Essay from the year 2012 in the subject Literature - Medieval Literature, grade: A, Lindenwood University, language: English, abstract: Many times, people seem different by the actions they take. It is easy to judge another person by the goals and visions this person has and pursues as well as his or her values, not paying attention to the underlying character. However, no matter how different these goals are, the personality of the two persons can still be much alike. Examples for this are Antigone and Creon in Sophocles' Antigone. Although similar in character, the visions and values that they follow are so distinct from each other, that it makes it easy to take side for one of them. With her values and her loyalty to the individual, Antigone is the one who overall wins my side and sympathy over Creon.

This commentary on the action and argument of Sophocles' Antigone is meant to be a reflection on and response to Hegel's interpretation in the Phenomenology (VI.A.a-b), and includes, in addition, two appendixes dealing with Aeschylus' Septem. It thus moves within the principles Hegel discovers in the play but reinserts them into the play as they show themselves across the eccentricities of its plot. Wherever plot and principles do not match, there is a glimmer of the argument: Haemon speaks up for the city and Tiresias for the divine law but neither for Antigone. The guard who reports the burial and presents Antigone to Creon is as important as Antigone or Creon for understanding Antigone. The Chorus too in their inconsistent thoughtfulness have to be taken into account, and in particular how their understanding of the canniness of

man reveals Antigone in their very failure to count her as a sign of man's uncanniness: She who is below the horizon of their awareness is at the heart of their speech. Megareus, the older son of Creon, who sacrificed his life for the city, looms as large as Eurydice, whose suicide has nothing in common with Antigone's. She is "all-mother": Antigone is anti-generation.

Laughing with Medusa explores a series of interlinking questions, including: Does history's self-positioning as the successor of myth result in the exclusion of alternative narratives of the past? How does feminism exclude itself from certain historical discourses? Why has psychoanalysis placed myth at the centre of its explorations of the modern subject? Why are the Muses feminine? Do the categories of myth and politics intersect or are they mutually exclusive? Does feminism's recourse to myth offer a script of resistance or commit it to an ineffective utopianism? Covering a wide range of subject areas including poetry, philosophy, science, history, and psychoanalysis as well as classics, this book engages with these questions from a truly interdisciplinary perspective. It includes a specially commissioned work of fiction, 'Iphigeneia's Wedding', by the poet Elizabeth Cook.

Prophecying Tragedy investigates the political and epistemological dimensions of the conflict between heroes and prophets in Homer's Iliad and Sophocles' Theban plays, Antigone, Oedipus the King, and Oedipus at Colonus. Rebecca Weld Bushnell asserts that an understanding of tragic fate, as represented in prophecy, can be achieved through an awareness of the historical relationship of tragedy to culture and politics, for the tragic hero's interpretation and defiance of prophecy both reflected and influenced the political abuse of oracles and omens.

After her father's death in exile, Antigone returns to Thebes determined to set the record straight and restore her father's reputation. Tracing the histories of Oedipus and his parents Laius and Jocasta, as well as

the peripheral characters of the plays who had a central role in him fulfilling his destiny, Antigone's 'biography' causes us to re-evaluate the extent to which any of us can be entirely blamed for the actions by which we will be defined. Ending with Antigone making a conscious choice to reclaim her brother's corpse from the battlefield, an act of defiance which will guarantee her own death, the book ultimately meditates on the illusion of free will, and the warning that context is everything, I, ANTIGONE will be a major contribution to the reclaimed classics.
