"This is History Book. It explored the grand
scheme of world history as a product of real-
life human beings pursuing their individual
and collective interests. It also offered a
global perspective on the past by focusing
on both the distinctive characteristics
of individual societies and the connections
that have linked the fortunes of different
societies. It has combined a clear
chronological framework with the twin themes
of traditions and encounters, which help to
make the unwieldy story of world history
both more manageable and more engaging. From
the beginning, Traditions & Encounters off-
ered an inclusive vision of the global past-
one that is meaningful and appropriate for
the interdependent world of contemporary
times"--
