5 Steps to a 5: AP Psychology 2021

Cengage Learning

This updated manual presents one diagnostic test and two full-length practice tests that reflect the actual AP Psychology Exam in length, subject matter, and difficulty. All test questions are answered and explained. It also provides extensive subject review covering all test topics.

Topics reviewed include research methods, the biological basis of behavior, sensation and perception, states of consciousness, learning, cognition, personality, abnormal psychology, and treatment of disorders.

This manual also presents an overview of

the test, extra multiple-choice practice questions, test-taking tips, and an analysis of the test's essay question with a sample essay. Enclosed with the manual is a CD-ROM that presents two more practice tests with answers, explanations, and automatic scoring, as well as extensive subject review. 5 Steps to a 5: 500 AP Psychology Questions to Know by Test Day, Second Edition McGraw Hill Professional

500 Ways to achieve your highest score From Schools of Thought to Research Methods, the Brain, and Neuroscience to Mood Disorders, Therapies, and Social Psychology -- there is a lot of subject matter to know if you want to succeed on your AP Psychology exam.

That's why we've selected these 500 AP-style questions and answers that cover all topics found on this exam. The targeted questions will prepare you for what you'll see on test day, help you study more effectively, and use your review time wisely to achieve your best score. Each question

includes a concise, easy-to-follow explanation in the answer key. You can use these questions to supplement your overall AP Psychology preparation or run them shortly before the test. Either way, 5 Steps to a 5 500 Psychology Questions will get you closer to achieving the score you want on test day.

Barron's AP Psychology with CD-ROM McGraw Hill Professional

Compact Review: Your AP course work most likely covers lots of important concepts. With a whole year's worth of material, how can you tell what to study for the AP exam? We eliminate the guesswork for you, because in this book we provide a thorough yet concise review of all the topics tested on the AP Psych Exam. You see, when a teacher puts a course together, the goal is to help you learn and understand as much psychology as possible. Therefore, a good teacher will supplement the basics of the course with contemporary examples and other interesting illustrations to make the course more relevant.

Although this is arguably the best way to teach a subject, it is not the best way to prepare for a standardized exam. This book, unlike your course in school, has been put together strictly for the purpose of AP Psychology Exam preparation: We focus only on the topics you need to know to do well on the AP Psych Exam.
