Alpha Edition

"Invites students to step into the lives of naturalists who followed their dreams, and often risked their lives, to explore the unknown. Each of the nine stories in this brief reader chronicles the dramatic adventures of an influential zoologist, geologist, paleontologist, or geneticist on their path to some of the most important discoveries that have shaped our understanding of how life has evolved. Cultivates an understanding of the physical hardships the featured explorers endured and the obstacles they had to overcome in challenging societal belief systems and initiating paradigm shifts in the scientific community" - from publisher.
