"You Got Into Where?" is the first college admissions guide written by a student who is fresh out of the college admissions process. Learn how I was admitted to schools like the University of Southern California and New

York University with full tuition scholarships. The guide features copies of my admissions essay, writing supplement, and activities resume that I used to apply to college the fall of my senior year. Get advice on all the secrets of the admissions process from start to finish. "I can't believe that a 17 year-old has written a college admissions books that is so well-written, clear and accurate. No wonder USC jumped at the chance to have her become their student. My sense of things is that mostly parents read college admissions books; high school students just don't want to take the time. Given what she says and how she says it, I truly believe that teens will rush to read "You Got Into Where?" It is well worth their time."
