AP® Calculus AB & BC All Access Book + Online Barrons Educational Series

Multiple Choice Questions to Prepare for the AP Calculus AB Exam (4th Edition) is your essential tool to scoring well on AP Calculus AB Exam. This book fits the College Board requirements for the 2022 AP Exam, and reflects all the recent changes in the AP Calculus AB curriculum and the AP Exam format. The author, Rita Korsunsky, is an award winning

Calculus teacher whose students' scores on the AP Exam are: 100% passing and 94% fives. This book includes: *Six Multiple Choice Exams *Formulas and Theorems for Reference *Tips for the AP Test *An Answer Key Please note that the detailed solutions are not included (only multiple choice answers are). However detailed solutions with step-by-step explanations to each and every one of the 270 problems in the book, created in the form of PowerPoint presentations, are available to be ordered separately on www.mathboat.com This book is created with the student in mind. It is meant to reinforce key skills, such as attention to detail, to review all types of exam problems, and to have the optimal number of each specific problem type reviewed. It provides the reader with comprehensive practice, which will help the student gain confidence, knowledge and test taking skills necessary to do well on the AP Exam. The exams in this book are in the same format as the Multiple-choice section of the actual AP Exam. The problems in these exams

are similar in their level of difficulty, wording and variety to those on the AP Exam. The reference section of the book contains formulas and theorems needed for the AP test, which are carefully chosen, conveniently organized and easy to access and view. Another important feature of this book is a collection of effective tips for the AP Test, which helps the reader to avoid common mistakes, flaws and misconceptions. These helpful tips have been collected by the author over the years and shared with her own students, and are now being shared with you. This book has helped many students all over the U.S. to succeed on the AP exam. Also suggested for success on the AP Exam is Mathboat's "AP Calculus AB Lecture Notes" which is available on Amazon.com. It contains the slides printouts of all the Powerpoint presentations on topics covered by the entire Calculus AB curriculum and tested on the AB Exam. These Lecture Notes can be used for both review and learning, and are a perfect fit for every student no matter their current knowledge of Calculus. The ebook version of it, "AP Calculus Interactive lectures vol.1", is available on iTunes store. This ebook includes a complete collection of PowerPoint Presentations, covering the whole AP Calculus AB course. They come with theorems, proofs and numerous examples, approachable methodology, clear explanations and tested memorization techniques. They are an indispensable tool for a rigorous understanding of all Calculus concepts and problem-solving strategies.

Test-taking Strategies and Advice. Authored by a team of AP® Calculus teachers, the book gives you

the tips and topics that matter most on exam day. Crash Course relies on the authors' extensive

analysis of the test's structure and content. By following their advice, you can boost your score in

every section of the test. Realistic Practice Questions – a Mini-Test in the Book, a Full-

Length Exam Online. Are you ready for your exam? Try our focused practice set inside the book.

Then take our full-length online practice exam (one each for Calculus AB & BC) to ensure you're ready

for test day. If you're cramming for the exam or looking for a concise course review, Crash Course

is the study guide every AP® student needs. About Our Authors Joan Marie Rosebush teaches calculus

courses at the University of Vermont. Ms. Rosebush has taught mathematics to elementary,

middle school, high school, and college students. She taught AP® Calculus via satellite television to

high school students scattered throughout Vermont. Ms. Rosebush earned her B.A. degree in

elementary education, with a concentration in mathematics, at the University of New York in

Cortland, N.Y. She received her Master's Degree in education from Saint Michael's College,

Colchester, Vermont. Flavia Banu graduated from Queens College of the City University of New York

with a B.A. in Pure Mathematics and an M.A. in Pure Mathematics in 1997. Ms. Banu was an

adjunct professor at Queens College where she taught Algebra and Calculus II. Currently, she

teaches mathematics at Bayside High School in Bayside, New York, and coaches the math team for

the school. Her favorite course to teach is AP Calculus because it requires “ the most discipline, rigor and creativity. ” About Our Revisions Editor Stu Schwartz has been teaching mathematics since 1973. For 35 years he taught in the Wissahickon School District, in Ambler, Pennsylvania, specializing in AP Calculus AB and BC and AP Statistics. Mr. Schwartz received his B.S. degree in Mathematics from Temple University, Philadelphia. Mr. Schwartz was a 2002 recipient of the Presidential Award for Excellence in Mathematics Teaching and also won the 2007 Outstanding Educator of the Year Award for the Wissahickon School District. Mr. Schwartz's resource-rich website, www.mastermathmentor.com, is geared toward helping educators teach AP® Calculus, AP® Statistics, and other math courses. Mr. Schwartz is always looking for ways to provide teachers with new and innovative teaching materials, believing that it should be the goal of every math teacher not only to teach students mathematics, but also to find joy and beauty in math as well.
