn throughout the unit and it activates their prior knowledge. [Frankenstein Anticipation Guide \(PDF\): "It's Alive](#)

...

This Frankenstein anticipation guide PDF prepares students to read the original novel by Mary Shelley. Activate prior knowledge, engage with key theme subjects, create interest, and set a purpose for reading. The conventional format for anticipation guides asks students to agree or disagree with a

set of statements and justify the responses.

Anticipation Guide
+ Character POV
To help students
understand point of
view (POV), you

can use an anticipation guide where students write down how they feel about the statements. Then, after they read the story, they write down how a specific character feels about the same statements.
